

THE OMAHA DAILY BEE.

ROSEWATER, Editor. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION. Daily (without Sunday) One Year, \$3.00...

NO ATTEMPT TO DICTATE.

The Omaha Bee will not dictate the ticket to be nominated in the republican state convention. Stick a pin here.—Hastings Nebraska.

The Bee has no desire to dictate the ticket to be nominated by the republicans of Nebraska and would not assume that responsibility...

While the Bee has no desire to dictate candidates to the party which looks to it for support, it has the right and is in duty bound to interpose its earnest remonstrance...

It is a republican year, but it is not a year for boilerism and oil-roomism. The party cannot hope to win nor would it deserve success if it enters the campaign handicapped by tattooed candidates...

The appeal of the American Railway union to the public, dated from headquarters in the Cook county jail, is a rather tardy bid for co-operation of the traveling patrons of Pullman cars...

It is wonderful how the Lincoln newspapers always accidentally place Omaha second in the list of base ball clubs whenever the leaders are tied for first place.

The macadam roadway in the bee line toward the Papio looks like a streak of snow flake, and those who travel over that pulverized lime road look like millers after a day's work at the hopper.

THE OMAHA DAILY BEE, TUESDAY, JULY 24, 1894.

PHILADELPHIA Times (dem.): In any event the president has not understood the man, whose policy, however, he finds true to the cause he represents.

NEW YORK World (dem.): The advice of the president is good. Coal and iron ore must be made free and protection must be denied to the Sugar Trust.

ST. LOUIS Republic (dem.): The senate bill is bad enough; but for the democratic party to go to the country with the presence of the McKinley law on the statute books...

NEW YORK Times (dem.): Mr. Cleveland is in a losing position announced by Mr. Wilson, and he would refuse as indignantly as the chairman of the ways and means committee to yield to the dictation of the executive branch of the government...

PHILADELPHIA Ledger (rep.): Republicans can win the fight with equanimity, since it is not only the duty of the tariff bill, but the disruption of the democratic party. Even the president, as the head of the party, should not be so unwise as to let the public obtain a knowledge of its operations.

BOSTON Globe (dem.): There is no doubt that the president speaks in this matter for the overwhelming majority of his party. The only thing to be regretted is that Mr. Cleveland did not publicly announce to any tariff reformer, or on any other principle of the democratic party...

WASHINGTON Star (rep.): The desperate struggle between the Wilson tariff bill and the Gorman tariff bill is interrupted by the vigorous and unexpected intrusion of the Cleveland tariff bill, which remarks loudly to the world that the Wilson bill is a mere imitation of the original encounter.

NEBRASKA AND NEBRASKANS.

Work has been begun on the new Hamilton county court house. The building is to be erected on school extension will be held at Lyons August 1 and 2.

The Christian Endeavor societies of Furnas county will hold a convention at Wilsonville July 28 and 29. The Baptist Young People's union of the Loup and Elkhorn association will hold a rally August 9 and 10.

The Tilden Citizen has again changed hands and is now in the possession of L. C. Barge, who will conduct it as a republican paper. The Nebraska Register has been discontinued and the plant will be moved to Burdette, where a new paper will be established.

Broken Bow people have been notified by the county marshal that the weeds in their lots or the city will do the work and assess the cost against the property. While handling a gun in the First National bank of Holbrook, Fred Alden accidentally exploded the weapon, putting a bullet through the plate glass front.

A bolt of lightning at Mason City entered the house of William Weaver and tore out one end of the building. Although the occupants were in the side of the house damaged by the fire, they were not injured. The fire was caused by a young man who tried to wreck a Rock Island train near Table Rock and was arrested as a dangerous lunatic, escaped from the jail at Table Rock last night.

The Santosage agency correspondent of the Nebraska Pioneer says that Bill Campbell, a butcher, for whom he received \$200 cash. When the cattle were called for the Indians refused to deliver them, and upon application to the agent, he was evicted and discovered that the cattle were those issued to the Indians and Bill Campbell had nothing to do with them.

Matrimonial ties go right on regardless of the consequences. Japan would doubtless prefer Korea. Smashing China is quite different. The Maryland peach crop is safe and the democratic committee where he comes from is needed to sweeten life at the senate end of the capitol.

RAVAGES OF BLACK DEATH.

Described by an American Physician in a Letter to The Bee. CHINESE FLEE FROM FOREIGN DOCTORS. Curious Measures of the Natives to Stay the Plague—Lies Told About American Physicians—Great Canton Hospital Almost Deserted.

Letters received from a prominent American physician in Canton, China, by a member of The Bee staff say the plague is worse than ever in both Canton and Hong Kong. Forty thousand Chinese have fled from Hong Kong, not because they fear the plague, but because they are afraid of the English and their desire to return to their homes.

Forty thousand Chinese have fled from Hong Kong, not because they fear the plague, but because they are afraid of the English and their desire to return to their homes. The foreigners are sent to poison them so as to make them die quicker and the most sensational stories are told on the streets of the treatment undergone by those Chinese who have fallen into the hands of foreign doctors.

Several attempts have been made by the Chinese to stop the progress of the disease. They first brought all the idols from the temples and forming them in processions carried them to the sea. During the march, however, a number of people died, and the scheme was abandoned as worthless.

RESCUED FROM THE WRECK.

Evening's Excitement for Visitors at Sea-View. NEW YORK, July 23.—For two hours yesterday evening the summer visitors along the New Jersey coast in the vicinity of Seabright raved up and down the shore watching five men clinging to the crossbeams of their vessel, which had just gone down.

It was but twenty-five minutes from the time the hardy life-savers pulled out from the beach on their launch, until they had reached the wreck, and the imperiled sailors, one after another, were taken from the rigging, but to the waiting thousands on the beach the drama of the rescue was a tragedy that had ended in a happy ending.

Several attempts have been made by the Chinese to stop the progress of the disease. They first brought all the idols from the temples and forming them in processions carried them to the sea. During the march, however, a number of people died, and the scheme was abandoned as worthless.
