LINCOLN, Aug. 28 .- (Special Telegram to The Bee.)-Buck made it two straigh' today with Acting Papa George McVey. Luck was with the home team from the start, and so was Mr. McKibben. That is where the whole thing slipped on Omaha. Mr. Mc-Kibben is young and slender, but he has an arm that is a beaut. It was that arm which twice robbed Omaha of a run, once in the first, and once in the last inning. Both Whitehill and Barnes did good work in the box, and Old Hutch played half the game in the field and got three cracking hits. Mr. McKibben first inserted his arm in the first. Ulrich got first on balls and was sacrificed to second. Seery lifted her to deep left, and George was thrown out at third by McKibben. In the second Hutch got a triple, but was given a life on Hughes wild throw to plate. Fear took second on the play and came in on Pedroes' hit. In the fourth Hutch got a double and scored on Speer's wild throw to catch Fear, who got first on bails. Another came in in the seventh after two were out on two singles and an error. In the eighth Hutch got another life at the plate on Speer's drop of a thrown ball. Fear got second on the play and came home on Abbey's single. This made six runs. Lincoln got two in the second, on a double, an error, a sacrifice and a hit. Pedroes dropped Speer's fly in the fourth and he came in on Hutch's wild throw to first to complete a double. Three more came in in the sixth on a hit, a double and two errors. Speer opened the eighth with a hit and was sacrificed home. With the score standing 7 to 6 against Omaha in the last balf of the ninth, Moran, the first man up, got a double and stretched it on Hughes' error to a triple. Seery went out on a liner to Buck, and McVey sent a high one to left. McKibben got it and threw it squarely into Speer's hands, doubling up Moran, who was racing in. It was a great throw, and all Lincoln is sitting up tonight LINCOLN. AB. R. 1B. PO. A.

JACKSONVILLE, Ili., Aug. 28.—(Special Telegram to The Bee.)—Both Jacksonville and Quincy played backwoods ball today. It looked as though they were trying to see how it would look with the score piled up. There were no brilliant plays, but the Jacksonvilles hit the heaviest and the Quincys fielded the poorest. The home team won the game at the start, lost it and then won it again. The most interesting part for the spectators was Andy Somers' kicking at Umpire Ward's decisions. Score:

SIX TEAMS ARE NECK AND NECK NOW

Boston Drops a Game She Could Poorly

Only Four Games Between Bock Island in the Lead and Omaha in Sixth Place-Lust Games of the Season Here.

One of the Most Remarkable Contests for a

Pase Fall Championship.

Despite the fact that Omaha received an other backset at Lincoln yesterday in th race for the Western association championship, she is yet but thirty-nine points be hind Rock Island, who is in the lead. This is a narrow margin and would require but four games the right way to entirely wipe it out, and there is no occasion yet for a "holler" on the part of the apprehensive fans. If President Rowe gets the new men he is now in persistent pursuit of, the Gate City's chances for the championship are indeed bright.

In any event, however, the race is the greatest within the history of professional ball. Just think of it, but 180 points separates the tailenders from the leaders, a condition of things, considering that the season is rapidly drawing to a close, absolutely remarkable. In the National league nearly 400 points separates Boston from Louisville and in the Western league Sloux City has an advantage over Milwaukee of 251 points. Surely the Western association has furnished its patrons with a most satisfactory article of the game. But to scan the standing of the respective teams close, it is seen that but 39 points separates the first and sixth, but 34 points the first and the fifth and but 29 the first and third and fourth, and but 14 the first and second teams. This is what styled a whipping finish. Any one of the first six clubs has an excellent chance for the flag, with the three eastern teams, or account of the season winding up on their grounds, holding a trifling advantage. I would be presumptive to attempt to pick the winner from the bunch, for any one of the six neck-and-neck teams is as apt to be sixth as it is first. So far as the Rourkes are concerned, the present week's play will cut an important figure. If they can beat Lincoln today and take two out of the three from St. Joe they will be in fine shape for he windup abroad.

There are but five more games scheduled or the home grounds. On next Sunday St. Joe vill be here for a game that afternoon and mother on Monday afternoon, These will be important games, and both sides will put forth every possible effort to win. On Tuesday, Wednesday and Thursday, September 4, 5 and 6, Lincoln winds up the champion Wednesday and Thursday, September ship season here. These two Nebraska teams are hot rivals, and will strain every fibre, sinew and nerve to down each other. So far the games between these wo teams have been really remarkable. Up to date they have played fourteen games with each other, and of these Omaha has won seven and Lincoln seven, leaving four more games to be decided between them. So far Omaha has not won a single game in Lincoln, and Lincoln but one in Omaha, but in justice to the Senators it is but fair to state that of the fourteen games thus far played eight of them have been on the Omaha grounds, Lincoln having transferred two of her Sunday games to this city. Which team will win the series is yet an open ques-tion, as it is now about an even break with them.

In the third heat Goldsmith tried to distance the field, but was unsuccessful. He made the mile in 2:13%, and something like enthusiasm manifested itself in the crowd. Ora Wilkes, also handled by Goldsmith, was an easy winner in three straight heats in the 2:15 class trot, and had a cinch from the start. There were only two starters in the 2:10 pace—Paul and Major Wonder. The latter was not up to his usual form and Paul took first money in three straights. Results.

Ducat Does a Quick Mile for the Record at Sheepshead Bay Track. NEW YORK, Aug. 23.—Seven races, with an excellent lot of starters in nearly all. brought a large attendance to Sheepshead Bay today, and there was plenty of sport for all concerned. The chief feature was the victory of Ducat in the mile race, in which he won easily in 1:39. This estab lishes a new record for the track, as well as for any circular track. In the Dash stakes, Brandywine made his first appearance since the Futurity. He won without urging, while the second place went to McKee. In the first race Hurlingham was held at odds on, which was fully justified. The same was the rule of Hugh Penny in the second race, and it was only a gallop for him. Results:

#### TROUBLE ABOUT PAY.

Difficulty Between Managers and Employe of East Omaha Street Railway. A miniature strike threatened to develo on the East Omaha railway line last night As it was, five and a half crews, eleven men, presented their demands at 8:30, and pending their consideration they left their trains From information that could be gathered the men bave been discharged. They were all old employes. From the statements of the men it an-

pears that on the opening of the beach this summer they were promised eleven hours work per day at 16 cents an hour. This amount of work, they say, has not been given them. Some days they work only five or six hours, and while on others they have put in as nach as fourteen hours, it is said the number of the former far exceeds that of the latter, and the average is by no means eleven hours. When the rush to the beach commenced on account of new attractions and especially the "Fall of Pompell," nev men were put on. These were paid at the rate of 20 cents an hour for the time they put in. Inasmuch as they were not given as many hours' work as had been agreed upon, the old employes thought it unfair that the discrimination in pay per hour should be made. So last night they made a demand that the full eleven hours' work be granted at the original rate of 16 cents per hour, or that they be paid 20 cents for the time they worked. The demand was made last night at 8:30, and, it is understood, refused and the nen discharged.

Superintendent Matthews of the railway could not be found, and an office employe who was seen said he knew little about the four of the men had had some trouble about pay with the superintendent. In answer to a question be admitted, or rather said he "guessed," the men were discharged. It is said that all the old employes were to have struck together, but the plan did not

tion of Female Coxeyites.

LATEST PRODUCT OF THE HARD TIMES

Iwe Girls Walk from Chleago to Omaha on Their Way to the Pacific Coast -Tramp of a Nebraska Woman to Her lows Home,

In these days of progressive ideas the women folk have invaded many paths only trodden heretofore by masculine feet. But according to the experience of those officers who have to dispense the charities of the county government feminine audacity has vaulted into a new sphere within the past few months. For some time past it has been possible for the searcher after novelty to have his hair shampooed and his whiskers trimmed by a female barber. He might visit a female physician to obtain a diagnosis of his ailments, have his law suits tried and lost by a woman of legal pretensions, but it is reserved for the astonished citizen of 1894 to meet tramps in petticoats and beribboned hats begging for a hand-out at his back

While the woman tramp is comparatively a recent institution, the county commissioners are making the acquaintance of a good many of them these pleasant days. It is the firs time in their experience that they have been confronted with the importunities of this class of mendicants and the problem of dealing with them is not as easy as it might be if they were confined as previously sterner sex. According to their experience, the great trouble with the female tramp is that she never lets go. Opposition has no effect on her importunities and a refusal of her demands only opens the floodgates for another volley of argument.

There have been half a dozen self-con-fessed female tramps within the past week who have applied to the commissioners for assistance of one sort or another. They all profess to be willing to work but unable to find anything to do. They have long and pathetic hard luck stories at their tongues ends and they tell them with a dramatic of fect that discounts the best efforts of the male vagabond.

One case of this description which is puzzling the charity committee just now it that of tw. young girls who arrived in Omaha Saturday. They were directed to the county board for assistance and found Commissioner Jenkins at the board rooms during the after noon. Both of the girls were of good appearance and although their clothes here in dications of rough usage they were of good materials and for the most part clean.

The girls were from 16 to 18 years old and according to their story had homes in San Francisco. During the Werld's fair they had been induced to go to Chicago by an aunt who sent them the money to pay their fare The aunt kept a boarding house on Cottage Grove avenue and after their arrival the girls were employed as waitresses. All went well as long as the exposition lasted, but then the relative suddenly disappeared with all her belongings and without leaving the girls money enough to pay their way back to their home. Their parents were too poor to help them, so they started out to look for work in order to earn money enough to pay

They found considerable difficulty in this as they were not familiar with kitchen work and that seemed to be about the only avenue of employment that was not already over crowded. After staying in Chicago for a couple of months, during which they barely succeeded in making a living, they decided to follow the example of the Coxeyites and try the plan of beating their way to Cali-fornia. By dint of stealing rides as much as possible and walking the rest of the way they have succeeded in reaching Omalia and their application to the commissioners was for transportation to Denver, where they safe they had relatives who would ferward then to San Francisco. They said they had walked nearly 100 miles through Iowa, siceping in hay stacks part of the time and beg ging their living from farmers along the route.

Mr. Jenkins told them that he could d nothing for them in the way of transportation, but if they would come back this week would look around in the meantime try to get them something to do. He applied the Pacific Hotel company yesterday see if they could use a couple of waltresses but the company had so many applications for positions that they were only hiring those with whose antecedents they were famillar and they had no place for the wan derers. The youthful tramps have not ve made a second appearance, which leads th commissioners to the opinion that they were

not as anxious for work as they seemed. Another case of the same order was woman from Iowa who called on the commis-sioners for aid yesterday. She had moved to western Nebraska with her husband, but their drouth had made their essay at farming a failure, and shortly afterwards her husband died, and his funeral expenses used up all that she could secure by selling their furniture and other personal belongings. She declared that she had walked most of the way back and was going to her old home in lowa where she thought she could find enough to do to afford a living. Her shoes were worn out, and one of the commis-sioners supplied her with new ones, which while they were not adapted for ball room wear, would be very useful in her tramp along the country road.

The transportation question is the most serious one which confronts the commission ers this year. Not a day passes but that some wanderer applies for a railroad ticket In most cases the applicants are deserving but if all of them should be satisfied, half of the general fund would be absorbed in rail road fare. The commissioners have now decided that the necessities of the poor of Douglas county during the coming winter will be more than sufficient to tar their resources, and hereafter not a single mile of transportation will be issued to an one. The board will endeavor to provide as far as possible for the deserving poor of their own county, but will let the offshoots of other localities look to their own government for

FATHER'S ARFUL DEED.

Shot His Own Baby While Looking for a Burglar with a l'istol. SAN ANTONIO, Tex., Aug. 28.-Last night about 8:30 Dr. Anderson O'Malley, a young New York physician, who has been in town a few weeks, shot his 3-year-old child accidentally and then killed it to put it out of pain. His wife and himself have been very nervous about burglars and have been awakened several nights. They heard the door in the children's room creak. The man went in with a cocked pistol. He saw no one. He poked his little nephew and his own son with the pistol to cause them to turn over. The pistol went off, shooting the child in the side, and the father then put his pistol to its head and killed it to relieve it of its misery, as he said. He knew the wound was He is now under arrest, almost in
