President Will Not Sign the Tariff Bill Until the Last Moment.

ALLOWS THEM UNTIL MONDAY NIGHT

They Have the Bill Now in Their Possession and by that Time Can He Sufficiently Familiar with it to Transact Business.

WASHINGTON, Aug. 20 .- Speaker Crisp. returned today from several days rest at Old Point Comfort, Va. He says there is no program for the week; the house is merely waiting for the president's action on the tariff bill. An adjournment could be had by Wednesday, Mr. Crisp said, if the president should act on the bill tomorrow. The only legislative matter pending on which action is hoped for is the alcohol bill, now before the senate, but this appears to be affected by the Murphy resolution postponing all tariff legislation, and in event the house will not be likely to defer adjournment for it.

Members of the ways and means commit tee say they do not think the president will let the tariff bill become a law until the last moment in order that the customs officers may have all the information possible before putting the act into effect. This would be until midnight of Monday next, so adjourn-ment could not come until Tuesday. Representative Tarsney of Missouri will make no effort to push his free silver-lead ore bill beyond getting it on the house calendar. He made the report today, reciting the passage of the bill in the last congress, and as a part of the Wilson bill.

As it was evident no quorum was in the house to do business, Mr. Tarsney let the bill go over until next session. Chairman Wil-son is at Long Branch as the gu st of Representative Isidore Strauss.

HUNTING FOR A QUORUM.

Sergeant-at-Arms of the Senate Sent to Find Members to Transact Business,

WASHINGTON, Aug. 20 .- For fifteen or twenty minutes today the business of the senate was suspended while the sergeant-atarms was sent in search of an actual quorum. The senate was eighteen short of a voting quorum, only twenty-five senators having voted on a non-political motion, thus showing that congress is slowly disintegrating. The four supplemental tariff bills were all reported from the finance committee and sent to the calendar. Several bills were passed, among them the bill for the speedy prosecution of the claim of the United States. against the estate of the late Leland States ford. At 1:40 p. m. the senate adjourned until Wednesday, after an executive session lasting twenty minutes.

When the senate met Mr. Harris reported the amended sugar bill and the coal, iron ore and barbed wire bills. Inquiries were made as to what had become of the other amend-ments offered to the sugar bill, but Mr. Harris said that it was not usual to report back amendments rejected in committee.

Mr. Allison, republican of Iowa, said that the action of the senate last Saturday on Mr. Manderson's amendment when the vote was 21 to 29 and only failed for lack of a quorum should be regarded as instruction to the com mittee to report the amendment favorably. Mr. Allison stated that the free barbed

wire bill does not provide for free barbed wire at all, as it places a duty upon the manufactured article while admitting the material frez. He reminded the senate that the Wilson bill provided for a 25 per cent ad valorem duty on barbed wire, but the senate had reduced it. Mr. Aldrich, another republican member

of the finance committee, denied the subsli-tute bill just reported was by the unanimous vote of the committee, as it had been op-posed by all the republican members. The house had desir d to put barbed wire on the free list to benefit the farmer, but in its haste it had done just the opposite. Mr. Chandler wanted to know what became

of his amendment repealing and canceling the late tariff act. Mr. Harris gave as his reply that he had been instructed to report the bill back with an amendment providing for a duty of 40 per cent. Mr. Mitchell, republican of Oregon, gave no tice that if the sugar bill was called up at this session he would offer an amendment re-enacting the wool schedule of 1890. The bills placing wool, coal and iron on the free list were ordered placed on the calendar.

SIGNS OF ADJOURNMENT.

Proceedings in the House Give Evidence

that the End is Near. WASHINGTON, Aug. 20 .- Less than fifty nembers were present when the house met at 12 o'clock today. There was the usual indication that congress was on the eve of adjournment. Members were crowding in the area in front of the speaker's desk with requests for unanimous consent for the pas-

sage of bills of local interest to them. Mr. Sayers, chairman of the appropriation committee secured unanimous consent for the consideration of a bill appropriating \$98,000 for the employment of an additional force of collect internal revenue and \$50,000 for car-rying into effect the arbitrations between the

United States and Venezuela. It was passed vithout objection. A bill was passed on motion of Mr. For man, democrat of Illinois, to incorporate the Association of American Florists.

Mr. McCreary, democrat of Kentucky, chairman of the committee on foreign affairs, asked unanimous consent for the consideraion of a joint resolution congratulating the Hawaiian republic on the perfect resumption of the powers and abilities of self governthe Boutelle resolution was offered in lieu of the Boutelle resolution. Owing to the ab-sence of Mr. Boutelle, Mr. Bayne, republican

of New York, objected. Mr. Bland then demanded the regular or-der. Then, at 12:45, the house adjourned. MOSTLY IN ARMY OR NAVY.

WILL STOP PRIZE FIGHTING Proposed "Go" Among Wisner "Red Hots"

Will Not Be Permitted.

OPPOSED BY THE GOVERNOR

He Will Address a Letter to the County Attorney of that District Warning Him Not to Allow the Affair.

LINCOLN, Aug. 20 .- (Special to The Bee.) The governor is in receipt of a letter from a citizen of Wisner, Neb., calling his attention to the fact that a twenty-round "go" for points is scheduled for that place next Thursday evening at the village opera house. Accompanying the letter was a flaring poster announcing in very emphatic characters that Tom Beaver, the welterweight champion of Illinois, would meet Joe Reid of Wakefield in a "hot" contest with five-ounce gloves. While it is expected that the authorities of that place will see that the law relative to prize fighting is strictly observed, the governor expressed his intention or writing mmediately to the county attorney, instructing him not to allow the affair to take place. Whether or not an extra session of the egislature will be called for the purpose of levising means to alleviate the suffering of those who have been rendered destitute from the effects of the drouth, the governor is not yet ready to state. He has been giv-

ing the matter all necessary consideration and will not act hastify. He has received many letters for and against the measure, all of which will be given due attention. MRS. SHEEDY AGAIN. The case of Mrs. Mary Sheedy against James H. McMurtry has been appealed to the

supreme court. The case was fought stub-bornly in the lower courts and resulted in McMurtry's favor. There are several points of interest about it and it will be watched carefully by the legal fraternity. It seems that Mrs. Sheedy entered into an agreement to sell the defendant certain pieces of prop-erty for the sum of \$25,000, which agree erty for the sum of \$25,000, which agree-ment he has refused to folfilk. When the agreement was made it was supposed by Mc-Murtry that Mrs. Shredy was yet single, but it transpired that she had married Max Brust, previously, but his name did not ap-pear on the agreement with his wife's, but Mrs. Sheedy told the court that she had en-tered into an agreement with her husband tered into an agreement with her husband whereby he was not to have any interest in her estate. Intsead of inheriting one-half of the estate of her former husband, as Mc-Murtry supposed, she has only a dower in-terest of one-third.

There was a shooting affair this morning in the house of W. F. Hargrove, living near Ninth and G streets. Mr. Hargrove, who is a brakeman on the Burlington road, relates that he came home unexpectedly at an early hour this morning and discovered a man in the house. He got his shotgun and fired at him, but whether it took effect he does not know, but he thinks it did. Both Hargrove and his wife are very reticent about the affair.

LINCOLN IN BRIEF. A requisition for the return of Charles Devaul, under arrest in this state and charged with selling mortgaged property, was received at the state house this morning from the governor of Colorado. Secretary of State Allen returned from a

trip through Illinois this morning, where he has been for the past week. The Chambers Creamery company of Chambers, Neb., filed articles of incorporation in the office of the secretary of state this norning. The capital stock is placed at

\$3,500. The Elkhorn Irrigation company of O'Neill has been organized for the purpose of water-ing the lands about Holt county, with a apital stock of \$25,000. The information against the negro Davis

SUGAR BILL CHANGES.

The sugar bill, as agreed upon, is amended so as to provide for a duty of 40 per cent straight on sugar without any differential on refined sugar or any extra duty on sugar imported from countries paying a bounty-in other words, it is the new tariff bill rate minus the differential. It is the Jones amendment except that his amendment pro-vided for only 30 per cent. The idea of the democratic members of the committee is that this rate will furnish sufficient revenue without giving the Sugar trust any advantages.

The coal bill was amended so as to pro vide for reciprocity on this article by the ad-mission free of duty coal from countries which admit coal from this country free Coal imported from countries that impos duty on our ccal is to be made dutiable

the rate in existence when this bill shall go into effect. The amendment to the barbed wire bill provides for the free admission of barbed wire and all other fencing wire, and the rods from which they are made.

The free iron ore bill is not amended. The republican members of the committee offered amendments of their own to the bill. One of the amendments offered was that pre-sented in the senate by Senator Hill for the repeal of the income tax. They also sought to have the revenue duty supplanted by a provision for free sugar with a bounty. They voted solidly against the bills, but did eek to delay the report upon them. Senator White attended upon the com mittee meeting for the first time, and acted in perfect harmony with the older demo-

oratic members thereof. The house bill to provide a home for aged and infirm colored people went over until

the next session. The senate bill to push the claim of the United States against the estate of Leland Stanford was passed.

CONGRESS WILL INVESTIGATE, TOO. House Committee Wants Some Restriction

on Railroad Strike.

WASHINGTON, Aug. 20 .- Members of the nouse committee on commerce have not abandoned the project of holding an investigation of the recent railroad strike, for which a resolution is before the commmittee. The appointment of a commission by President Cleveland to conduct a similar investigation is thought to have forestalled action by the committee, and for a time the idea of a conressional investigation was dropped.

It is thought by members that the inquiry by the commission, now in progress, is in ended principally to gain information on the questions of capital and labor involved and their solution.

Supporters of the resolution before the committee desire a report regarding the ef-fect of the railroad strike upon commerce between the states. Two or three members favor laws which would control railroad employes, so that general strikes, paralyzing commerce, could not be inaugurated without due notice. They regard the railroads in a measure as public highways which should be public control. inder An effort will be made to have a commit tee milling called next week to report a resolution for an investigation during the

coln County, Nebraska. NORTH PLATTE, Neb., Aug. 20 .- (Special Felegram to The Bee.)-Alva R. Smith was thot and almost instantly killed Saturday morning. Smith lived in the extreme south western corner of this county. Coroner Somers has just returned after holding an inquest. It was the supposition at first that Smith committed suicide t The inquest de veloped considerable doubt as to this hy pothesis. The wound could not have been easily self-inflicted, the bullet entering the ight side, well back, and ranging forward o pass out near the left nipple. Mrs. Smith claimed that she was awakened by the re port; that she saw the revolver lying on the loor, picked it up, and then, ascertaining that her husband was dead, she immediately alarmed the neighbors. The case is a pecu-liar one, and further developments are anticipated. That the decrased came to his death from the effects of a pistol shot wound

received in some way unknown, was the effect of the verdict of the coroner's jury. "Squaw" Men's Children Excluded.

DECATUR, Neb., Aug. 20 .- (Special to The Bee.)-At the recent Indian payment made

to the Omahas at their agency instructions ere sent from the secretary of the interior to the Indian agent of the Winnebago and Omaha Indians that all children born since 1887 of white fathers were to be stricker from the roll and receive no annuity. The agent carried out instructions, and it naturally made quite a commotion among the white men who have married into the tribe and were interested to the amount of quite a number of children. But there was no use omplaining, so the next best thing was to call a general council of the Indians and se-cure an adoption of their children into the tribe. The pow-wow was held yesterday to discuss the matter at their agency, ten miles nor h of here. The white men were there with three or four beeves and a wagon load of flour, and probably a hundred pounds of coffee, the whites knowing if the In-dians' paunches were well filled the adoption was easy. But the adoption was not so easy as anticipated, and after whiling away

almost the entire afternoon in wrangling 'h matter was put into the hands of the twelve," that is, the twelve head chiefs of the tribe. Their advice was that a con-sultation with the agent would be the beat they could do. So the way the condition o affairs look now the chances for the adoption of the children are very slim. The otal number struck from the roll is abou forty.
