This man Frank was a candidate for the position of delegate, but when the count of the vote was completed he discovered that he was without even a corporal's guard, and nursing his hatred he went out and secured a place on the ticket by petition. Frank is an inspector, working under directions of the Board of Health, and when that department of the city government learned that he was neglecting his business to dabble in the very slums of politics the members protested in the strongest terms, informing Mr. Frank that it would be well to attend to his work and let politics alone. Frank is said to have replied that he put his name on the ticket and that it would stay there until the votes were counted and that he did not give a blank who objected to what he had been doing in the premises, maintaining that the matter was something that did not concern the board, so long as the members of the city council did not object.

In the Third ward there is a factional fight, but both of the tickets which are in the field are headed for Jack MacColl. In this ward there was no caucus, all of the delegates go ing on the ticket by petition. Out in the Fourth, Fifth, Sixth and Seventh

wards there is no opposition to the caucus

The Eighth warders failed to hold a caucus and there are two sets of delogates, one set pledged to MacColl and the others claim to inpledged, but a majority are known to be for Majors.

There are two tickets in the field in the Ninth ward, one selected at the caucus last Friday and the other selected by a large number of republicans who claim that it is time to turn down some of the professional redeem the ward machinery from bossism. fight is hot and well organized on both sides, but the promoters of the petition ticket say that if they can have the sentiment of the ward polled they will win in spite of the machine. The following "ap-peal to the republican voters of the Ninth and' has been very generally circulated; Fellow Republicans: Believing that the best elements of the republican party in the Ninth ward should assert themselves in the man-agement of the party's affairs and should control, so far as possible, the ward nomina-tions, we appeal to our fellow partisans to turn out en masse at the primaries next Friday and sh w professional politicians that they can no longer run the politics of the Ninth ward for their own benefit to the disgust and practical disfranchisement of reputable republican citizens.

Believing further that a combination has been made between the professional rustlers and their satellites to control the action of Ninth ward republicans at all the political conventions to be held this fall and to run them solely for the benefit of the combine, we ask republican voters to assist us in defeating their purpose.

We have no political axes to grind and no political ambitions to satisfy. We are in-terested solely in redeeming the Ninth ward

om the ring rule of past years. We believe the combine proposes to determine in advance of the county and city conventions who shall be named for the several public offices which may fall to the Ninth ward and to force upon the people men in whom their fellow citizens have no confidence.

In view of these general facts and others equally prejudicial to good government we good government we have no hesitancy in denouncing the scheme and the schemers and we appeal to every good republican to help us to restore the untrammeled, unpurchasable and unselfish electors to the power which their ind.ffer-ence has permitted to pass from their hands, We recognize the respectability of some of the gentlemen who were nominated at the caucus and regret that we feel it necessary to oppose them because of the influence which placed them upon the ticket.

Therefore we ask every voter in the re-publican party of the Ninth ward to com-out Friday, August 17, from 12 o'clock until m., and vote against the combine which we believe is prejudicial to the interest of the republicans of the ward, and we ask them to vote for the following J. The third Charlie has long since paid for his janitorship in the public schools by political rusting and should go on the retired list.
