CLEVELAND COUNSEL ON THE TARIFF.

A great deal of interest has been felt regarding the attitude of President Cleveland toward the pending tariff bill. The country has definite and authoritative information...

Mr. Cleveland is unqualifiedly opposed to the tariff bill. He declares that it falls short of carrying out democratic principles and responding to democratic pledges...

While not endorsing the sugar schedule of the tariff bill, Mr. Cleveland says that "sugar is a legitimate and logical article of revenue taxation, and that to tax it will not be running counter to democratic principles..."

These retrenchments in county finances are largely if not wholly due to the new rules adopted by the board within the past year. Under these rules every clerk and officer is held strictly to his work...

Should reform be formally invoked? The persistent refusal of Mr. Debs to formally declare the strike ended cannot fail to work great injury to railroad employees...

THE PRODUCTION OF GOLD. Those who ascribe the depreciation of values and financial and economic disturbances to a decrease in the production of gold will get no encouragement for their theory...

These are the days that make the people notice the absence of shade trees along the greater number of Omaha's principal streets. It is, to be sure, out of season for tree planting...

Following the example of Douglas county, Burt county has organized a Good Roads association, with the object of agitating for road improvement and showing how good roads can be secured.

With regard to future prospects it is estimated that the minimum value of the world's output of gold in 1891 will amount to \$165,000,000 and in 1892 to \$183,000,000.

THE OMAHA DAILY BEE, FRIDAY, JULY 20, 1891.

It was to have been expected that termination would be followed by reclamation, and that the strikers who have been accused of destroying railroad property and participating in riots would in turn accuse the railroad managers of themselves instigating the various acts of lawlessness.

A GRATIFYING EXHIBIT. The management of the affairs of Douglas county under the present board of commissioners merits commendation. A comparison of the statement of receipts and expenditures for the past fiscal year affords a gratifying exhibit.

For the fiscal year ending July 1, 1891, the net ordinary expenses were \$295,519.59, as against \$315,852.93 for 1890. The current expenses of the county hospital and poor farm during the year were over \$11,000 below the expenses for 1890.

After the Facts, the Verdict. The board of labor investigation, even though the organization of labor and the demand for labor are such that a strike cannot succeed a strike will not be necessary.

Reform Will Come of It. Philadelphia-made warships set a pace the city might profitably emulate. The Maharajah of Muck-Babar is taking in hand and other things on the side.

Government of Railroads. Twenty-three railroads have gone into the hands of the receiver since the beginning of the year. This makes ninety-seven that have shared that fate within the last year and a half.

Reform Will Come of It. Philadelphia-made warships set a pace the city might profitably emulate. The Maharajah of Muck-Babar is taking in hand and other things on the side.

POLITICAL POTPOURRI.

The name of Dr. Abbott of Fremont has been suggested for the populist nomination for congress in the Third district. The Fifth district republican congressional caucus will be held on Monday evening, Chairman McPherson having fixed the hour for 8:30 p. m., August 2.

Over one-half of the republican county committee has already been called and are busy for holding the others will be decided by the first of next week. G. A. Laikart of Tilden is reported to be ambitious to be the democratic candidate for treasurer.

Washington Bureau of the Bee. Senator Allen of Nebraska, July 19. Senator Allen of Nebraska, who was a member of the Sugar investigating committee, made an additional report to the senate supplementing that of the committee. He says:

It is in view of the fact that the report of Senator Gray and Lindsay, in which I concur, does not set forth the facts in this case, that I have deemed it proper to file a separate and additional report. The report contains the following: 1. To investigate and report whether the charge of an attempt to bribe Senator Hays and Kyle...

Two Who Speculated. The testimony shows that two senators, Hon. John R. McPherson of New Jersey and Hon. Matthew S. Quay of Pennsylvania, were known as sugar stocks or certificates during the months of the investigation.

Merry Brethren. New Orleans Pleasure: Alligator skin seems very appropriate as material for making a grip. Syracuse Courier: Unfortunately a man's funeral sermon comes too late to live up to.

A Rural Masher. These July nights mosquitoes come, creeping down with weird low hum. With bills prepared to drill us, and ferociously dart upon their prey.

In July. Emma A. Oppen in Puck. It's so hot here, it's so hot here, it's so hot here. Things are blazing, I'm not air stirring, over in the lot.

In July. Emma A. Oppen in Puck. It's so hot here, it's so hot here, it's so hot here. Things are blazing, I'm not air stirring, over in the lot.

SOME NOT LIKE CAESAR'S WIFE.

Allen Finds Several Senators Who Are Not Above Suspicion. Charges McPherson and Quay with Speculating, But Says the Trust Did Not Fix the Sugar Schedule. His Recommendations for Improvements.
