POLITICAL POTPOURRI.

"Compromise on Crouse" is now the battle cry of the Majors-B. & M. newspaper organs. Central City Nonpareil: It looks much as though Jack MacColl would be nominated on the first ballot.

KEEP IT BEFORE THE REPUBLICANS.

Shall the Party Commit Itself to a Tattooed Standard Bearer?

The candidacy of Thomas J. Majors as the following bill, certified to by T. J. Majors as president of the senate, was placed a menace to its success in the impending campaign. To elevate him to the position of standard bearer will place the party on the defensive and subject it to a calling fire that...

Table with 2 columns: Name, Amount. Includes George H. Tschick, Bryan's acceptance, etc.

The voucher is the one which Majors signed in the course of his duties as president of the senate. The senator Taylor reported he carried the voucher when the maximum rate bill came up and did not return during the session. His voucher for \$75 salary was presented to Majors by Walt Seely and was approved by him.

There is abundant evidence that the sugar trust, confident of legislation by this congress in its interest, is making every preparation to reap the rich harvest that is in prospect. It is actively engaged in gathering in raw sugar from every quarter, even as far away as Egypt, a cargo having arrived at New York from Alexandria a few days ago.

Supplying belligerents with the munitions of war may be a violation of strict neutrality, but it has occurred in every war that has taken place in the past and is likely to occur in all wars of the future. It is always discovered by the governments thus violating the neutrality laws, who claim to have done everything in their power to prevent such violations.

Wayne Herald: Mark the Herald's prediction: If the populist convention of this congressional district nominates a populist for congress, the democratic convention will not endorse him, no matter who he is. Please bear this in mind. Neither will the democratic body be able to deliver the goods in its representative or senatorial district should they promise support for Judge Robinson.

That ordinance to regulate the price of electric lights to consumers does not appear to be making much headway up to date.

Does any man dare contend that Majors did not know that Taylor had not served out his full term, and, therefore, was not entitled to pay for the full term?

By holding all the available raw product the trust has practically cornered the market and frozen out those who might be able to do harm to the sugar refining monopoly.

Lincoln Call: Matt Daugherty, the republican nominee for congress in the Sixth district, deserves the recognition which he has received. No man in the western part of the state is more popular than the successful republican party man than Mr. Daugherty.

Grand Island Independent: The best of the men mentioned for the gubernatorial nomination of the republican party is undoubtedly Cadwallader St. Paul, who is a clean man, not burdened with railroad connections of any kind.

Republican members of the tariff conference committee are not in imminent danger from overwork. In this respect they resemble the tramps who are willing to labor but can find nothing to do.

Mr. Bryan eulchers the democratic state convention by framing a platform for himself. Should the convention endorse him for the senate upon a platform conflicting with his own statement of principles, on which platform would Mr. Bryan be running?

Popular Opinion of the Senate. The senate has written its own doom. It might have been forgiven for the insolence it now displays. The people have elected it, it is tainted with scandal, and its members are in a state of jobbery.

So far as the matter of land is concerned, the great majority of Englishmen are tenants. In the United Kingdom and in 50,000,000 acres are owned by only 1,000 persons, and 30,000,000 acres are owned by only 1,000 persons.

Fielden, the arctic traveler, says that North Pole expedition. All his predecessors ought also to have been successful, but unfortunately the pole is yet to be reached.

When these pertinent questions are answered we will ask how did Seely dispose of the \$75 which he collected on Taylor's fraudulent voucher, cashed on the certificate of Thomas J. Majors, lieutenant governor?

As to the athletic contest, the claim not unfairly made that while the Oxford team was selected from the best athletes of the twenty-one colleges embraced in the Oxford system, and therefore fairly represented England, the Yale team came from a single college, and was not entirely representative of America, since the team could have been strengthened by selections from other colleges and universities.

Washington Post: We declare it our deliberate opinion that the title of those who now advocate the senate amendments to the Wilson bill is not only a contradiction of the time-honored democratic principle of tariff revenue only, but a demonstration of hostility to the welfare of the American people.

There must arise in the minds of the Omaha guards and Thurston rifles visions of fatigue duty at the bog pens, any nothing an occasional brush with hard pigsticker and lousy beef legends.

Another week of struggle between the democratic tariff conferees failed to bring about an agreement, though it ended with more favorable promise than one would be reached on the sugar schedule, which is the chief bone of contention.

It could not withstand. Every candidate and every party leader on the stump would be compelled to champion the candidacy of a man who is tattooed with a record of indelible infamy. They would be confronted at every crossroad with the story of the forged census returns that scandalized the state at the national capital and placed a stigma upon the man whom the people of this commonwealth had honored with a place in the halls of congress as their representative.

George Gould's enthusiasm over the victory of his yacht, the Vigilant, in its race with the Britannia is not to be dampened by so small a thing as a ducking in the water off the Isle of Wight.

THE SENATE OIL ROOM. The climax of infamy on the part of the lieutenant governor was the conversion of his private office adjoining the senate chamber into a legislative oil room, in which liquor was dispensed freely to members of the senate who were added to drink, and to lobbyists, male and female, who resorted to the room for debauching the law makers.

Nearly half of the \$1,000,000 which the New York park board was to pay out for improvements as an assistance to the unemployed last winter remains unexpended. Apparently this is one experiment in practical charity that has not met the anticipations of its promoters.

With all appropriation bills disposed of, it is idle to believe that members of congress will let a little thing like the tariff bill prevent them from adjourning and going home to mend their political fences.

The newspapers that have been trying to impress upon their readers that the recent railroad strike was the greatest the world ever saw are now busily engaged in endeavoring to prove that, compared with other great strikes, it was a mere bagatelle.

Reports from different parts of Nebraska indicate an increased interest in irrigation problems as the result of the drought that has recently injured the corn crop in various localities. The people are looking with more favor upon plans for irrigation and are discussing what legislation is necessary to encourage enterprises of this kind.
