NEW YORK, Aug. 8 .- Fiorrie West, the soubret of the Corbett Gentleman Jack com pany, has returned to New York in the cabin of the Eibe from Southampton. She said she paid her own passage because she would not travel in the second cabin of the Anchor line steamer Ethlopia, which she declares is a cattleship. The other members of the company returned on the Ethi opla, and their names are on the second cabin list. "The sending of the members of the company on a second rate ship from

an obscure port to get the cheaper rate is the best evidence that the Corbett company did not do big business," said Miss West. "Corbett," said the scubret, "made a mis

Another comment made by Miss West con cerning Champion Corbett was: "The Eng lish people were disgusted with the idea o Tan people were disgusted with the lice of a puglist appearing at the high class the-aters. They did not, therefore, patronize Gentleman Jack liberally. The sporting fraterality also did not take to Corbett read-ily, because he considered himself too much of a gentleman to associate with them. They invited him to one of their clubs. Jimmy Carrol and Andy Bowen Fail to Reach a Conclusion.

NEW ORLEANS, Aug. 8 .- Jimmy Carrol and Andy Bowen met tonight for the second time in the presence of a large audience in the auditorium of the Athletic club and fought for a purse of \$1,500, of which the winner was to receive \$1,200 and the loser winner was to receive \$1,300 and the loser \$300. Both men entered the ring in first-class condition, having trained carefully for many weeks. Both men weighed in at 120 pounds at the ringside. Gloves were donned and time called for the first rouad. The men advanced to the center of the ring. Bowen knocked Carrol down and then landed a right on Carrol's face, Carrol missing a vicious return. In a hot rally in the center of the ring Bowen had the best of it. Bowen pushed Carrol through the ropes at the end of the round. The second round was a roaster, the fighting being fast and furious. In each round up to the ninth the fight was of a very interbeing fast and furious. In each round up to the ninth the fight was of a very inter-esting character, neither party appearing to have any material advantage in the con-test. In the ninth Carrol struck Bowen under the jaw, knocking him down. The fighting continued to the twenty-fifth round, the contestants being fairly matched in the matter of giving and taking punishment. In the twenty-fifth round Carrol seemed to have the best of the fight, and the opinion was very general that he would have won in a few rounds There, but Referee Duffy decided the fight a draw and the purse will be equally divided at

Carondelet, Ill., was murdered last night

about 10 o'clock by his wife, Annie, and her

paramour George Centre, who worked for

the murdered man. Just before 10 o'clock

several persons heard cries and several pistol

shots. At a turn of the road about 300 yards from his home they found Kane in a pool of blood and evidence that a terrible strug-

gle had occurred. Across a corn field the struggle had been carried until the final blow

with a two-pound blacksmith's hammer had

been dealt. It carried away the entire left side of the head as far down as the check

bone, including the eye, and part of the nose. The bullet wounds also were in them-

selves enough to kill the man. The weapons

given him a pistol with which he was com-pelled to shoot Kane. Centre then told practically the story of the murder as already related. Johnson, as far as can be

learned from the evidence, is Mrs. Kane, who, togged up in a pair of her husband's trousers is said to have wielded the hammer

The Ericcson is only 50 feet long, 15.6 inches foot beam, with an 11-foot hold. Every inch of space inside the hold is taken up with the engines, dynamo, coal bunkers, quarters for the crew and the ward room for the officers. Her hull is built of steel which is also the material covering the pilot house. At present the torpedo boat has two masts, and the space on her deck is taken up with an awning, two smoke stacks and sev eral air funnels, all of which, with the ex-ception of the stacks, will be removed when

R Hopkins of the iron works will stay with the boat until it is turned over to the govern nent, when Lieutenant R. N. Usher of th ment, when Lieutenant R. N.
