McKenzie Sr., Was the Target, but Was Missed—His Son Tackles the Would-Be Murderer and Disarms Him After a Fight. A fight took place Sunday forencon in Silver Creek township, in which D. M. McKinzie, ir., were on one side, and Harry Larison and John Bishop were on the other. All four are well known both in and out of the township where they reside, and the McKinzies are well-to-do farmers. There has been a grudge between them and Larison for some time past, and they claim Larison has threatened to do them all properties. Sunday afternoon they were riding along the road on horse-back when they saw Larison and Bishop standing in front of their gate waiting for them to come up. Just before they drove up one of their friends heard Larison tell Bishop that this was his chance, and he would "do" both of them. Torung McKinzle thereupon picked up a generous sized stick and prepared to defend himself. In passing Bishop's house, which this close to the scene of the encounter, McKinzie saw Mrs. Bishop run down to the road and hand Bishop a revolver. He consequently placed himself behind his horse as a screen. The elder McKinzie had not taken part in the difficulty up to this point, but failed to hit. ## M'NAUGHTON'S DEAD PETS.

Wants the School Board to Make Up to Him What He Lost. The regular meeting of the school board ook place last evening with President F.eld and Members Moore, Fonda, Bridenstein, invder and Thomas present.

Ex-Superintendent McNaughton stated to the board that when he left the city he left a show case containing a number of valuable stuffed birds in one of the rooms in the Washington avenue school building for safe keeping. Recently he had looked for the case and was unable to find it. One of the ex-members of the board, Mr. John Schoeut-gen, had looked over the High school mu-seum while on the board and found that it contained more birds than the district was entitled to. He would like the board to give him an equivalent of the birds he had lost, and reimburse him for the missing case. Mr. Thomas did not think the board could be held responsible for the birds. The matter was referred to a special committee he board that when he left the city he left could be held responsible for the birds. The matter was referred to a spec.al committee consisting of Messrs. Snyder and Fonda. Dr. Snyder recommended that a building be rented for the Cut-Off island school at \$22 per month. Superintendent Sawyer thought it might be better to divide the school so as to suit the people living in the north end of the island. On Fonda's motion the secretary was instructed to ascertain he secretary was instructed to ascertain is soon as possible the number of pupils and eport at a called mesting, so that the board

Chairman Bridenstein of the committee on teachers reported that three of the teachers engaged at the preceding meeting. Misses Viva Gilliland. Kate Shepler and Frances Dalley, had tendered their resigna-tions. He recommended that Misses Anna Stevens, Nellie Jacobs, Sina Groom and Kate Reed be engaged to fill the four vacancies now existing. Dr. Snyder pro-tested against the engagement of the last named of the young ladies on the ground that the place should be given to a Council Buffs girl. A little spat between Snyder and Bridenstein was quickly choked off. The superintendent reported that it was very difficult to get teachers to take up the work of the grades in which the vacancy had occurred. The report was adopted, Snyder alone voting no. instructed to notify the bondholders of the proposed redemption. The salary of the janitor of the High school was put on a par with that of the Bloomer school, and all others were fixed at the same figure as last year. Superintendent Sawyer called attention to the fact that if the board cared to use the plctures of the Madison avenue, Harrison street, Avenue B and Thirty-second street buildings in the forthcoming annual report cuts should be secured at once. The matter was referred to the committee on buildings and grounds with power to act. The superintendent stated that at the next meeting he should ask the board to pass a resolution allowing those pupils of makes so poor time that it reaches Chicago at the same time as the mail that leaves at 4:30 in the afternoon. As a consequence, the business men of Council Bluffs and Omaha are unable to get word to the Chicago firms with which they do business with anything like the promptness which the size and im-portance of the two places justify. Congressman Hager of this district has been requested to secure the newsage of a

law by congress instructing the postmaster general to make a contract with some road, preferably the Rock Island, for a fast mail service leaving Council Bluffs for the east about 9 o'clock in the moraing. He has signified his willingness to do all in his power. An effort is being made to enlist the people of Omaha in the movement, for they would be fully as much benefited by the change as those of this city. As the trains are now run all favors the next meeting he should ask the board to pass a resolution allowing those pupils of the High school who would not graduate until January on account of failure to pass examinations, to take their places on the platform and take part in the regular graduating exercises in June, without re-maining in school until the end of the year. #### **Roberts Wants a Retraction**

Dick Roberts, who has been helping the county jail prisoners to Dr. Pinney's wine for a number of days past, called at The Bee office yesterday morning and asked that a correction of the story published in The Bee yesterday be made. He said that the liquor had not been stelen from the doctor at all, but was his own private property, to do with as he saw fit, although he admitted that he had stepped over the bounds of decorum a trifle in giving county prisoners wine.

On leaving The Bee office he went to the office of Dr. Pinney, where he found Sheriff Hazen in consultation with the Hoctor. "I've just been to The Bee office." said he. "and they promised to correct that article that said I stole the doctor's wine. For I didn't-it was my own; it didn't come from the cellar at all." "Well, I didn't know before whether

ought to have you arrested or not," ejaculated the sheriff, as he seized his hat, "bu this settles it; if you're going to try to lie out of it, we may as well sift the thing to the bettom. I'll go and file an informadepartment. tion now."

He got as far as the door when Robert for by the management of the Pottawattamie found breath enough to call out: "Hole on, sheriff, hold on. I'll confess every thing. I stele the wine from Dr. Pinney's ounty normal institute, which has been in session here during the last week, and will cellar

The order of the mayor, issued about a month ago, forbidding saloons from running short of funds and presented a check to Conrad Geise & Son in payment of a bill of \$25, which he ran while in the hotel busion Sunday has been more or less strictly enforced, and yet some of the saloonists have found it possible to quench the thirst of their patrons at so much per quench in splie of the order. All the saloons that have been opened on Sunday, however, have been run very slyly, for it was well unto cash the check, giving him the balance. He then visited Metcalf Bros.' store and bought \$20 worth of goods, tendering a check for \$20, signed by himself, in payment. This was refused, and he mentioned the fact that he knew Fremont Benjamin, and derstood that the order of the mayor was not meant to be for purely ornamental pur-poses. Yesterday something over half a dozen saloon keepers stood up in police court to answer to the charge of keeping open saloons on Sunday in violation of law. None of them have had their hearing yet, but will probably have one this morning.
