DENISE DEFEATS BATTIN IN THE SINGLES

This Morning—Austin and Young Will Meet to Settle the Question of Superiority.

The doubles in the interstate tennis tournament were completed yesterday afternoon, the finals between Farquhar and Nicholson, the Lemars team, and Young and Hart resulting in the latter's favor by the score 4-6, 6-3, 4-2.

The result was a decided surprise, as it was commonly thought that the defeated pair would pull out a victory with comparative ease.

The result of the first set of the match was encouraging for the visitors. The Omaha team was plainly nervous, but they recovered confidence, and after that their victory was never in danger.

Very rarely could the work of Young and Hart be called brilliant, but they made almost every stroke count. Their opponents were not often successful in placing their balls well, while some of theirs were very judicious.

In the singles the most interesting match of the day was that between Battin and Denise, which resulted in the latter's favor after the full five sets had been played.

The morning after the match between Hart and Noteware, which had been postponed for some time, was won by Hart, 6-2, giving him the match.

This morning at 10 o'clock the second round of the singles will be played. The schedule is as follows: Farquhar to play Broach; Haskell to play Whitman; Guillette to play Austin; and Young to play Hart.

All the players are good, and the match will be hotly contested. Whitman is being considered the dark horse of the tournament. He has won his matches so far with comparative ease, and Haskell will have his hands full trying to defeat him.

In the state tournament it will be remembered that Young was not able to finish the match with Austin on account of a sudden attack of illness. This time, however, the match was never decided, and this match will be watched with much interest.

Guillette and Denise appear to be evenly matched, and the contest will undoubtedly be a pretty one. The semi-finals come off in the afternoon at 4 o'clock. It would be difficult to pick the winners of the semi-finals, however, seems to be Farquhar, Whitman, Austin, or Denise, or Guillette.

With such a fast and good crowd tonight to be in attendance, it is probable that the winners will probably be the last time tennis lovers will have an opportunity to see good games this year, for they should seize the chance. The tournament has not been as well patronized as it deserves. The management has worked hard to make it a success and it should be supported.

Mayor Callahan Found Guilty. NEW ORLEANS, Aug. 22.—At 1:25 this morning there was a commotion in the court room by the announcement that the jury had reached a verdict in the Callahan case. Deputy Boyd came into court and saw Judge Moise who at once ascended the bench and ordered the jury brought down. The accused was brought in and the defendant attorneys took their seats. Captain James Buckley took his seat in the front row as foreman and the jury was polled. Then a verdict of guilty was returned.

There was an immense crowd in and around the building as the announcement was made, and the news spread rapidly. Callahan received the news calmly. The crime for which John T. Callahan was convicted was the accepting and demanding of bribes which a member of the city council. The most demand was made on Mr. Widensky, a coal dealer, who was certain what privileges in order to successfully conduct his business. After several interviews with Callahan in regard to the matter, Mr. Widensky paid the amount demanded. Kelly and the city council granted the privileges required. There were several indictments against Callahan for similar offenses.

Big Crops in the Sand Hills. Harvey A. Smith, a prominent young farmer of Custer county, residing at Anselmo, is in the city visiting friends. It is generally supposed that there are no crops in Custer county as a result of the drought, but Mr. Smith says this is a mistake. Where the corn on black ground is a total failure, corn planted in the sandy soil was never in better condition. Mr. Smith says he has a big field of corn on sandy soil that stands seven feet high and will yield from fifty to sixty bushels to the acre. The corn was planted deep and well cultivated four times. The sand hill country, according to Mr. Smith, is the garden spot of Nebraska this year.

President Looked Better. NEW YORK, Aug. 22.—Looking very much better than when he went to Gray Gables last week, President Cleveland stepped ashore at Jersey City from the Lighthouse tender John Rogers at 2:15 this afternoon. The Pennsylvania rail bearing the president, left the depot at 3:32 p. m., and the only occupants of President Roberts' private car were the president, Dr. O'Reilly, Secretary La蒙特 and two servants. The strictest secrecy was observed by those who knew the president's movements.

It was Samuel Bell. Yesterday afternoon L. Leonard, a South Fifteenth street druggist, called at the coroner's and identified the remains of the unknown suicide as Samuel Bell, a blacksmith who recently came here from Montreal, Canada. Leonard said he would not let the medical college have the body for dissecting purposes, but would bury it at his own expense. The coroner's office has been acting in a despondent manner lately because of failure to get work, and it is likely that this caused him to commit suicide.

John King has been granted a permit for the erection of a one-story building at Forty-third and Farnam streets; cost, \$1,500. A gasoline motor, exposing in Perry Morgan's residence, 1508 Cass street, last evening caused an alarm of fire from box 54. Loss, slight.

Residence of C. P. Evans, 707 North Forty-fourth street, was slightly damaged by fire yesterday afternoon. Children playing with matches was the cause. There has been some increased activity in the building industry, and for some time past, but most of the permits are confined to repairs and small alterations. Several of the moderate proportions are contemplated, but the permits have not yet been taken out.

Mrs. Charity F. Hickman is the defendant in several suits in the county court which have been brought to recover various amounts claimed to be due on promissory notes. The plaintiffs are Edson Keith & Co., Rudolph O. B. Tennis & Co. and Albert Haufe & Co., and the aggregate amount sued for is \$2,214.44. Mrs. Hickman is the Sixteenth street modiste who failed some months ago.

There is some talk among members of the Board of Education of building a shop and office for the superintendent of buildings. Heretofore all the business of the office has been conducted at the office in the city hall, which makes it inconvenient as the men had to report there and then go somewhere else to get their tools before starting for their work. The idea is to construct a building, which will answer every purpose where the men can keep their tools and make a general headquarters for the department.

NO MONEY TO COLLECT WITH. Congress Made No Appropriation for the Income Tax. NEW YORK, Aug. 22.—A special from Washington says: In addition to the long list of errors found in the Gorman tariff bill the surprising discovery has been made by the Treasury department officials that no appropriation has been made for putting into effect the income tax provisions. The collectors of internal revenue can do nothing under these circumstances in the direction of preparing to collect the tax.

Commissioner of Internal Revenue Miller advised that congress has failed to provide the necessary money, but it is when that the two houses reassemble in December the amount of his estimate will be included in the report of the secretary. Secretary Carlisle's estimate, and the internal revenue collectors are therefore helpless and unable to collect any of the tax.

Very Little Has Been Bought for Actual Shipment to China. NEW YORK, Aug. 22.—The Wall street reporter of the Associated press talked with the leading bullion brokers of this city today on the ever recurring subject of the demand for silver in China and Japan. The opinion is that up to the present time the demand for silver has come from speculators. They profess to know of no direct buying for China and say that in making prices they are controlled by the London market. One prominent broker in particular today's rise in silver was probably assisted by the introduction yesterday by Mr. Johnson of North Dakota of a bill for the purchase of 500,000 ounces of silver. The demand had not been very heavy during the past few days and there was a disposition on the part of London to deal in futures and not in spot silver. It was concluded that the purchasing was not for immediate shipment on buying orders from China, but rather in expectation of an advance.

At the New York agency of the Hong Kong and Shanghai banking corporation it was said that after the rise following the outbreak of the China-Japan war the holders of silver in this country did not display any anxiety to sell, and that the offerings by the smelters were very light until today, when the offerings became very large. There had been, it was said, some small buying for China, but the great bulk of the purchases were undoubtedly speculative. The volume of business was not heavy in the ordinary channels of business, and hence it was a certainty that a source of supply was needed by the London buyers of which the general business public was unaware. The recent Chinese loan of 5,000,000 taels, or about \$700,000 of our money, was a silver loan, but if a large war loan were issued it would likely be in gold. The uses to which the money was put, the purchase of war material, the fitting out of war vessels and the payment of debts contracted out of China for the war, would not be the agency to the belief that gold would be demanded and that therefore a Chinese loan should not necessarily result in advancing the price of silver. The agency was not a heavy buyer of silver just now and did not look for any great additional rise. It has large offerings today and expects that perhaps the smelters had held their product too long.
