COMMERCIAL AND FINANCIAL

Poard of Trade Speculators Were Anxious to Puy Yesterday.

WHEAT WAS SCMEWHAT IRREGULAR

Early Weakness Was Attributed Largely to the Illinois Crop Report, Which Made the Yield the Fourth Largest on Record.

CHICAGO, Aug. 21.—Board of Trade speculators were anxious to buy today, and as a result the grain markets finished with gains all around. Wheat closed %c higher, corn 1%c higher, and cats %c higher. Provisions closed with but little change, after an early advance.

Wheat was somewhat irregular, with price changes rather frequent, within 1560 range. The market was steady in tone. Initial trades were at from 55c to 54c decline, at from 547%c to 55c for September, and sold off at once from %c to 1/2c more, advanced %c, worked back %c, then advanced 1%c, held steady, and cl sed with September at from 55%c to 55%c. The early weakness was attributed largely to the Illinois crop report, which made the yield 41,350,000 bu., or the fourth largest on record, and also to the favorable crop news from abroad. Outside markets were easier, and were also something of a factor. The receipts fell off considerably from the estimates, only 469 cars coming in, against 700 expected, and cables were up 14d all around, which, while bullish, was offset by the foregoing. The market sold up rather sharply when corn showed up strong. Private cables quoted a small inquiry, but prices 1/2d higher, and other cables read wheat 3d lower, but inactive; weather showery. There was rather free selling later in the day, which, together with the closing cables showing a weaker time, caused prices to recede to about inside figures. The estimates for tomorrow showed a still further falling off of 365 cars. There was a rumor that the Roumanian govern-ment had restricted the exports of maize, owing to the shortness of the crop on account of the liberal export business, and this

produced covering by shorts.

There was considerable churning of the corn market during the first hours of the session. Prices changed rapidly without the accompaniment of any great amount of bus-iness. There was some demand for local shorts, and not enough offered to supply them until they had bid the price up Ic per bu. for May and 13c for September above the prices current near the opening for those deliveries. When that demand was satisfied prices began to settle back again, and before noon they were both down to the level of the opening quotations. Shortly thereafter an-other spurt took prices back up to near the highest point of the earlier bulge. September was difficult to buy when wanted, and occa-sionally it was equally hard to seil. It sold around the opening at from 53%c to 54%c, and from that up to 55c, then off to 54%c, then up until it touched 55%c. It closed at

Oats experienced another day of active trading and higher values. Corn continued to influence prices, and quite an advance was shown. Buying was good from all sources. September started '4c up from the closing prices of yesterday, at 30%c, declined to 30%c, advanced to from 301/2c to 30%c, and closed

Receipts of hogs were only 13,000 head, and good grades were quoted as in demand at higher prices. The strength in corn gave the provision market its opening direction. The fluctuations in pork followed the course of the grain markets for a while, but in the latter part of the session the packers sold freely and independently of strong grain markets and steadiness in lard and ribs. Janpary pork opened at \$13.65, compared with \$13.60 at the close yesterday. It advanced to \$13.67\frac{1}{2}, and then dropped gradually until at the close \$13.55 was its selling value. Lard for January closed with a gain of 2½c. and ribs are unchanged.

local use, exporters indifferent.

OMAHA GENERAL MARKETS.

Condition of Tride and Quotations on

Staple and Fancy Produce.

The market on country produce remains about steady with Monday's quotations.

The dry weather in the dairy states is having no little influence on the butter and cheese mar-ket. The Wisconsin university experimental creamerymen report that owing to the present drouth the quantity of milk received has fallen off about 40 per cent. Frof. Henry estimates off about 40 per cent. Prof. Henry estimates the shrinkage of milk throughout the dairy district at from 30 to 40 per cent, and as the dairy output of this state is something like \$2,000,000 per menth at this season of the year, Wisconsin's loss in this product alone is heavy. It is also figured that the weather of the last few days has damaged Wisconsin's corn crop to the extent of about \$1,000,000. Reports from nearly all parts of Pane county are that earn and potato crops will be aimost a failure. One farmer says that he will turn his logs loose in the point field, and much corn is being cut for fodder. Pastures and meadows are drying up rapidly and still no sign of rain. Pastures and meadows are drying up rapidly and still no sign of rain.

HITTER—Incking stock, De; fair to good country, 14g15c; choice to fancy, 17615c; gathered creamory, 17625c; separator creamory, 22c. EGGS—Per doz., 12c.

of the buyers, and there was considerable liquidation, as well as sales for the short account. The upward movement, which was quite strong last week, received a check by reason of influences which were largely the result of manipulation by cliques. At the opening prices were firmly held and there were some sharp advances, but a selling movement in Sugar, in addition to breaking

the price of that stock, unsettled the rest of the list. Before 11 o'clock speculation had assumed a firmer tone, and a remarkable advance of 3 per cent was recorded in New England certificates, fifth assessment paid. Distilling, which was advanced % per cent and lost the gain, sold up 1% per cent, to 20%. Sugar, which had sold up % per cent and broken % per cent, ruse 1% per cent; Pullman sold up 1½ per cent, and most of the other shares traded in a fraction. During the next hour the active list was weak New England certificates losing 14 per cent, and the other shares the greater part of the improvement. In the specialties, however, there were some notable gains, notably in Wheeling & Lake Erle preferred, St. Paul & Duluth, Chicago junction, Minnesota iron, Oregon Improvement and Colorado Coal. During the afternoon, except for Pullman, Pacific Mail, Tobacco preferred and Des Moines & Fort Dodge, the trading was practically all on the bear side, and speculation

ing to by per cent. The Evening Post says: Today's market indicated that the upward movement which has been in progress for a week has reached the turning point. The tendency on Saturday and yesterday was towards a broadening of speculation. Today it was in the direction of contraction, with the professional element distinctly in evidence. It is seldom that the street has been so full of points on the active stocks, notably the industrials were very sensitive in transactions. The latter con-trolled the majority of tradings, which were

closed weak in tone. Distilling was forced

down 2 per cent, the loss on the day amount-

largely of a professional nature. They were stronger than the railroad shares. Reports that the president had decided to ve o the tariff bill were used to depress this stock, and they also affected the general market unfavorably, the decline in which ranged from ¼ to 2¼ per cent, the latter in General Electric, 1% per cent in Burling-ton, 1¼ per cent in Northwestern and Chicago Gas, 1 per cent in Northwestern and Chi-cago Gas, 1 per cent in Rock Island and Great Northern preferred, 78 per cent in Union Pacific, and 78 per cent in Western Union and United States Cordage, There were some notable exceptions to the condition of the market, and the shares which show the greatest advances are Pacific Mail, Des Moines & Fort Dodge preferred, Colorado Coal and Lead preferred, I per cent.

The bond market was heavy during the morning, but became better in the afternoon,

closing irregular. The following were the closing quotations on the leading stocks of the New York ex-

OMAHA LIVE STOCK MARKETS

Receipts for the Day Only Fair and Below the Figures of Last Week.

LITTLE CHANGE IN FRICES ON CATTLE Some Sales Were Higher, but Mostly Trading Was on a Steady Basis

NEW YORK, Aug. 21.—The market today was active, but the sellers were in excess TUESDAY, Aug. 21. Today's receipts consisted of 2,360 cattle 7,998 hogs and 108 sheep, as against 3,299 cattle, 3,782 hogs and 1,730 sheep on yesterday, and 2,019 cattle, 10,604 hogs and 801 sheep on Tuesday of last week. It will be noted that there has been a heavy decrease in the receipts of hogs thus far this week as compared with the corresponding days of

Hogs Advance Sharply and

Sell Strong at the Rise.

CATTLE-Today's offerings of cattle con sisted largely of westerns, there being only a few corn fed natives on sale. The general market did not show much change, prices remaining in about the same notch as yesterday. In some cases sellers reported that they got a little more money for their cattle than would have been possible on yesterday's market. One bunch of 1,276-lb. natives brought \$4. Local killers were active buyers of good butchers' stock and there was a betfeeling in the market for desirable cows and heifers, though the market could not be quoted any higher. Even the commoner grades, owing to the light supply and the active demand, were firm at yesterday's prices. Some good cows weighing under 1,000 lbs. brought \$4.50. The feeling in the market for stockers and feeders was a little better, though not especially higher. The improved tone to the market was due apparently to the light r ceifts and tate fact that there was some little inquiry from the country, which was fully up to the offerings. In spite of the short corn crop, quite a good many feeders are going out into the country. Some of them are going to Missouri and Kansas, as well as into Iowa and Nebraska, and some will be put on feed immediately. A good many will be carried through the winter on corn stalk fodd:r and put on feed in the spring. Representative sales:

CHICAGO LIVE STOUK.

Very Few Good S eers Were on the Market Yesterday. CHICAGO, Aug. 21.-Very few good native feers were included in today's recipts. Alhough the total receipts were estimated 500 there were not to exceed 1,500 natives of all orts, and only a small part were good enough to ship eastward on the hoof. Good to choice shipping steers, therefore, were strong and advancing. For common to fair grad s there was also a strong but rather quest market. Natives were quoted at from \$1 to \$5.10 for interior to extra, with from \$2 to \$4.60 the range, at whi the greater part changed hands. Westerns were quoted at from \$1.50 to \$4.10 and Texans at from \$1.25 to \$3.40, the former selling principally at from \$2.50 to \$3.65 and from \$2.10 \$2.75, taking most of the latter. It looks as though choice cattle would sell still higher before the week is out, but there is no such prospect for the lower grades.

cattle would sell still higher before the week is out, but there is no such prospect for the lower grades.

The supply of hogs was small, estimated at 12,000 head. The demand was not large, but it called for more hogs than were offered, and the resulting competition caused a perceptible stiff-ening of prices. The best heavy bogs brought from \$5.75 to \$5.90, and sales of choice assorted light were at from \$6.65 to \$5.70. There was corresponding improvement in the market for the commoner kinds and there was an average gain of lice per 100 lbs. Receipts continue to fall and it is now reasonably certain that July and August recents will not exceed the total for the corresponding time last year.

In sheep the light receipts checked the declining tendency in prices and turned them in the opposite direction. Although the demand did not seem to be more active than before sellers had the satisfaction of seeing prices go up 16522c per 100 lbs. Sheep were salable at from \$2 to \$5.50, and lambs at from \$1.90 to \$4.15. The firrings did not include much good stock, and the average of prices was low.

Receipts—Cattle, 6.500 head; calves, 1,200 head; hogs, 12.000 head; sheep, 6.000 head; yesterday, 25.671 lead; shipments, vesterday, 19.200 head; left over, about 7.000 head; subments yesterday, 19.505 head; shipments yesterday, 25.513 head; shipments yesterday, 1.550 head; official yesterday, 25.513 head; shipments yesterday, 1.500 head; shipments yesterday, 1.562.40.

SHEEP—Receipts today, 6.000 head; shipments yesterday, 1,650 head. Market firm; natives, 5540c higher, Natives \$1.0460.510 westerns, \$1.502.61.00 read; shipments yesterday, 1,768 head. Market firm.

GEORGE E. HUNT, Local Forecast Official

Will Take it to the Supreme Court-PITTSBURG, Aug. 21.—The Junior Order of United American Mechanics officials are lisappointed with Judge Barker's decision in the Gallitzin school case and will appeal to the supreme court in order to have the matter definitely settled. In case the de-cision of that court is against them they will endeavor to have a law passed that will cover the disputed points on sectarianism in public schools.

When that Was Paid the Workmen Had Little Left to Live Off Of.

DESPICABLE METHODS OF THE MARQUIS

Pullman Employes Compelled to Live in Pullman Houses-Methodist Minister's Testimony-An Encouragement to Immorality.

CHICAGO, Aug. 21 .- Carroll, editor of the

Eight Hour Herald, was the first witness called by the strike commission today. Mr. Carroll told of the efforts of the civic federation, of which he is a member, to settle the Pullman strike. He was informed by the Pullman officials, he said, that they had nothing to arbitrate, and for this reason the federation accomplished nothing. The witness said that hard times were the cause of the railroad as well as other recent strik's, and thought that manufacturers in times of business depression, should give their employes the benefits of the profits reaped in good times. He said he believed compulsory arbitration, applied to quasi-public industries, would be beneficial, and read a letter from a friend in New Zealand showing the beneficial results of government ownership of railroads and telegraph.

Malcolm McDowell, a newspaper reporter told of the overturning of cars at Pullman. He said that the mob at that point was com-posed of outside men, mainly foreigners, and that there were no railroad strikers in the disorderly crowd. Rev. L. M. Wickman, paster of the Swedish

Methodist church at Pullman, was emphatic in his denunciation of the methods of the Pullman company. "When business gets Pullman company. "When business gets slack," he said, "the company's employes living outside of Pullman are ordered to move into the company's houses in peril of losing their positions. Some of the men have attheir positions. Some of the men have at-tempted to buy houses on the installment plan, but this is discouraged, as such men are always the first to be laid off when the force is reduced. The men are unfairly treated in various ways. I know of one instance when a man was injured in the shops and unfair means were taken to prevent a damage suit. The man was taken to the hospital and later I saw a sworn statement, purporting to be signed by him, and which he said the accident was entirely unavoidable. I knew that paper to have been a forgery, for on the date it was made the man was unable to write and could

not have signed his name.
"One of the worst features of the Pullman system of house renting is the im-morality which it encourages. Many of the workmen are compelled to rent rooms to help out their meager incomes. The houses are so arranged that the roomers must pass through the family sleeping apartments and as a result the morality of Pullman is much below that of suground ng towns. There is no way for the workingmen to avoid this, many of them are practically compelled live in the company's houses."

Roy Baker, a Chicago reporter, was called upon for an account of the riot at Ham-mond. Mr. Baker stated that he was in the midst of the mob and saw no A. R. U. men or strikers, the crowd being made up of toughs and outsiders. He said that shortly before the United States troops fired small body of men, surrounded by women a small body of hea, surraunded by women, children and other spectators, attempted to overturn some Pullman cars. Without warning, the witness declared, the troops fired, killing and wounding several people. all of whom were innecent spectators. Mr. Baker said that at no time during the trable did he see a railroad man or member of the A. R. U. in the mobs.

John C. Donnelly, chief deputy United States marshal, testified. "As to the acts of violence, were they committed by railroad men, so far as you know?" he was asked. "No, sir; all the violence and burning of cars that I saw at the stock yards was done by a lot of tough 'kids' about 18 years old or a little older."

NEW ENGLAND TEXTILE TIE-UP. Interme of the Strike Depends Now Cloth Mills.

NEW BEDFORD, Mass., Aug. 21 .- The mills of this city are completely tied up teday, even those which were running yesterday being closed. The Howland corporations have not yet resumed work, but undoubtedly will within a few days, as an agreement has been reached by the corporations. The spinners' executive committee are today devoting their efforts to getting the Bennett and Columbia mills, which make the same line of goods as the three Howland corporations, into line and from statements made privately by the officials of these mills there is some reason to believe that the effort will be successful.

The outcome of the strike now depends upon the cloth mills. Some of the treasurers are disposed to fight it out if it takes all winter, and they assirt that an agree-ment has been reached whereby the mills are to be indefinitely locked up, but on the other hand individual treasur rs are quoted as saying that they look for an outlet gradually.

The Bristol mill which was prosecuted n court recently for running on Saturday afternoons is so loaded with orders that a gentleman very close to the management said that it could not think of shutting for any length of time.

It may be, however, that even if the manu-

facturers finally concede the wage question the strike will not end very soon. The operatives are indignant at the evasion of the recently passed particulars bill and at a mass meeting at the South park to day voted to make this an issue of the strike and not to return to work until the particulars provided by law are furnished.

The spinners' committee say they do not regard the Howland concession as a victory

and express the belief that it does not by any means end the strike. FALL RIVER, Mass., Aug. 21.—Five more mills shut down today on account of the strike and there is a decrease of fully 1,500 looms in the mills yet running.

SOMETHING MUST BE DONE.

That is What Aitgeia Says Regarding the Starving Pullman Strikers. CHICAGO, Aug. 21.-Governor Altgeld spent several hours today with a committee of citizens of Pullman who were called upon to give him information regarding the starving strikers. He was told that 2,436 families have been helped since the beginning of the strike and that about \$29,000 had been given the relief committee, all of which has been "I don't know just what method I shall

take to aid these men," said the governor, "but something must be done. I have written a letter to George M. Pullman regarding the matter. Until I have received a reply I am not at liberty to make the contents of the letter public." It is probable that Governor Altgeld will issue a proclamation setting forth the pitiable condition of the strikers and calling for

A. R. C. LEADERS BOUND OVER. Gave \$100,000 Bonds Each for Their Ap-

pearance in Court. WOODLAND, Cal., Aug. 21.-Knox, Compton, Mullin and Hatch, the members of the mediation committee of the Sacramento A. R. U. who were arrested for ditching a train on July 11 and causing the death of Engineer Sam Clark and four United States Engineer Sam Clark and four United States soldiers, were held today to answer for trial by the superior court under charges of murder. The prisoners managed to secure bonds, though the justice of the peace held them in the sum of \$100,000 each. The defendant, Worden, demanded the right to introduce testimony in his own behalf, a right which the other culprits waived, and his preliminary examination will be resumed. his pretiminary examination will be resumed next Thursday. Two other striking train-men are yet to be examined under charges of complicity in the same offense. Hatch, one of the defendants, was refused ball by

Judge Pisher, Operators Fear Another Strike. PITTSBURG, Aug. 21.-At a meeting of the railroad coal operators of the Pittsburg

district a resolution was adopted declaring that it would be unwise to operate below and in defiance of the Columbus agreement, as it would result in a return to the condi-tions before the great strike which were profitable neither to the operators or to the minors. This is taken as a threat that if the 69-cent rate is not generally maintained the railroad operators will also reduce wages.

New England Textile Mills Idle. NEW BEDFORD, Mass., Aug. 21.-Everything is quiet at the mills today. Work is entirely suspended. It is generally expected that the yarn mills will resume work in a day or two, but there is a difference of opinion as to whether these concessions will ex-fend to the cloth mills. Many still antici-

pate a long fight. Sixteen Applicants for Every Place. CHICAGO, Augi 21.-Five hundred Italians, Huns and Poles gathered today at the Rock Island tracks and Archer avenue endeavoring to get work where only thirty men were needed. The police were obliged to disperse the crawd to enable freight or

passenger trains to pass. BLACK HILLS' WEALTH.

Millions in Gold and Silver Added to the World's Stock of Money. DEADWOOD, S. D., August 21 .- (Special

to The Bee.)-That the Black Hills have during the past thirteen years helped swell the world's wealth in the precious metals, and during that time have been no mean contributor, is shown from the following figures: The total gold and silver product of this section since 1881, to and including 1893, aggregates \$43,866,377, of which \$42,056,-400 was in gold and \$4.789,877 in silver. It may also be noted that the aggregate yield of gold and silver in the Black Hills for the year of 1893 exceeded that of any preceding year, and was \$411,898 in excess of the product of 1892. The gold product for 1893 was \$4,006,400; silver, \$181,927, a total of \$4,187,927. With increased facilities for running and reducing ores, it is safe to state that the output of 1894 will be far in excess of that output of 1894 will be far in excess of that of 1893, and with the completion of projects ow under way the coming year will find he Hills the greatest gold producing district

in the United States.

The treatment of silicious ores of the Black Hills is now so thoroughly understood and so cheaply accomplished that one of the factors which for years past has restricted the gold output of this section has been brushed aside, and groups of claims, whose owners but a short time ago despaired of ever benefiting from their possession are now contributing to the wealth and pros-

erity of the country. New discoveries are being made almost every week, and the development of old claims progressing with carnestness and on intelligent lines. The last discovery, which at present attracting a good deal of atention, was made last week on the divide between Cold Springs and Castle Creek, The ore, which is free milling, is a grayishwhite quartz, honeycombed and stained with iron. It is identical in character to that taken from the Old Abe mine, one of the famous Hemestake group at Lead City, ore body is quite a large one and gives promise of developing into something good.

UNITED STATES PAYS THE BILL. ruiser Bennington Kept Outside While San Salvador Officials Quarrel.

SAN FRANCISCO, Cal., Aug. 21,-Ir requisition papers or warrants for the arrest of General Antonio Ezeta and the three other refugees from San Salvador were dispatched from Washington on the 11th instant, as the authorities there have led the public to believe, it is conceded that the warrants have been in San Francisco at least two days. Notwithstanding this fact, nowever, the gunboat Bennington, on which the refugers are still cruising off shore. prisoners, is is every indication that she is to be kept at sea indefinitely. This morning Lieutenant Stoney came over from Mare Island, chartered the tugboat Sea King and went to sea again with another big supply of fruit, veg-etables and fresh meat for the Bennington, and indicating that it is the government's intention to keep the refugees outside the three-mile limit and beyond the reach of habeas corpus for at least a day or two. This strange delay is a puzzle to the local federal authorities, who are all but certain that the necessary documents in the case have arrived from Washington and are now in the hands of the San Salvadorean officials here. The explanation is that the local officials of the government of San Salvador, some of whom are known to be friendly to the Ezctas, are still fighting among themselves. The president of San Salvador appointed a new consul-here on Saturday last, and it is considered probable that the deposed consul, Yrigoyen, who is a close friend of the Ezetas and who hurried off to New York recently to confer with Carlos Ezeta, has declined to deliver the documents to his successor.
