Miss Marsden has now Churchill, in which he denies the story that he was a victim of morphine and says that decided to prosecute Pastor Francis for libel report was maliciously circulated through

spite. "I have suffered acutely," he explained, "from nervous prostration and insomnia, brought on by the extreme tension of public affairs and constant attention to party interests long after I should have abjured public speaking. I feel very much better now than when I lofi England. My appetite is excellent and I sleep well, so that I have no doubt that when my tour is completed I shall be able to return home and re-enter politics, entirely restored. The Bar Harbor incident was entirely fictitious and the pur ported interview with W. G.Ibert, formerly of the Gloucestershire cricket eleven, pub lished in a Chicago journal, was a fabrica-tion fram beginning to end. I may say once and for all that my illness has resulted from overwork. Acting against the advice of my physicians, I continued to make public speeches until I broke down. The trip to South Africa was made in the hope of re-cuperation, but the fatigue of the journey was hardly beneficial. America has done me a deal of good. I like the country and people and I have gained every day in strength mental equipoise during the past two months.

CHURCHILL NOT A WRECK

Lord Churchill's visit to India is of a semi-official character. He has letters from her majesty, the queen, as well as from the prince of Wales, and his principal mis-sion is to look into matters regarding the loyal rajahs.

POINTS HE WILL VISIT.

"Notably, I shall visit," said Lord Church-ill, "the maharajahs of Avar Jaighur, Udai-pur and Jodhpur in Rajpootana, in whose cap-itals are many celebrated Jain temples of great antiquity. This is not my first trip to India. I visited the empire some years are and was piloted about by Sir Land ago and was plloted about by Sir Lepel Griffin. But I did not see half of what I desired, and this time I shall proceed as far as British Burmah."

These loyal rajahs, whom Lord Churchill intends visiting, are young men of the high-est importance in the Indian empire. They have all been educated at Mayo college which is near Ajmir. This is an experiment of the government intended to give the young rajahs of Rajpootana an English training was founded by the carl of Mayo and has had a most powerful effect upon the political spect of India. In speaking of Lord Rose bery, he said:

'It seems to me that his present position might remind one of the well known jest in Punch years ago about Lord Beaconsfield: 'Why is the present government likely to fall?' 'Because its head is dizzy.'

"There is no doubt that Rosebery made his mark when acting as Gladstone's lieutenant in the famous Midlothian campaign. Then it was that he realized he had some backing in the person of Mr. Gladstone and without doubt aspired to the premiership. Mr. Glad-stone's support has been the key to Rose-

bery's success. In parting, Lord Churchill said: "I trust

to endeavor to restore peace between China that you realize that I am not the and physical wreck which the American newspapers have described. Had I been I would not have attended the royal academy dinner a few days before leaving England. I am on the road to complete recovery, and as I said before. I must before many months over re-enter the English political arena.'

Scarcely a Quorum Present Saturday-House Ready to Quit Today-Disposition of the Tariff Bill by the President the Only Remaining Isues.

WASHINGTON, Aug. 19 .- The final action of the president on the tariff bill is the only thing that stands between the senate and final adjournment. It is the general opinion that if it were passed upon by the chief executive adjournment could be arranged

within a few days. The last of the appropriation bills received the final consideration of the senate during the past week and even without the passage of the Murphy resolution there would not have been much probability of any general legislation, owing to the likelihood of there being no quorum. The last roll call yesterday discovered only forty-five senators, two more than a quorum, in the chamber and the highest number of the day was fifty-four. Several have left

since, an it is entirely probable that the session Monday will open without the number requisite to do business in the face of objection. It is probable, therefore, that the daily sessions from this time forward will be brief and that only bills to which there is no opposition from any senator or over

which there is no contest will be taken up. The democratic managers hope to have the bill repealing the provisions in the tariff bill exempting alcohol used in the arts and in the manufacture of medicinal preparations included in the list. There appears likelihood of opposition on the republican side, and if there should be, this bill will necessarily go over until the next session. The democratic

members of the finance committee also hope to report the supplemental tariff bills during the week, but do not expect action on them. Probably no considerable time will be spent in executive session in confirming nominations to which no one objects.

house of representatives is ready to adjourn tomorrow. Its work has been com pleted, it is only awaiting the action of the senate and of the president. It is probable that it will adjourn from day day until congress adjourns. It may be, however,

that time will be partly occupied by giving several days to the committees of the house to consider such business as they care to ing before the house, but this question has not been decided. Speaker Crisp, who is at Old Point Comfort, will not return until to-morrow morning, and Mr. Outhwaite, one of the other members of the committee on rules, is out of the city and no program will be

arranged until they return. Tomorrow, under the rules, is suspension day, as are also the last six days of the session, but as a resolution for adjournment will not be passed until the president acts on the tariff bill, the rules with reference to suspension days will not go into effect until the date of adjournment has been fixed

to The Bee.)-There is a band of horse thieves operating in the southern part of Sweetwater county. About twenty head of fine horses have been stolen from the 4J and Valentine S. Hoy ranches during the past month. A few days ago John Blair and Paul Walker, who were in search of cattle on Bitter creek, were held up by two horse thieves near La Clede springs. The men were driving about twenty-five head of horses south toward the Utah line. All efforts to capture the thieves have thus far been unavailing, and a number of ranchmen propose to organize a posse and make a raid on them.

There is a number of reasons why the present low prices cannot stand, one of them being the almost total failure of the crops is several of the eastern and middle states. The cattle in those sections must of necessity be thrown on the market this fall. This create a lively demand for western cattle early next season.

Thoroughly Extravagant in the Consideration of All Subjects but Those Concerning the Payment of Ex-Union Soldiers' Claims.

WASHINGTON, Aug. 19.-Representative Joseph G. Cannon of Illinois, the senior republican member of the present appropriations committee of the house, and who was chairman of the appropriations committee during the Fifty-first congress. has prepared a statement which he will submit to the house setting forth a comparison from his standpoint of the appropriations for the present and the Fiftyfirst congress. It is captioned, "Pension appropriations reduced \$29,099,504. Total of other appropriations increased."

estimates asked congress to appropriate for the public service of the coming fiscal year. including permanent appropriations, \$520,-662,840 and congress has appropriated for such service \$490,668,369. This in round numbers is \$30,000,000 less than the president asked for public service.

"A comparative statement of appropriations made at this congress for the fiscal year ending June 30 next with appropriations made at the first and second session of the last congress (Fifty-sccond) and at the first and second session of the Fifty-first shows that the appropriations this year are greater by \$27,268,858 than were those made by the first session of the Fifty-first, or Reed congress. The statement also shows the appropriations made this year are \$25,835,989 less than those made at the second session of the last, or Fifty-second congress. This reduction is covered by the item for pensions alone. Ther was appropriated this year for pensions \$29, 099,504 less than was appropriated last year It will be noticed, therefore, the appropria-It will be noticed, therefore, the appropria-tions this year, excepting pensions, are greater than the appropriations made last year by \$263,515. The total appropriations for the Fifty-first, or Reed congress, two years ago, were \$988,417,153, and those for the Fifty-second, or last congress, two years, \$1,027,104,547."

ONLY SAVED PENSION MONEY.

Mr. Cannon then read the statement issued by the Treasury department on July 2, giving the expenditures and receipts of the govern-ment for the past year and those of the previous year. Mr. Cannon's statement then continued: "This statement does not include the postal receipts or expenditures therefrom, and as they balance each other, it is not material to state them here. It shows the receipts of the United States for the twelve months ending June 30, 1894, to have been \$88,659,292 less than the receipts for the fiscal year ending June 30, 1893. This statement shows also that the expenditures for the twelve months ending June 30, 1894 were \$16,884,595 less than for the twelve months ending June 30, 1893; but this same statement shows the payment for pensions made for the year ending June 30, 1894, were \$18,180,272 less than they were for the year

ending June 30, 1893. "In other words, exclusive of pension, President Cleveland, for his full fiscal year, expended \$1,295,677 more to carry on the government than was expended in the final fiscal year ending with President Harrison. "There have been many increases in the salaries of democratic officials, and especially in the distinguishment officials. in the diplomatic and consular service. The salary of the first assistant secretary of state is increased from \$3,500 to \$1,500. The minister to Belgium is increased from \$7,500 to \$10,000. The min sters to Switzerland and Portugal are increased from \$5,000 to \$6,500 each. The minister to Mexico has had the salary of his secretary of legation increased from \$1,800 to \$2,650. The ministers to Nicaragua and Costs Rica for the first time are allowed secretaries of legation at \$1,800 each, while the Purcau of American Re-publics is cut down from \$30,000 to \$10,000. The six auditors of the Treasury department are increased from \$2,000 to \$4,000 He sailed to San Francisco, reaching there are increased from \$3,500 to \$4,000. Tuesday.

Their Old Enemy Appointed Consul for San Salvador at 'Frisco. SAN FRANCISCO, Aug. 19 .- The Examiner says: San Salvador has a new consul in this city. Carlos Yrigoyen has been removed and he place has been given to .Dr. Eustorjo Calderon, who has been living in San Francisco during the past two years. Dr. Calderon is a native of Guat-mala. He closely sympathizes with the prisent government and is a bitter enemy of the Ezetas, by whom he was tortured as punishment for taking part in a revolution against them. The appointment of Calderon is the last move made by the Salvadorean government in the Ezeta matter and in fact one of the most important. It is plain that the gov-ernment of San Salvador had good cause to mistrust Mr. Vrigoyen. It was believed from the first that Yrigoyen was friendly to the Ezetas and it is thought here his trip to the east was partly in their interest. What strengthened this belief in the minds of Min-ister Guzman and his assistants at Washingon have been the letters and telegrams from residents of this city calling attention to several facts in connection with Yrigoyen and the Ezetas. The appointment by Yrigoyen of Mr. Romas as acting consul was considered by the Salvadoreans here as another attempt to help the Ezetas. One of the tele-grams sent to Dr. Guzman was from Dr. Calderon and it fully outlined the situation and called particular attention to the ami-

cable relations between the consul and An-tonio Ezeta. Mr, Yrigoyen had served as consul under the presidency of Carlos Ezeta and had been highly favored by him. It was natural that a return of favors should be made at this time when Antonio was in dire ril. Dr. Calderon also sent a telegram President Guiterrez, in which he laid the situation before him and offered to act as consul. Dr. Calderon has received a telegram from President Guiterrez in which he said he would avail himself of his services.

TONS OF POWDER EXPLODE.

Three Persons Blown to Pieces and Many Ruildings Dam (ged.

FORT SMITH, Ark., Aug. 19 .- Last night at 9 o'clock the four powder houses of the

Speer Hardware company, located two miles from here, on the Pottau river, exploded. The flash was seen several minutes before the report of the concussion was felt. The powder houses are a total wreck. A small cabin near by, the home of Mrs. Cook, was blown to splinters. Mrs. Cook, her daughter and an infant were hurled into eternity. Mrs. Cook was cut nearly in two. The powder houses contained 1,200 pounds of dynamite and 300 kegs of powder. The shock was felt at Van Buren, Alma, Gre nwood, Hackett, Kavanaugh and many places nearly twenty miles away.

In Fort Smith thousands of dollars worth of property was destroyed. The tall buildings swayed to and fro and the crash of falling and cracking glass was like a discharge of artillery. The opera house, Boston store, Ar-cade, J. J. Little's store, Acres & Co., Vaughn hardware store, Fagan Bourt and the Western Union buildings were severely dam-aged, while along Sixth street and Garrison avenue are many wrecks. No explanation has been found for the explosion.

LONDON, Aug. 19 - A special dispatch to the Times from Shanghai says it is reported that instead of a large Chinese army only a smal force was routed at Yashan by the Japanese. The remainder of the army has, it is said, gone north to join the northern forces. . Skirmishes are reported to have taken place at Ping-Yang, province of Shan-Ye, and a great battle is expected to be fought there shortly. LONDON, Aug. 20,-A dispatch from Shanghai says the Chinese there are suffering. from a spy mania that has developed among Chinese officials. All vessels arriving in Twoo Sung river are boarded by Chinese naval officers and searched for spys and contraband munitions of war. Two prominent Japanese have been arrested within the French concession on an unfounded charge of spying. They are still detained for trial. The dispatch further states that a number of Englishmen and Scotchmen have been obliged to leave the arsenal at Wei-Hal-Wei owing to the war. They had been fired at by the Chinese guards and some of them would undoubtedly have been killed had it not been for the protection afforded them by Chinese offi-

It is added that on three successive nights Japanese torpedo boats forced the boom guarding the water entrance to Wei-Hai-Wei. They either evaded or countermined the torpedoes that had been laid by the Chinese and effected entrance to the ports, the defense of which had heretofore been sup-posed impregnable. The Japanese did not engage the forts, as it is said they were only in search of in-ormation as to the lines to be followed in the event of it being decided to

make an attack in force upon the place. Sickness prevails in both the Chinese and Japanese armies. China has accepted the offer of Lui Yung Fl, the celebrated ex-chief of the Black Flags at Tonquin, who is now a naval commodore at Canton, to reorganize the Black Flags to fight against Japan. Mail advices from China show the Chinese

government has prohibited the exportation of horses. Horses are regarded as contraband of war by Japan. Urgent orders have been sent from the northern to the southern ar-senals for powder and other munitions. Recruiting for the army is progressing actively. The Japanese have fortified the passes lead-ing from China into Corea and have established elaborate defenses at Scoul. One hundred and sixty thousand men have been mobilized by Japan and the reserves have been called upon for service in Corea.

Steamer Uspike Sent to the Bottom and Five Persons Perish.

ST. PETERSBURG, Aug. 19 .- A dispatch from Rybinsta, an important commercial center situated on the bank of the Volga, says a storm passed over that city and the neighborhood on Friday last. The damage to property was immense. The steamer Uspike was caught by the storm on the Sherne river. There were 100 passengers on the vessel and they were thrown into a panic by the tremendous force of the wind, the furious downpour of rain and almost impene trable darkness. The captain headed the vessel for the brach, his intent being to run her ashore. Before this could be done, how-ever, the vessel sprung a leak and began to founder. As she foundered, her decks were blown up by the air in her hold. Everybody was thrown in the water. Despite the fury of the storm passing vessels managed to rescue all on board, except five of the crew.

RECEPTION TO EMMA GOLDMAN.

Three Thousand New York Anarchists Greet the Female Advocate of the Red Flag. NEW YORK, Aug. 19 .- A reception was given Emma Goldman tonight at the Thalia theater, which nearly 3,000 persons attended. The affair was generally tame, and the special force of detectives had nothing to do. Charles Wilfred Mowbray, the English anarchist, was also present and preceded Emma Goldman by a speech in which he eulogized her heroism and self-sacrifice. Speaking of the police, he remarked: "The police exist for boodle. They are here to protect thieves of associated society." When Emma Goldman came on the plat-

form there was a great burst of applause Her speech was chiefly devoted to a ran corous attack upon all who were concerned in her prosecution, conviction and imprison ment

"Imagine the prosecution of a woman fo talking," she began. "Anarchy was prose-cuted October 5, 1893, in the court of general sessions. It was really the right of free speech that was prosecuted. The country is today seeking aid of the old continent to help them get rid of anarchy. Who do they get to help them? Those hateful Irish and the deceitful English." She then launched forth into invectives.

She called Assistant District Attorney Mc Intyre a coward. Speaking of the judge before whom she

vas tried, she said: "Judge Martine is not o be compared to Santo, Ravachol or Henri, who were all defenders of a cause they be leved in. "I am with you again and again under the

old flag of anarchy and freedom," she con iuded.

The speech was received with enthusiastic plaudits by the minority portion of the au-dience and the meeting soon afterwards was brought to a close. Marie Louise, a French voman and ardent advocate of anarchy, presided at the meeting.

ST. About forty of these have made pre liminary arrangements to go to the cape of Good Hope and South Africa and others are talking of going to Brazil.
