FIRMNESS PREVAILED EARLY IN THE DAY

Opening in Corn Was Irregular but Firm. Attributed to Outside Buying -Oats Were Higher at the Start.

CHICAGO, July 24 .- The low price of wheat tempted shorts today and they covered for a time, with the result that the market was firm until near the close. A rumored shipment of wheat from Toledo here knocked down the advance, however, and September closed 34c lower. Corn closed %c higher and oats unchanged. Provisions closed firm at a slight advance for pork.

In wheat there was an active trade, with the volume of business quite heavy. Initial transactions were about at yesterday's final figures, September opening at 53%c, and after selling down 1/2c, rallied 1/2c, declined ic, ruled steadler and closed steady at 53%c. There was not quite so much pressure on the market at the start and offerings were quite well absorbed, some of the professional shorts covering, but the liquidation was heavy and was quite a feature. Outside markets were rather steadier, but cables were weak and 12d lower. The weather abroad was reported as unsettled and exceeding wet in England and was something of a feature. decline after a rally toward noon was due to a report that a charter had been made at Toledo to bring a cargo of wheat to this

The opening in corn was irregular at 44%c for September, an advance of from 1/2c to %c, but gradually sold down from ic to 14c, rallied ic, ruled steady and closed at 43%c. The early strength and firmness was attributed to outside buying orders. There was local buying on the con-tinued dry weather and high temperatures through the corn belt, but at the advance there was heavy realizing by longs in general, which resulted in a material decline. Then good buying set in and most of the loss was recovered.

Oats were higher at the start on good

buying, but declined later when the de-mand slackened up. Buying at the decline caused a reaction and the close was steady.

The range was 1/2c for September.

Provisions were generally firm all day on covering and a scarcity of offerings. Compared with last night September pork is 10c higher and September lard and ribs

Freight quotable at %c for wheat or corn

Minneapolis Wheat Market.

Minneapolis Wheat Market.

MinnEaPolls, July 24.—Wheat opened a shade stronger in the morning and with a very good demand from shorts, with some buyers for long account. That buying crowded prices up about \$\frac{1}{2}\$ and the short she above the closing prices of last night, but with subsequent reaction to near the middle of the session, when the buying demand had been supplied. Then there was considerable seiling, and some quite large lines came on the market and prices were crowded down to below the high prices of the morning, at which there was considerable trading. Cash wheat averaged about same for No. 1 northern and \$\frac{1}{2}\$ tower for No. the same as the day before and closed at the

i hard. July, 85%; September, 52c; December, 52%; On track: No. 1 hard. 25%; No. 1 northern. 58c; No. 2 northern. 55%; Receipts were 85,800 hu; shipments, 37,400 h. Receipts were 85,800 hu; shipments, 37,400 h. Receipts were 10 to 15 points lower in the northwest, which was considered better for meturing grain although there was no min to speak of. Harvesting was reported progressing well in the southern portions of the spring wheat district, but nothing new developed regarding the probable yield, with some sections sending in samples of very poor grain, while othern send in samples that were up to the average of good years. Flour was case, in sympaths with wheat. The production was about 25,000 bits, for the 24 hours; shipments, 26,977 bbis, Patents, 23,2063.45; bakers, \$2,000,2.30.

OMAHA GENERAL MARKETS.

Condition of Trade and Quotations on Staple and Fancy Produce. Eggs remained about steady yesterday at the dvance noted the previous day. The market on outry was weak and hardly quotable so high

The supply of good hay is becoming lighter on old fowls and spring chickens. and the market in consequence is firmer on the best grades. The supply of off grades is still quite large. The present receipts of all grades are light. An advance of 50c will be noted for

and the market in consequence is firmer on the
best grades. The supply of off grades is still
quite large. The present receipts of all grades
are light. An advance of 50c will be noted for
the top.

The hay crop through the northwest is pretty
generally light, especially upland prairie, while
in the low grode had fair quality and not so
there will be more than the usual proportion,
due to the small crop of upland. In many parts
farmers are troubled to scrape up enough to
supply the local requirements, while in other
places there is a fair surplus for shipment. Nebraska is worse off for hay than Mannessta and
North Dakota owing to the drouth being more
general in this state, and, like South Dakota
namy parts will be very short in quantity to
meet the home demand. The weather through
all these States has been fine for securing it
isnd the quality is good. Washington, Idaho,
Montana and Orgon generally report good hay
crops and in some a beavy yield is secured.
New England has harvested a fair crop in fine
condition, sithesigh light in some portions. In
New York, Fonnsylvania and New Jersey the
crop was mostly good and generally well secured
Delaware is short to some extent from drouth
as well as Virginia, Kentucky and Tennesse.
Hay crop was fair in parts of Missouri and gengently secured well, duit pastrages been a
fully secured well, duit pastrages to be
evently secured well, duit pastrages
in lowa, which is short in considerable jertions.
The entire crop of the country appears to be
below the average in quantity, fait the quality
is apparently above an average of other years,
as it is fine in texture and secured under favorable conditions of weather. In such new
states as wyoming, Colorado, New Mexico,
Arizona and Utah there is a good average. In
Kanasa late reports hay making in full pourse,
is it

CELERY-Per doz., 46c.

FRUITS.

Two cars of fruit, one from California and the other from Washington, were offered at the auction sale yesterday. A good share of the fruit was too ripe and hardly suitable for shipping out in the country on orders.

The Washington car contained 124 plums, 427 apricots and 642 peaches. The plums were large and the peaches were pretty fair. The apricots were the smallest ever seen here. Some of them were little if any larger than good cherries. They were all wrapped but there were two or three in each paper. Washington shippers, could learn a good deal about boxing, marking and shipping fruit from California shippers, and shipping fruit from California shippers, the California car contained 49 plums, 230 apricots and 843 peaches. The car had evidently been on the read for some time, as the fruit was, much of it, very soft.

The peaches brought pretty fair prices, the California selling about 25c per box higher than the Washington. As a whole the sale was quite satisfactory. On Wednesday two cars of fruit are reported to arrive. It is expected there will be a full car of pears. Commencing with today the fruit auction sales will be held at 11 o'clock.

The prospects would seem to favor a large run of fruit from this time on. Shipments have been held back for so Ising a time that growers are very anxious to place their fruit on the market.

The berry season appears to be about over, as

are very anxious to place their fruit on the market.

The herry season appears to be about over, as only a few blackberries are now arriving. The lowa blackberry crop, which promised so much, will be an almost total failure without rain in the next day or two. On exposed hillsides they are ruined now, but where they have some shade there will be a few tolerably fine berries.

It is said that the Wisconsin blueberry crop is very short and that cranberries will be a failure on anything like dry marshes.

STOCKS AND BONDS. There Was a Marked Decrease in the Volume

NEW YORK, July 24.—There was a

marked decrease in the volume of business on the Stock exchange today, but the speculation was firmer in tone and there was a partial revovery of the loss of yesterday, while in most instances a higher range of values was established than prevailed before yesterday's break. Sugar was a notable exception and lost the greater portion of yesterday's gain. The Atchison affair still stirs the street, and the speculative fraternity looked anxiously this afternoon for Expert Little's report, which it was expected would be presented to the meeting of the reorganization committee called for 1 o'clock. When the meeting entered on its session it was announced that the report was not completed? that Mr. Little had only just begun the work on the eastern books and that he would not have finished his examination of them behave finished his examination of them be-fore next week. The statement that the in-vestigation already had shown an over-statement of receipts for the past five years of more than \$7,000,000 was verified, but no explanation has yet been offered and Little declines to make public in what way it was done, whether by means of re-bates or commissions or both. The combates or commissions, or both. The com-mittee-also refuses to talk in advance of the presentation of the complete report. Atchison stock had advanced 1/2 per cent from yesterday's closing, mainly on purchases to cover short contracts, while the bonds have recovered 1 to 1½ per cent in the face of some small foreign seiling. Sugar was very strong in the early dealings and large purchases of the shares were made on the general expressed opinion that Senator Gorman's speech made it very nearly certain that sugar was sure of protection in the tariff bill or that the measure would fail. An advance of % per cent was made, followed by a reaction of 1 to 1% per cent. Then came reports of probable compromise on the sugar schedule able compromise on the sugar schedule, which sent the shares down 2½ per cent, the last being the lowest price of the day and 1½ per cent below yesterday's closing figures. Distilling fluctuated within a margin of ½ per cent, touching 18½ in the morning and 18½ in the afternoon and closing within ¼ per cent of the top price and 1¼ per cent above yesterday's closing. London bought St. Paul more freely in the opening trading, causing a fractional advance, of which ¼ per cent was lost in the final sales, the advance on the day being ½ per cent. Burlington & Quincy gained ¼ per cent and Northwestern ½ per cent, while Rock Island lost ½ per cent. The general market was irregular on very The general market was irregular on very

light dealings, but closed fairly firm. The other gains and losses were fractional. The bond market was firm to strong.
The Evening Post says: Beyond a passing sentimental influence there is no reason to believe that the renewed decline wheat has influenced security prices. 7 4 per cent break within a week has for virtually no reflection in prices even of granger stocks.

OMAHA LIVE STOCK MARKET

Receipts for the Day at the Local Yards Nearly Approach Normal Figures.

CATTLE TRADE STILL VERY UNSETTLED

Conditions All Against the Sellers and Prices Lower - Hogs Sell a Dime Stronger Early, but Weaken and Lose the Advance.

TUESDAY, July 24. There were 2,250 cattle, 11,150 hogs and 279 sheep received today, as against 918 cattle, 4,928 hogs and 820 sheep yesterday. Thus far this week the receipts have been in excess of the receipts last week, the total for the two days past being 3,150 cattle, 16,050 hogs and 1,099 sheep, against 1,595 cattle, 8,445 hogs, and 1,692 sheep for the corresponding days of the week be-

CATTLE-Out of the total number of cattle received there were twelve loads of Texans billed direct to the packers. The general market was slow and fully 10c and in some cases 15c lower. Some 1,233 and 1,214-lb, beeves brought \$4.30, which was the top price paid for the day. The bulk of the good cattle sold at from \$4 to \$4.25, while the half fat stuff went largely at from \$3.45 to \$3.60. The market did not gain any in strength as the day passed, but if anything was the weakest at the The trading in butchers' stock, canners,

etc., was limited very largely to the sale of odds and ends, only a few straight loads changing hands. Desirable stock in this line was not at all plenty, the most of the cattle offered being decidedly common. The market is very low on anything common. Only a few sales of cows were made at prices above \$2. The market is over-supplied with yeal calves and offerings of such are neglected to a considerable extent. There has probably never been a time in the year past when stockers and feeders could be bought as low as at the present time. The dry weather in the country has made the pastures so short that there is quite a rush to seil while buyers are few and far between. The market today was no lower, but it was a repetition of the experience of the past few days—a slow. weak market. Light stock cattle are selling at from \$1.75 to \$2.25, while good to choice feeders can be had at from \$2.60 to \$2.90. DRESSED BEEF.

HOGS-The large run of hogs predicted yesterday materialized today. There were, however, a good many shipping orders, in addition to the requirements of the local packers, and the market opened active at an advance of 5@10c. The bulk of the best hogs soon changed hands at the advance noted. Later, as the most urgent orders were filled and some of the buyers commenced to drop out, the market weak-ened and closed slow with the advance lost

A few loads were still left unsold at the

close. The great majority of the hogs sold at \$4.75 to \$4.85, as against \$4.70 to \$4.75 yesterday, and \$4.95 to \$5 on Tuesday of last week. Representative sales: Av. Sh. CHICAGO LIVE STOCK. Sellers Were in a Position to Unload at Full

Prices. CHICAGO, July 24.-The run of cattle for today was estimated at 4,000 head. That is a small

was celimated at 4.09 head. That is a small supply even for a Tuesday, and with a good demand to meet, sellers were in a position to promptly unload at full prices. Good to best grades are now about as high as at any time last week, and the difference in common and medium grades is not very marked. Dresselbeef and shipping steers were quoted at from 44.25 to 34.85, and sales of cows and buils were on a basis of from \$1.25 to \$1.50 for poor to extra, and beifers of extra quality were quoted as high as from \$3.50 to \$1.55. The market for Texas cattle was stronger, the god to extra selling about 10c higher. Hog sof to extra selling about 10c higher. Hog sof god grades were in active demand and very strong. They opened 5c higher. For common and poor stuff there was very little inquiry, and holders did not easily find buyers at former prices. There was about an average Tuesday's run, the total being close to 17.000 head, making about 53,000 head since Saturday, which is more than twice as many as arrived during the same time last week. Poor to extra quality heavy hogs were quoted at from \$4.85 to \$2.55, and from \$4.85 to \$5.20 was paid for light Sales were largely at from \$5 to \$5.15.

Those who offered good to choice muttons closed out early. For poor stuff there was absolutely no demand, and it was almost impossible to get a bid. The and the sales at from \$2.55 to \$3.25. Spring lambs were salable at from \$2.75 to \$3.25. Spring lambs were salable at from \$2.75 to \$3.25. Register part of the sales at from \$2.75 to \$3.25. Register part of the sales at from \$2.75 to \$3.25. Register part of the sales at from \$2.75 to \$3.25. Register part of the sales at from \$2.75 to \$3.25. Register part of the sales at from \$2.75 to \$3.25. Register part of the sales at from \$2.75 to \$3.25. Register part of the sales at from \$2.75 to \$3.25. Register part of the sales at from \$2.75 to \$3.25. Register part of the sales at from \$2.75 to \$3.25. Register part of the sales at from \$2.75 to \$3.25. Register part of the sales at from \$2.75 to \$

to \$4.69.

All Field Products Suffering Severely from

the Dry Weather.

Corn Everywhere Suffering from Drouth but Owing to the Scattered Distribution of Recent Showers it is Worse in Some Localities.

Nebraska Weekly Weather Crop Bulletin for the week ending July 24, as reported for the United States weather bureau by Goodwin D. Swezey, director, Lin-

coln, Neb.:

The week has been excessively dry and all crops have suffered severely.

The temperature has been about normal in the western part of the state and below the normal in the southeastern part of the state. There has been an excess of sunshine, which has intensified the effects of the drouth.

The rainfail occurred only in local showers and was generally light, while in several and was generally light, while in several localities there was none or not enough to

localities there was none or not enough to measure.

Oats harvest is nearly completed and threshing has commenced. The present indications are that the yield will be better than was expected.

Corn is everywhere suffering from drouth, but owing to the scattered distribution of showers during the past two weeks it is injured in some localities more than in others. Some fields are probably ruined, even in the southeastern section of the state, while in the southwestern section of the state the situation is even more serious, as many fields are now past help.

RAINFALL FOR THE WEEK

RAINFALL FOR THE WEEK.

1 to 2 SOUTHEASTERN SECTION.

SOUTHEASTERN SECTION.

Butler—Rain much needed for corn, which is just now setting. Pastures are getting short.

Cass—Corn slightly injured by hot, dry weather. Winter wheat yields from six to seventeen bushels per acre.

Clay—Harvest all done. Wheat yielding from three to twenty-four bushels, Oats poor, Tame hay very light. Pastures about dried up. Inoculated chinch bugs used by many farmers have produced an almost total annihilation of the bugs.

Filmore—Crop conditions have continually grown worse. Many fields of corn are

total annihilation of the bugs.
Fillmore—Crop conditions have continually grown worse. Many fields of corn are beyond redemption. Oats yielding from fifteen to forty-five bushels.
Gage—No material change in crop prospects. Corn suffering for rain and hay drying up.
Hamilton—Oats and prairie hay very light. Millet and corn threaten a failure if rain does not come soon.
Jefferson—Occasional showers, but corn needs rain badly. Too dry to plow. Potatoes a light crop. Wheat yielding better than expected. than expected. Johnson-Pastures drying up and corn Johnson-Pastures drying up and corn suffering.

Lancaster— Corn is still growing, but needs rain. Grass badly dried up.

Nemaha—Corn badly damaged. Many pieces of planted corn a complete failure. Rain soon will help listed corn.

Nuckolls—Corn in the northern part of the county needs rain, but it is not suffering badly yet.

Pawnee—Corn wilts during the day and tassels turning white.

Polk—A good rain in the east part of the county. Pasture very good. Oats a half crop. Corn injured very badly.

Richardson—Corn rolling and rain needed.

Pastures dry. Saline-Early corn being hurt; late corn will await rain some days yet if hot winds do not come. Oats better than was expected. Saunders-Oats and wheat a half crop of

Saunders—Oats and wheat a half crop of good quality. Corn suffering from drouth. Pastures dried up and hay crop light. Seward—Wheat yield from eight to fifteen bushels. Oats promise a fair crop. Hay light. Corn needing rain pretty badly. Thayer—Wheat threshing generally from ten to fifteen bushels per acre. Hay a short crop. Corn doing well. Millet doing well, except where damaged by chinch bugs, but relief obtained by scattering diseased chinch bugs.

York—Corn is much in need of rain and the early planted in the northwest part of the county is about ruined, the tassels having turned white.

NORTHEASTERN SECTION. NORTHEASTERN SECTION. Antelope—Small grain mostly cut and some threshed. Prospects very poor for corn and millet. Boyd—A good shower on the 19th revived

corn and pastures. Corn is yet doing fairly well. Hay and pastures continue to be well. Hay and pastures continue to be short.

Cedar—Wheat and oats are about harvested. The yield will not be above one-third of a crop. Early planted corn about all burned up. Pastures and hay all gone. Cuming—Wheat much better than was expected. Pastures poor. Oats light. Corn good. good.
Dakota—A good shower, which was a great benefit to corn.
Dixon—Local rains on the 19th revived corn and pastures. Hot winds on the 22d.
Dodge—Harvesting two-thirds done. Oats yielding thirteen to twenty bushels, Pastures very dry and some farmers are feeding stock.
Holt—Local showers have revived corn when not too hadly fired.

Holt—Local showers have revived corn when not too badly fired.

Knox—Drouth broken by light showers. Potatoes about half a crop. Some fields of small grain can hardly be cut with mowers. Corn standing drouth well.

Pierce—Harvest nearly finished and some threshing done; yield small. Corn tasseling out and some silking. Some of the corn badly fired.

Platte—Small grain being cut. Much corn rolled badly and some past help. Potatoes drying up. Pastures good and not much hay.

Stanton—Wheat harvest commenced and will average a little more than half a crop. Grain of good quality. Light rains have helped corn some, but grass is all dried up. dried up. Washington-Must have rain soon or corn will be badly damaged. Outs plump and well filled. Good prospects for apples. Wayne-Wheat cutting well along and will make two-thirds of a crop.

CENTRAL SECTION.

Buffalo—Some corn injured past help. Wheat yield three to ten bushels. Hay, even on the Platte bottom, not more than half a crop and none on the uplands. Custer—Week hot and dry, Corn about dried up.

Dawson—Corn is badly fired, Wheat mostly cut, but will not make enough for seed and bread.

Greeley—Corn needing rain badly, Grass short and dried up. Potatoes a poor crop. Wheeler—Wheat in a good many places too short to blnd, Will make about one-third of a crep.

SOUTHWESTERN SECTION. SOUTHWESTERN SECTION. Adams Many pieces of corn already

soon to make anything. Franklin-Corn is tasseling and drying up. Some local showers, but the situation Franklin-Corn is tasseling and drying up. Some local showers, but the situation is very grave.

Frontier-showers last Wednesday and crops look better, but some fields will not make a crop.

Furnas-Good rain in the central part of the county, which helped crops some. Elsewhere corn is suffering greatly. Pastures are short and potatoes no good.

Harlan-Early planted corn looks bad; late planted looks well, but needs rain. Hitchock-Heat terrific. Corn firing badily. Lincoln-Week favorable for crops. Corn greatly helped by the rains, but will have to have more in the course of a week. Small grain a failure.

Perkins-In about half the county corn will be a failure.

Red Willow-Not much hope for corn crops, as drouth still holds.

Webster-All crops suffering for rain. Fall wheat yielding from four to fifteen bushels. Pastures dried up.

WESTERN SECTION. WESTERN SECTION.

Cheyenne-Hot winds have badly re-arded corn. Small grain being harvested Cheyenne-Hot winds have badly re-tarded corn. Small grain being harvested and a short crep.

Scotts Bluff-Some corn is five feet high.
Wheat, where not irrigated, is about ripe, but will not make much of a crop, Irri-gated oats took well. Alfalfa ready to cut the second time.

Thomas-Plenty of rain and corn will make a good crop.

NORTHANDESTERN SECTION.

NORTHWESTERN SECTION. Box Butte-Rye being cut. Wheat ready o cut and well filled. Cherry-Crops suffering for rain in north-

eastern portion. In the central portion corn and potatoes are in good condition.

Dawes-Light shower the first of the week, very dry the balance. Root crops doing exceptionally well.

Rock-Fine general rain improving condition of corn and hay.

Sheridan-Harvest just commenced and prospects better than last year.

Frisco Wheat Quotations. SAN FRANCISCO, July 24.-WHEAT-Strong: December, 41.00%, new seller, 91%c; May, 11.06%,
