AFTER THE WIRES.

Expert Electrician Summers Looking Up Trouble Between Cheyenne and Ogden. Mr. C. H. Summers of Chicago, general electrician of the Western Union Telegraph company, is spending several days in this city on business. Trouble has been experienced with the wires between Cheyenne and Ogden, by reason of extraordinary induction, and Mr. Summers is engaged in devising a remedy. The problem is a difficult one. Mr Summers, by the way, is one of the finest electricians of the country. He worked with Edison when the latter produced the first phonograph, and is quoted by leading authors of works on electricity as an eminent American authority. His jurisdiction exover a vast inveterate worker. Personally Mr. Summers is a quiet, affable gentleman, whom it is a pleasure to meet, and his technical knowledge of telegraphy is coequal with the adranced stage of the art. It fell to the lot of Mr. Summers to experimont with one of the first Bell telephones put on a wire in Chicago. He placed a phone at either end of his private wire connecting his residence, some fourteen miles from the Western Union head offices in Chicago. At that time the army headquarters were in the same building and the late General W. T. Sherman happened to be in Chicago at the time. The general was invited to test the vocal powers of the novel affair but was skeptical to a degree. Mr. Summers was at his home talking to the office men eral Sherman knew Summers' voice, but not being sure that the latter was fourteen miles away, was inclined to think that joke was being perpetrated upon him. Finally he said to Summers that if he would sing one stanza of a certain song he would cast all doubt aside. Mr. Summers complied. reupon the general put down the trumpet and left the room, probably wondering what of necromancy the electrical magicians had evolved.

All Suspected Senators Found Not Guilty of Being Bribed or Corrupted-Reporter Edwards Censured.

WASHINGTON, Aug. 2 .- Senator Gray, chairman of the sugar investigating commiteo, presented the report of the committee to the senate today and asked that the committo be discharged The main report is signed by all the senators of the committee, but Senators Lodge and Davis present a supplemental report and Senator Allen also presents his own views on some features of the case The report, which has the approval of the full committee, recites the causes which led up to the investigation and quotes the article from the Philadelphia Press, on which the charges against the senators were based. It also recites the facts which have been published already as to the refusal of

the correspondent, Edwards, to answer ques-tions put by the committee. Secretary Carlisle is exonerated, and the parts of the article reflecting on him are de-clared to be without foundation, "except that it is a fact according to Secretary Carlisle's testimony that he did at the request of Sen-ator Jones of the finance committee draft an amendment to the sugar schedule, a copy of antenument to the sugar schedule, a copy of which as described by Mr. Carliste is at-tached as an exhibit to the testimony." The conduct of Mr. Edwards, says the re-

port, in publishing specific charges against public men without having personal knowledge of the facts calls for the serious reprobation of the senate.

The committee also says: "There has been no testimony presented before your committee, and your committee has been unable to discover any, tending to show that the sugar schedule was made up as it then stood in the proposed amendment to the tariff bill in consideration of large or any sums of money paid for campaign purposes to the democratic party. No witness has testified before your committee that such was the fact and all the senators whose names have been mentioned in the public press have been particularly interested in sugar refining interests or in whose states sugar refineries existed, have under oath denied that such was the truth. or that they had any knowledge or information as to any sums of money, large or other-wise, having been paid for the campaign pur-poses of the democratic party by the Sugar trust by those connected with it or by anybody, as a consideration for favorable treat ment of its interests by said party."

Senator Smith, when recalled and the let-ter and testimony of Guillaudeau was read to him, said the statement was absolutely false, and that he did not know Mr. But-tershall and never had given him an order for the purchase of Sugar. for the purchase of Sugar. The Chairman - Did you recollect any The committee also reports the substance of the testimony of the sugar refiners as transaction in Sugar stock since the meet ing of congress' saying that the campaign contributions were made only to the local committees and not I bought 1,000 shares of sugar along last January of the 1st of February, as nearly for the purpose of influencing national cam-paigns, or for the purpose of securing or doas I can recollect. Senator Smith added that a friend asked him to buy something to support the statements of Edwards in this regard. Nor is there, they unite in sayof him and he gave an order for 1,000 shares. He did not know whether it was ing, any evidence in support of the statement that either of the Messrs. Havemeyer had an Sugar or not, but thought it was Whisky. The question as to the purchase of Sugar which Senator Smith had answered by sayinterview with President Cleveland on a yacht in the summer of 1892, or of 1893, in regard to the sugar interests of the Hawailan islands ing he had not purchased Sugar was re-peated to him, and he said he was not so or any other sugar interests, or the policy of positive about that. INTERVIEWED THE SENATORS.

It is, the committee says, shown by the evidence that one or more officers of the Sugar trust were in Washington and that they saw several senators, generally those representing states in which sugar refinerics were located, with the view of influencing legislation, but these gentlemen depy the use of any improper means to that end. Both the members of the trust and of the finance committee denied that any meeting took place between them at the capitol or else-

Guthrie Center Furnished Some and a Post poned Fourth of July the Others

ANITA, In., Aug. 2 .- (Special to The Bee.) The Guthrie Center ball team, accompanied by a good many sports, came here yesterday to play ball, and did play ball. It was a mixed up game, Guthrie Center getting their pitcher from Des Moines and their catcher from Grinnell, and the Anitas getting McIlvaine of the Neola club and

Sauer of Atlantic. This was the poorest Sauer of Atlantic. This was the poorest grame the home club has played this season. They could not gauge Myers' curves, and when they hit a ball a Guthrie Center man would be under it and never let it touch the ground. Hundreds of people came from neighboring towns to see the game and the freworks in the evening. About \$509 worth of fireworks were fired in the evening, and they were fine. Score:

report. Messrs, Davis and Lodge (republicans), submitted a supplemental report devoted en-tirely to the influence of the Sugar trust, so-called, on the making of the sugar sched-ule as it now stands in the tariff bill. They say that "no evidence has been submitted to the committee which proves the sugar schedule was made up in order to fulfill obligations to the Sugar trust for campaign contributions," but they consider it their luty to go into some detail as to the method employed in making up the sugar schedule for which the democratic members of the publicly responsible.

"It is also admitted." says the report, "and It is proved by the sworn testimony of every witness called, that the present form of the schedule was that desired by the representatives of the refiners, or the Sugar man.

The three interests concerned in the sugar

schedule are stated as those with no local or pecuniary interest who believed in free igar, the producers of raw sugar and refiners. It soon became evident after the house bifl came to the senate, says the report, that no bill could pass that body which did not regard both the latter incrests. The interests of the producers and re-finers, then, it is said, exme into conflict.

to the sugar schedule. Senator Vest testfied that Mr. Gorman urged a duty of 40 per cent ad valorem and a quarter of a cent per pound differen-tial in favor of refined sugars as the proper schedule. This was opposed by the senators from Louisana, representing the producers as against the refiners of sugar. Afterward the specific schedule was changed by the finance comittee and was reported as it now stands-with a 40 per cent ad valorem duty and one-eighth of a cent per pound differential."

TRUST WAS SATISFIED.

The report concludes: "It is a matter of complete indifference to the trust what du-ties are levied upon sugar so long as the form is ad valorem and a sufficient differ-ential is given in favor of refined sugar."

Speaking of the contribution to the cam-paign fund by the Sugar trust, the report says: "The fact that it gives to both po-litical parties is sufficient proof of the pur-pose of its contributions and of their dan-gerous nature. Government Suspends a Law for the Rene fit of Silver Workers.

WASHINGTON, Aug. 2 .-- Many western niners will be benefited by the act which the president has signed suspending for the year 1894 the law requiring those who have located claims to put \$100 worth of work or improvements each year to retain their rights. The act was introduced in the house by Mr. Sweet of Idaho in response to a strong demand from the western states and passed both houses with little opposition, being a measure of relief from the business depression of the year. Eastern members ac-quiesced in the measure since it furnished some little assistance to the sections which had been most unfavorably affected in their industries by the decrease in silver mining which followed the repeal of the purchasing clause.
