The mayor transmitted the appointment of Mr. Evans as follows:

of Mr. Evans as follows: There being a vacancy in the office of city cierk of the city of Omaha, as announced to your honorable body in a former com-munication, it becomes the duty of the mayor and city council, under the city charter and files under the common law, as set forth in the opinion of the acting assist-ant city attorney, breato attached, to fill such vacancy, otherwise there is no one who can legally perform the duties of city clerk. I am advised by the acting assist-ant city attorney that there is sufficient authority for filling this vacancy without waiting for the enactment of an ordinance, and I therefore do hereby nominate and appoint, subject to your approval and con-firmation, John T. and Robbed. Adolph Ansord, a farm hand, working in Washington county, was at the police station vesterday to tell how he was held up and robbed of \$48 and a gold watch while on the road between Washington and Arlington last Thursday night. The reason that he did not make a complaint before this was the fact that he had been confined to his bed ever since the robbery by injuries

received from the robbers. Ansord says that on Thursday he went to the bank in Blair and drew out all the money he had saved with the intention of coming to Omaha to look for work. A couple of men who had been working on an adjoining farm were in town and knew that he had the money. He started for home about a o'clock and had not proceeded far before He started for home about 8 he was assaulted and robbed. Day Filled with Fights Between Strikers and Workmen in the Packing Houses.

SITUATION CAUSES MUCH UNEASINESS

Men Who Have Gone to Work Subjected to Intimidation and Violence - Sheriff Drezel Will Send Down More Deputies this Morning.

Intimidation of the workmen in the packing houses at South Omaha has reached such a stage that it is no longer a matter that can be overlooked by the authorities, and it is likely that the mayor will have on a force of men this morning that will be equal to the situation. There were a number of rows last evening

as the men proceeded home from their work, but so far as was reported to the police no person was seriously injured. The streets were crowded until midnight.

About 5 o'clock in the afternoon there was a riot over on "Indian Hill." Clubs were used freely and revolvers were drawn. Workmen from the packing houses were on their way home when they were stopped by the men who had gone out. A fight ensued and the strikers would have won if it had not been for a number of the stock yards gang, who happened to be up that way hav ing a horse race. The strikers were easily put to flight by this gang. Nearly 200 of the men who are out were on lower Q street when this trouble occurred and many of them wanted to go to the scene of action. The dummy train which carries employes of the packing houses to Omaha was stoned when leaving the depot and several occupants were struck and injured. At Twenty-seventh and N streets at 5:30 o'clock three Italians passed on their way home from work, when the crowd began to hoot at them and cried "scab." One of the trio drew a revolver, and they then moved slowly up the street followed by hoodlums and the crowd. At Twenty-fifth street they were again surrounded by strikers. One of the other men drew a large knife, which he swung recklessly in the air, and was given all the space he wanted. The strikers shied

bricks at the trio, but no person was hit, and the men took a motor train to Omaha. One man has secured warrants for the arrest of men who held him up on the street and took his packing house keys from him. POLICE KEPT BUSY.

The police were kept busy all evening gathering in men who had committed assaults. A number of warrants have been issued for the arrest of the assailants. Sheriff Drexel was in the city last even ing, and said he would put on enough deputies to keep the peace today. If that does not prove sufficient the militia will be called out, he says.

RUNNING FULL TIME. All the packing houses were running yes terday with about the same force they had Monday.

The picket line of the strikers covers an entire circle around the packing houses. Every man who is seen going to work is halted and requested not to enter the houses. If the fellow persists in going to the pack-ing house he is liable to be assaulted. The trade in revolvers has been rushing for the last week. Permits have been issued to many of the $m\in n$ to carry guns, and each day the situation grows more serious. "We must have better police pro tection," said Manager Cudahy. "The men "The men who want to work are assaulted both going to and coming from the house. We ought to have at least 200 specials for a while until this excitement abates.

According to the reports of the garbage haulers filed with the health department the poverty among the graders and similar classes in the city is something unprecedented. Most of these are people who subsist on what they can earn with their teams by working for the grading con-tractors and there has been so little public work going on that they are at the verge of starvation. The reports of dead animals removed during July show an unusual number of horses that have been hauled away and for which the haulers have not been able to collect the charges. The bulk of these horses have died of starvation be-

Corn in the Eastern Center Also Jumped Nearly Seven Cents.

NEW YORK, Aug. 7 .- This morning the orn market started out with a 2-cent jump over last night, and increased it in a few moments to 51/2 cents, while at the west the anxious buying of shorts was putting prices up 1 and 2 cents at a clip, until a gain of 6% cents had been recorded, and made corn considerably higher than wheat. The excitement here during the advance was naturally intense and the corn ring was crowded with brokers trying to cover their short contracts. The foundation of the sen sational rise in corn still rests on the bad crop news and a report today that the Iowa crop bulletin would show a condition of 40 per cent.

INDIANS' RIGHT TO GET DRUNK.

Those Who Have Been Granted Land in Severalty Have that Privilege.

PORTLAND, Ore., Aug. 7 .- Judge Bellinger this morning signed an important decision in the case of Thomas Hawkes and Edward Cline, charged with selling liquor to Indians. He decided that the allotment of lands in severalty to Indians had the effect of removing them from under the charge of Indian agents and gave them the standing of American citizens. As such the United States laws governing Indian wards of the government do not apply to them and the selling of liquor to an Indian who is not in charge of a United States Indian agent is not punishable under the United States statutes. The decision has us a precedent the opinion of Judge Haneford, delivered in an Indian case of another character in 1892, but it is the first decision to this effect in a case directly in point.
