COMMERCIAL AND FINANCIAL

Day's Influences in the Grain Markets Were Generally Bearish.

WHEAT OPENED AT A SLIGHT DECLINE

General Tone Was Easter and Offerings Gradually Increased as the Session Advanced Corn Started Strong but Weakened Later.

CHICAGO, July 17 .- The day's influences in the grain markets were generally bearish and all closed lower. Wheat finished Me lower, corn %c lower and cats %c lower. Provisions closed with but little change.

Wheat opened at from 1/2c to 1/4c declins and gradually sold down from 14c to 14c. changed some and closed easy. The general tone was easier and offerings gradually increased as the season advanced, influenced to a great extent by the larger receipts in the northwest as well as here and showers and cooler weather for the Dakotas and Minnesota being predicted by the Washington weather burear. Pardrige sold freely. Early public cables were firm and unchanged for spot and futures were quoted dull and unchanged, but private advices quoted an easier feeling in Berlin and Liver pool, the latter closing lower. There was considerable liquidation by small longs and this and the general duliness, together with the selling mentioned above, created a weak feeling and lower prices.

Corn was strong at the start on the dry weather, but weakened later on heavy sell ing. The range was ic.
Outs were easy on large offerings and the decline in wheat and corn. The range wa

Provisions were very dull and narrow, bu generally firm on a light run of live hogs and better prices at the yards. Compared with last night, September pork is with las' night, September pork is un-changed, September lard 2½c lower and September ribs 2½c higher. Estimated receipts for tomorrow: Wheat, 80 cars; corn, 200 cars; oats, 120 cars; hogs.

Freights steady at 76c for wheat and corn to Buffalo and le for corn to Port Huron. The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close.

OMANIA GENERAL MARKETA

OMAHA GENERAL MARKETS.

Condition of Tride and Ouetations on Staple and Fancy Produce. The produce market was about steady today,

with no change of importance. While the demand for produce was not large, there was a very fair trade. The egg market appears to be a little unsettled and dealers are not at all agreed as to the situation. The receipts are a little unsettled and dealers are not at all agreed as to the situation. The receipts are light and no ene is getting any quantity of eggs. Reports from the houses in the country indicate that they are not receiving many and it is a question where the eggs are going to. The price in the country is so low, 4c, that the eggs such to sell lower here, but on the other hand there are so few eggs arriving that the market does not so down very readily. While series dealers are talking about 8½ for eggs, basing their opinion on the light receipts, others are talking to as the outside price.

Butter and poultry remain steady and the trade is without feature of any immeriance. Receipts of hay continue very liberal, and in consequence is weak, with a downward tendency. Dealers, however, look for a recovery as soon as the present surplus is reduced.

BUTTER—Parking stock, 8c; good to choice country, Harlet, treamery, soild packed, 15416c; creamery, bricks, 16618c.

EGGS—Per dox., \$48390

LIVE FOULTRY—Old frens, 6c; spring chickens, 154125c. The demand for gesse and ducks is very light. Ducks, 7c; hen turkeys, 7438c; gobblers, 546c; geese, 34546c.

VEAL—Choice fat and small cream, new make, 1961c; Nebraska and Iowa, part skims, 645c; Limburger, No. 1, 190; brick, No. 1, 10c; Swiss, No. 1, 13011c.

 Light bales self the best. Only top grades bring PRICEONS Old birds, per dox., \$1. VEGETABLES.

VEGETABLES.

Tomatoes are quoted higher, and the cabbage market is firm. Watermelons are very plenty but there are no cantalouses.

No general combinant of the potato crop is made anywhere and the presumption of a good crop for the country seems supported by the appearance in all large sections. There are small parts of many states where dry weather has retarded grawth, but these are too restricted to diminish stratify the present condition. Even South Dakota, where the drouth was so severe, reports potatoes growing well since the rains, and in localities where whent, oats, and barley scarcely survived, potatoes are looked to for fair results.

results,

TOMATOES—Good shipping stock, per 4-basket crate, \$1.50.

FRUITS

The market continues practically bare. Several cars of delayed California fruit were reported on the way east from Ogden, but none of the cars were billed for this point. This fruit was sent out of California before the commencement of the strikes and by this time could hardly be worth much.

A few Oregon cherries have been received on this market and sold readily at \$1.50 per box to the local trade.

A Georgia paper says that the peach crap of that state is a total failure. It is also claimed that grapes will be only half a crep.

A California writer remarks that the railrand blockade bids fair to have more than a temporary effect upon the fruit growers of that state. The suiden step-jage of railr ad traffic has caused enormous loss to the truit growers, as they have no appliances for drying their fruit. Even if they seemed trains they would be unable to hire help enough to work up so vast a quantity. What makes it particularly bad is that many of these fruit growers have their places mortgased, as it costs heavily to get an orchard into full learing, and these men will be sure to fail. They cannot get the banks to carry them through another senson. In San Francisco stremuous efforts have been made to break the railroad bl ckade by leading merchants and bankers, but thus far with no success.

STOCKS AND BONDS.

Feature of the Trading Yesterday Was in Chicago Gas. NEW YORK, July 17 .- The feature of the trading today was Chicago Gas. At the opening the market was barely steady and quickly gave way under the influence of a selling movement, directed first against Chicago Gas, but which was subsequently directed against Distilling and in less force toward other shares. Sugar was at this time in good demand and moved up % per cent, being held firmly until depressed by reports of a disagreement in the tariff conference committee, when sales to realize profit, added to selling for the short account, caused a break of 2½ per cent, the last being the lowest price of the day. Considerable stock was taken all the way down by brokers who generally act for the in-side clique, which gives color to a belief held in some quarters that a squeeze of the shorts is in contemplation. The old short interest in the stock was materially lessened this morning, considerable bor-rowed stock being used. Distilling was the subject of a fierce bear raid, which was ac-companied by unfavorable reports from Washington regarding the spirits tax and from the east to the effect that business was falling off. As a result the stock broke on heavy sales 1½ per cent before noon.
During the afternoon the pressure to sell
was less pronounced and the closing sale
was at a recovery of % per cent, the decline for the day being only % per cent. The announcement that the Chicago common council had granted a franchise to a new gas company brought out much gas stock and induced short sales of the shares, causing a decline of 2% per cent, the bottom figure being reached in the late dealing, with a rally of % per cent, leaving a decline of 1% per cent from yesterday. The gen-eral market moved irregularly during the day, closing weak, with prices pretty evenly divided above and below the closing of last night. Among the chief declines are: Pullman 1½ per cent, Cottonseed Oil, Con-solidated Gas, Lead and Minneapolis & St. Louis, common and preferred, each 1

The bond market was strong throughout the greater part of the day, but was a shade easier at the close. The Evening Post says: By far the most extraordinary fact in the history of this season's security prices has been their slight variation from a common level. It will be found, upon comparison, that the average price of the market's active stocks was almost the same at the opening of June as it was at the opening of May, and that the ruling level now is substantially where

it was in May.

OMAHA LIVE STOCK MARKET

Receipts Continue Much Below the Number on Hand Last Week.

DEMAND FOR BEEF STEERS IS VERY LIGHT

Buyers Indifferent to the Small Offerings of Cornfeds-Under Grades Also Slow -Hogs in Better Request at

Higher Prices.

TUESDAY, July 17. Today's receipts were 900 cattle, 6,800 hogs, 1,090 sheep and 74 horses, as against 6,444 cattle, 10,633 hogs and 85 sheep received on Tuesday of last week. Thus far this week the receipts have shown a heavy falling off. For the two days there have been received 1,600 cattle, 8,500 hogs and 1,700 sheep, as against 11,198 cattle, 14,854 hogs and 537 sheep for the first two

days of last week. CATTLE-Out of the thirty-two cars of cattle received today there were nine cars billed direct to the packers, and the greater portion of the remainder was made up of stockers and feeders. There were in fact hardly enough corn fed beeves in the yards to make a market. There was one bunch of pretty fair cattle, but the majority of what few steers there were in were not overly good. The demand was very light on the part of both packers and shippers, and no one appeared to be very anxious to buy. At the same time what cattle cases about 10c higher on the most de-Desirable cow stuff was scarce and sold

at prices that would safely be considered stronger than festerday. The common stuff was about steady.

There were quite a number of stockers and feeders in the yards, both fresh re-ceipts and holdovers, but the demand, as has been the case for some time past, was light. The trade was slow and the number of head changing hands small. The mar-ket did not show any material change as regards price. Representative sales:

DRESSED BEEF.

HOGS-Every one appeared to want hogs today, both local packers and shippers, and as there were only 100 cars in there was a good, active market. The reports from Chicago were more encouraging and that fact, together with a good demand and light receipts, gave the market an upward turn of fully 10c. Weight did not cut so much figure as quality and the difference in range was small. The bulk of the hogs sold at \$4.95 to \$5, as against \$4.85 to \$4.90 yesterday. Everything was sold and the pens cleared at an early hour. Representative

CHICAGO LIVE STOCK.

Light Demand Marked the Dealing in Catthe Yesterday.

CHICAGO, July 17.—The day's run of cattle
was about 2,500 head. Of that number perhaps
1,000 head were Texans, leaving 1,500 as the supdy of natives. There was not much demand rom any source, but buyers could be found for from any source, but buyers could be found for so small a supply, and while there was no note-worthy advance in prices, the tone of the market was firm. The operations of local dressed beef firms were somewhat hampered by the recent strike among their employees and by the depressed state of trade at the east on the other side of the water. The measure supply did not, therefore, put buyers to any serious inconveniences. Sates were on a basis of from \$1.25 to \$4.55 for peer to extra natives, and from \$1.25 to \$2.55 for Texans of corresponding quality. Texans were strong to let higher than yeaterday. The best lot offered brought \$2.55. Fat cows and heifers soil well, and so did fat builts, while canners' stock was duly at former low prices. For hogs prices were higher. With only 9.0

ces.

For hogs prices were higher. With only 2,003 and as the day's receipts and little or nothing it over from Menday, sellers had decidedly a best of the situation, notwithstanding the of that packers are experiencing some difficulty filling places of the strikers. Opening sales ere at an advance of 10s, and the later materia, though less active, was not percentilly eaker. From 34.55 to 3.000 and the later materia, though less active, was not percentilly eaker. From 34.55 to 3.000 and the rate of the field of the heavy and medium eights brought from 55.10 to 55.25, and the pulm prices for light hogs were from 35 to 515. The bulk of the heavy and medium eights brought from 55.10 to 55.25, and the pulm prices for light hogs were from 35 to 515. The supply of the latter was not equal to the demand.

There was a little more life today in the heavy market, and while salers failed to got my important advance, the facing was sensibly riner. The best grades of sheep were saluted if from \$2.25 to \$1.50, and choice lambs were moted at from \$2.55 to \$1.50. From those figures motations ranged downward to from \$1.55 to 1.50 for scallawag sheep, and from \$2.50 to \$3 or thin, light lambles.

Recolpts—Cattle, 2,500 head; calves, 250 head; iges, 9,00 head; Sheep, 2,000 head; market firm: fair demand: Texans, higher; good to choice steers, \$4.0074.50, common to medium, \$2.504.50; Pexas steers, \$2.0071.55.

Height Perceipts, 2,000 head; market firm: fair demand: Texans, higher; good to choice steers, \$4.0074.50, common to medium, \$2.500.50; common to good light, \$4.5075.51; cuits, \$2.50074.75.

SHEEP—Receipts, 2,000 head; market more active, firmer; best grades, \$3.5075.51; common to good light, \$4.5075.51; cuits, \$2.50074.75.

Report from the State Weather Bureau or the Situation. Weekly Crop Bulletin of Nebraska For the week ending July 17, as reported for the United States weather bureau by Goodwin D. Swezey, director, Lincoln, Neb.: The first half of the week was hot and dry and injurious to all growing vegetation; the last half cool, with light showers, but not giving sufficient moisture for the best growth of crops.

The average temperature for the week ranged from about normal in the northern part of the state to three degrees below the normal in the southern.

Rainfall has been everywhere below the normal, ranging from none in the southwestern corner of the state to nearly an inch in Buffalo and Hamilton counties.

Threshing of wheat is general in the southeastern section, and a yield of from six to eighteen bushels is commonly reported. the last half cool, with light showers, but

onted.
Oats harvest is progressing rapidly in the southeastern section and has begun in the northeastern, and the crop will be light.

Tame hay is nearly a failure and the wild hay crop will be light.

The dry, warm weather of the first half of the week was injurious to corn, causing the leaves to roll in the middle of the day. The light showers of Saturday and Sunday temporarily improved its condition somewhat, but more rain is everywhere needed, especially as the crop is now represented. needed, especially as the crop is now gen-erally tasseling.

less than to1 SOUTHEASTERN SECTION.

Butler-Corn has made rapid growth.
Wheat and rye yielding light.
Cass-Corn beginning to need moisture.
Oat straw small and heads short. Pastures in fair condition.
Clay-Corn laid by in excellent condition.
But little hay. Small grain very light. Apples pienty for home demand. No blackberries or grapes. But few plums. Sugar beets growing rapidly and look well.
Fillmore-Crop condition but slightly changed. Chinch bugs greatly damaging corn. Little hay to cut.
Gage-Week favorable for crops. Showers on Saturday very beneficial. Oats a fair crop. erop.

Hamilton-Early corn injured, but late corn doing nicely. Pastures very short and no hay to speak of.

Jefferson-Dry and warm, causing oats to ripen too rapidly. Potatoes and hay Jefferson—Dry and warm, causing oats to ripen too rapidly. Potatoes and hay poor. Fruit promises well. Johnson—Crops slightly injured by hot winds. Oats well headed. Corn looks fine. Grapes and apples promise well. Lancaster—Millet needs rain. Nothing else suffering. Pastures better than for many years. years.
Nemaha—Harvest completed. Tame grass light. Planted corn injured by drouth. Listed corn rolls some, but is not seriously

Burt—Oats a light crop. Corn suffering for rain.

Boyd—Wheat harvest commenced. Will make a half crop. Corn daing fairly well.

Cuming—Everything suffering for rain.

Hay very light. Apples plenty and good.

Early potatoes a light crop.

Dixon—Corn looks well, but leaves rolling by day. Hay crop light. Oat cutting begun.

Dodge—Corn progressing fairly and mostly laid by, but needs rain badly. Blackberries dried up on the vines. Small grain yielding one-third to half a crop.

Knox—Pastures drying up and millet not growing. Hay being cut rapidly to prevent its drying up in the hot winds. Corn still holds out well.

Plerce—Early grain being harvested; light and thin and part of it poorly filled, Late grain in better shape. Corn doing fairly well.

well.

Platte—Corn doing well, mostly laid by.
Hay crop light. Rye a mild yield. Millet
doing well.

Stanton—Corn and potatoes beginning to
suffer for rain. Pastures drying up. Hay

rop short. CENTRAL SECTION. Buffalo-Wheat and oats will not Buffalo-Wheat and oats will not be enough for seed.
Custer-Itain of the 14th wet plowed ground four inches.
Dawson-Corn badly damaged. Chinch burs very plenty.
Greeley-Week rather dry, but ends with a good rain on the 14th, which helps everything. Loup-Dry, with hot winds, injuring Ment and corn slightly.

Merrick-Ground dry, but crops look well.
Pastures improving.

Nance-Corn, millet and pastures need a good, seaking rain.
Sherman-Nice shower on Saturday. Mil-let looks well.
Valley-Early corn doing finely, but us-

Dundy-No rain. Corn suffering badly.
Franklin-In the western and central parts of the county corn looks well and is beginning to tassel.
Frontier-Corn uneven. Some fields fine. Many too small and backward to mature. Furnas-No oats to speak of. Wheat very light. Corn injured, but with rain soon will make a fair crop.
Gosper-Week dry and damaging to corn. Small grain a total failure. Potatoes a short crop. Small grain a total failure, Potatoes a short crop.

Harlan-Corn and pastures drying up.

Early planted corn curis in the middle of the day. Potatoes almost a failure.

Hitchcock-Rain of last week helped pastures, but more is badly needed.

Kearney-Wheat very little. Oats and barley a small crop. Potatoes in poor condition and bugs plenty.

Nuckolls-Harryest nearly finished and threshing begun. Yield light.

Perkins-Corn looks well, although somewhat damaged by hot winds. Wheat yields will be light.

Red Willow-Drouth continues. Rain threatens, but fails to come.

Webster-Corn injured. Some of it tasseling. Pastures getting short.

WESTERN SECTION. WESTERN SECTION.

Cheyenne-Dry and warm. Rye harvest now on and a fair crop. Corn and potatoes excellent. All grain on the Belmont ditch in excellent condition.

Lincoln-Last week's hall storm destroyed crops to the amount of \$10,000.

NORTHWESTERN SECTION.

NORTHWESTERN SECTION.

Box Butte-Crops have made rapid growth. Corn and potatoes excellent.

Cherry-Hot wind injured crops, but corn doing fairly well.

Dawes-Corn late, Millet and late potatoes much improved by the rain.

Sheridan-Cern doing well, but the last week unfavorable for small grain.

Rock-A week of hot south winds, Local showers have benefited crop, but a good rain needed. Hay crop will be light.

WEATHER BUREAU CROP BULLETIN. Drouth is Seriously Affecting Corn in Some

Sections of the Country. WASHINGTON, July 17.-The weather bureau, in its report of weather crop con-ditions for the week ended July 16, says: The week has been cooler than usual throughout the southern portion of the St. Louis Live Stock Market.

the crop. The general condition of cotton, except over southwest Texas, where it needs rain, is satisfactory.

WASHINGTON, July 17.-The final memorandum on the wheat crop of India for the season ended March 31, 1884, issued by the Department of Revenue and Agriculture of the Indian government, has been printed here in a recent government publication. By this memorandum it appears that the harvest has varied considerably in differharvest has varied considerably in different parts of the country, being decidedly bad in the central provinces, excellent in the Punjab, and moderate elsewhere. The area of the current year's crop (1833-9b), the memorandum says, is estimated at 27,332,000 acres, compared with 25,429,000 acres the previous year, the revised estimate of last year's acreage, or an increase of about 3½ per cent. year's acreage, or an increase of about sig-per cent. Pre-total production of 1893-94 is placed at 5,823,000 tons, or 258,458,667 bushels of sixty pounds. The average product is given as 29,437,323 bushels, showing this yours crop to be 2,000,000 bushels below normal and 16,000,000 bushels below that of the previous

year. DES MOINES, July 17.—The Iowa crop-bulletin says another hot and dry week has added to the severity of this unprecedented drouth. Reports from all stations indicate that corn has reached the danger line and every day's continuance of the present conditions will lower its average yield. Pastures afford but little feed and streams and wells are below the low water mark. The cutting of winter wheat and rye is in
