Pumocratic Members of the Tariff Conference Committee Enlighten the Republicans.

ARE AS FAR FROM AGREEMENT AS EVER

FOINTS

Coal, Sugar, Wool and Cotton Schedules the Principal Bones of Contention-Will Try to Get Together Today and Reach an Agreement.

WASHINGTON, July 17 .- The first formal conference on the tariff bill with all the senate and house members, both democratic and republican, present, was held today, and continued only about an hour. An adjournment was then taken until 2 o'clock tomorrow. The proceedings of the full conference constated in an effort on the part of the democratic members to enlighten their republican colleagues upon the elements of disagreement between the democratic membars of the two houses without revealing the methods by which they have sought to get together or the details of the proceedings of the democratic conferences. It had been expected the republican conferees would at the outset induige in some criticisms on having been kept out of the conference during its initial stages, but the republicans had little to say beyond formal greetings and waited until Senator Voorhess, as the head of the democratic members, made a somewhat formal and full statement of the situation. He said no discourtesy to the republicans had been intended. The meetings had not been conference meetings, but had been confined to an effort to bring about some settled pol-ley among the democratic conferees. Sen-ator Voorhees added he was frank to confens the efforts toward agreement had not proved successful.

The features of disagreement were then gone into at considerable length by Mr. Voorhees and his associates. The result is the coal, sugar, wool and cotton schedules had been the chief hone of contention, but he been the chief bone of contention, but he did not give particulars in any case, except that of sugar, with reference to which it was stated the house members had indicated a willingness to grant some duty on that article, but had objected to the differential duty on refined sugar. On the other articles which had been the basis of disagreement, ference Vorther and the description was Senator Voorhees and other democratic mem-bers of the conference contented themselves with saying the democratic conferces of the with saying the democratic conferees of the two houses had contended each side for its own bill. This had been especially so in the metal and woolen schedules, the senate amendments to which had been strongly obfacted to by the house conferees. They said among other special articles in the metal schedule, the house members had held out for free iron are and for the house rates on lead are containing silver, cutlery and steel rails. They had also demanded-so it was

reported to the full conference-free coal. In the general discussion the republican conferees gathered that sugar, iron ore, coal, the woolen schedule, cotton schedule and silver-lead bearing ores were the chief ques-tions of the disagreement. The question finally arose as to what would be done now that the full conference had assembled. It was suggested by Senator Aldrich that the bill should be taken up item by item and be considered by republicans and democrats, but the point was raised that this appeared to be hardly worth while, in view of what the democrats had just disclosed that there was no prospect of argeement on the main question. There was no further proposition sub-mitted and no program outlined, and the conference adjourned until 2 o'clock tomor-row, the democratic conferees agreeing to meet prior to that hour to further consider As a result of the day's meeting, the re-

publican conferees concluded a general dis-agreement would be reported to both houses within a few days. There was no distinct statement or proposition to this effect, but it appeared to be the only conclusion to be drawn from what occurred.

COREAN SITUATION UNCHANGED.

Japan Declines to Withdraw Her Troops from the Country.

WASHINGTON, July 17,-The latest tele-

New System of Accounting a Great Factor in Public Economy. WASHINGTON, July 17 .- In the legislative bill which passed_the senate yesterday was embodied one of the most important changes in the routine work of government made since the war. The bill carried into effect the recommendations of the Dockery com-

mission to reorganize the accounting system of the Treasury department which was established in 1792 by Alexander Hamilton and has been in vogue since with occasional re-visions. Although defended by Senator Sherman the system was said by the commission of experts to lack symmetry and to be cum-berous to the extent of congesting the business of the department. The new plan will not go into effect until October, as time will be required to make the changes. The ex-isting system includes a triple examination of accounts, whereas the new plan provides for a double examination with checks and safeguards modeled after the workings of some of the largest corporations in the coun-try. It abolishes the first, second and third comptrollers and creates a comptroller who

THE PARTY PROPERTY FOR THE

is the law officer of the treasury, and in a sense an appellate court, since his construction of the statutes will govern the audi-tors in settling accounts. The new system, which will bring up to date work which is dragging two years behind, is intended to se-cure the prompt adjudication of claims and accounts, while incidentally it saves the gov-ernment \$200,000 a year by dispensing with the services of 185 clerks. Another work of the Dockery commission is the new form of money orders which came

into use on the 1st of the month, superseding the old money orders and postal notes, which latter are entirely abolished. In form they are more like the postal notes than the money orders which they succeed, having Habutal wash silks, in stripes and checks, the very best quality made, in a hundred different colorings. Our price is only 25c a oupons which show the amount they carry yard. so arranged for elipping that the orders can-not be altered without decreasing their value. An elegant quality of genuine Japanese silk, in every shade manufactured, 85 Most important, however, they involve a saving both to the government and the user colors, sure to have the one you want. Our Where else can you get a beautiful quality since smaller fees are allowed to postmasters for issuing them, making the uniform rate of 3 cents, and the charges to the public are of yard wide habutal white wash silk at the price we name on it, but here, at 59c a

reduced ranging from 3 cents for orders less than \$2.50 up to 30 cents for \$100. yard? than \$2.50 up to 30 cents for \$100. The Dockery commission has been in ex-listence but little more than a year, having been organized June 5, 1893, by an act of congress. Its head is Representative Dock-ery of Missouri. With him are associated Representatives Dingley of Maine and Rich-ardson of Tennessee, and Senators Cockrell, Jones and Cullom. The work of investigation of the husiness methods of the departments We have just 500 yards of a beautiful quality of black India silk that is full 38 inches wide and will give splendid wear, at 75c a yard.

of the business methods of the departments has been carried on by J. W. Reinhart, C. W. Haskins and E. W. Sells. Eight or ten bills have been recommended by the commission, all of which have become

laws. One of the most important was that which provided for the purchase of supplies for all government departments by a com-mitteee of three, and another was the bill doing away with the expensive engrousing of acts of congress and directing that they should be printed.

EARNS THE BIGGEST PREMIUM.

Minneapolis Made More for Her Builders Than Any Other Vessel

WASHINGTON, July 17 .- The Minneapolis has done even better than the first reports indicated on her trial trip. Yesterday Commodore Selfridge telegraphed the Navy department that the vessel made 23:05 knots, subject to tidal corrections. These corrections were made last night, and today the commodore reported that after making allowance for the tides and currents the average speed was 23.07 knots. By the contract she was required to make 21 knots, and the con-tractors were to receive a bonus for excess speed on the basis of \$50,000 for each quarterknot, so that, according to Commodore Self-ridge's figures the premium earned will amount to \$414,600, the largest ever earned

by a vessel. When proposals were received for building When proposals were received for building the Minneapolis, it was found that the Bath iron works was the lowest bidder at \$2,690,-000, Cramp's coming next with a bid of \$2,-745,000. The secretary of the navy decided that at that time the Bath Iron works had hardly a sufficient plant to undertake the construction of so large a ship, and he of-fered to bestow the contract on the Cramps if they would reduce their bid to the figure of the Bath Iron works, which they did, so that with the premium earned on the triat the total cost of the vessel is \$3,294,600.

In addition to these Special Wednesday offers, there are unheard of values in Millinery, Wash Suits, and Waists .- Men's fast black hose, 12 1-2c. 10 yards challis for 15c; only one pattern to a customer. Ladies' \$1.00 hand bags, 49c. There are three leaders for Wednesday.

graphic reports received here indicate that the Corean situation is substantially unchanged. It is stated that the Russian government has expressed itself satisfied with the reply of the Japanese government, which disavowed any designs upon Corean territory, but which declined to withdraw the Japanese troops from Corea until some action was taken to prevent the constant recurrence of the distrubances in that country which constitute such a dangerous menace to Japanese interests. It is stated that the Chinese government has peremptorily refused to consult with the Japanese government for the purpose of devising means to assist Corea in removing the abuses which have caused the present trouble, and has confiend its replies to this request, which has been repeated several times, to a demand for the with-drawal of the Japanese troops form Corea. The impression prevails that this was the substance of the answer made by the Chung LI Yamen last week when the British minister at Pekin tendered his personal good offices to effect a settlement of the differences between the two countries. The gen-eral opinion in Japan is that the government has done all that it can properly do to maintain the entente cordiale with China, and that the responsibility for any complications that may onsue must consequently rest upon the latter country.

SENATE PROCEEDINGS UNINTERESTING

House Bill for the Resurvey of Grant and Hooker Counties Passed.

WASHINGTON, July 17 .- Among the bills reported to the senate today and suitably referred was one for the construction of a tunnel between the new library of congress and the capitol for the transportation of books, etc., at a cost of \$35,000.

Mr. Vest also reported a bill for the sale of the custom house property in Louisville, Ky

A bill to amend the constitution with a provision as to the hours of labor was intro-duced by request by Mr. George. It was referred to the committee on immigration. The following house bills were passed: To authorize the construction of a bridge over the Mississippi river at Dubuque, Ia.; providing for the resurvey of Grant and Hooker counties, Nebraska.

Consideration of the agricultural appro-priation bill was then resumed, and Mr. Hansbrough offered an amendment appropriating \$1,000,000 for the destruction of the Russian thistle upon the bill as a "rider." A point of order was made against it by Mr. Cockrell of Missouri, but by a vote of 26 to 22 the senate decided the amendment to be in order, and it was adopted, 27 to 24. At 6:20 the senate adjourned.

Will Confiscate the Plates.

WASHINGTON, July 17 .- Chief Hazen of the secret service, questioned as to what action would be taken by the government in case the governor of Mississippi refused to discontinue the circulation of special warrants close imitation of United States notes, said he could see no other course to pursue than to confiscate the plates and as many of the warrants as could be found. The treasury officials do not question the right of the state to issue warrants, their only contention being that the warrants should not be printed

in imitation of United States notes. Chief Hazen of the secret service today Chief Hazen of the secret service today received a telegram from his agent at St. Louis stating that he had in his possession the plates from which the "special war-rants" issued by the state of Mississippi were printed. After consultation today with Secretary Carlisic, Chief Hazen said he would send one of his special agents to Jackson, Miss. to confer with Governor Stone, and explain to him in what respects the issuance of these warrants is a violation the issuance of these warrants is a violation of the statutes.

Strike Investigating Committee Discussed. WASHINGTON, July 17 .- It is understood the selection of the commissioners to investigate the late strike was under discussion by the cabinet, but so far there are no open indications of speedy action in the matter. The president is disposed to act with the greatest circumspection in choosing men of

Nominated by the President. WASHINGTON, July 17 .- The president has sent to the senate the following nomina tions:

State-David A. Wells, jr., of Connecticut, to be second secretary of the legation of the United States at London; James R. Jackson of New Hampshire to be consul of the United States at Sherbrooke, Ont. Interior-John C. Arnold of Oregon to be surveyor general of Oregon. To be Registers of Land Offices-John T. Joyce, at Leadville, Colo.; George H. Stevenson, at Vancouver, Wash. Postmasters-Mark E. Hughes at Sonora, Cal.

Confirmed by the Senate.

WASHINGTON, July 17 .- The senate in executive session today made public the following confirmations: J. M. Evans, register of the land office at Missoula, Mont.; Wil-liam Murphy, receiver of public moneys at Missoula; Patrick F. Walsh, pension agent at San Francisco; John S. Mitchell, postmaster at Newcastle, Cal. Thousands of new patrons shave taken

A Scandalous Affair.

A couple of young married women, one the wife of a business man and the other the wife of a railroad man, had an experi ence Monday night they will not soon forget They also had their first hour in jail, with a disreputable hack driver named Buck Keith and a gambler and loafer named Carter.

According to the story told by one of the women, they had been spending the afternoon with a party of friends and relatives at Lake Manawa. Among the list of refreshments served was beer, and they in-dulged in too much of the amber liquid and became decidedly dizzy. The husbands had to return to Omaha early in the evening, leaving their wives to follow at their leisure. When the women got to this city they stopped at a well known cafe and indulged in more beer and a lunch. Then they were filled with a desire to see more of the town and, summoning a hack, were being driven around by Keith. He undoubiedly was aware of their condition, and, thinking they would be easy victims to his desires, he summoned a pal, who happened to be Carter The hack was driven to the St. Clair lodging house just back of the Millard on Thirteenth street, and upon some pretext or another the women were persuaded to enter this place. After getting the women into room, the men plied them with liquor and hen attempted unwarranted liberties. One of the women was too drunk to know what she was about, but the other realized their danger, and, after a sharp struggle with one of the follows, during which her hands were severely scratched and torn, she man-aged to get away and shouled for the police. Officers appeared and placed the whole party under arrest. They were taken to the sta-tion and assumed names given. Shortly

afterward the men were let out on ball, and later on the husband of one of the women came down and put up a cash bond for the women and took them home. Keith ap-peared in the police court yesterday and was fined for disorderly conduct. Others of the party forfeited their bonds.

BOARD'S REPORT WILL INDICATE THIS All the Testimony Carefully Examined and Nothing Discovered Calculated to Establish the Fact that Patients LINCOLN, July 17 .- (Special to The Bee.) -Now that the Board of Public Lands and Buildings has gone over all the testimony obtainable in the asylum case the members are waiting for a cool day when they will get together and find that that institution is conducted in a manner highly creditable to the state, or at least they so intimated to a reporter today. The inspec tion made at the hospital yesterday was of the most searching character, and Dr. Hay, the superintendent, did everything possible to assist the investigators. The Lincoln ball team yesterday played the Young Men's Christian association nine and had very little difficulty in proving to their opponents that ball playing is a

favor of the professionals. Detective Malone of the local police force oday placed in durance vile a local tough known as "Dutchy" Rouett on suspicion of being the murderer of E. E. Drummond, the Lincoln traveling man who was killed at Holdrege. The detective that Rouett is known to have been at Hold-

rege on the night of the murder. At a meeting of the State Board of Equaliza ion, held yesterday afternoon, an estimate was made of the assessed valuation of the state, the counties of Boone, Boyd, Burt, Custer, Garfield, Hayes, Perkins and Thurston not having reported. According to this the state is worth this year about \$183,000,000, or \$11,000,000 less than it was last year. Mrs. Goudy, deputy superintendent of edu

cation, left today on a visiting tour to the teachers' institutes of Perkins, Kearney and Johnston counties.

passed over the veto of the mayor an ordinance relating to areaways which given property owners three feet six inches of the alley, which practically reduces the alleys from a width of sixteen feet to nine. D. W. Aldridge of the Northwestern, E. P. Brinegar of the Rock Island, L. E. Ses-sions of the Monon, G. B. Teedrick of the Pennsylvania, W. S. Howell of the Omaha and F. N. Prophet of the Union Pacific were members of a party of railway mon in the city yesterday attending the session of the transportation committee of the Knights of Pythias excursion board. After the completion of their business they were en-tertained at Burlington beach, in company with Colonel W. B. Dale of Columbus, F. W. Barclay of Beatrice, Z. P. Hodges of South Omaha, J. M. Killian of Columbus and G. E. Wetherby of Oakdale. The Bureau of Labor Statistics is sending

Uncle Sam objected to some of the bonds-men, and requested Mr. Delaney to give more bonds. This caused the postmaster's ire to rise. His bondsmen telegraphed the department to send an inspector here to investigate matters. Accordingly Inspector Sinclair arrived yesterday morning, and after checking up the books found every-thing all right, which greatly relieved some

of the badly frightened bondsmen. Delaney presented the inspector with his resignation, and requested that his bonds-men take charge of affairs, which they did, and placed Enoch Walker in charge of the office. Walker was postmaster dur ing the Harrison administration and gave excellent satisfaction.
