Mistonk a Lady for a Tree.

The young man named Moomaw, who hit a young lady with a bottle in Fairmount park, has had no little difficulty in straightening out his record in the matter. He was pretty well intoxicated at the time, and a companion offered him a bottle from which to take another drink. Finding that there was nothing in the bottle but the smell, he sought to express his disgust by hurling i against what he thought was a tree. It proved to be a young lady, instead of a tree, and the bottle striking her in the face inflicted an ugly wound. Judge McGee ac-cepted his explanation as relieving from any intentional assault, but fixed him \$10 and costs for being in such a condition that he could not tell a lady from a tree.

Immigrant from Bremsa Dies'from What is supposed to Be Cholera.

CUMBERLAND, Md., Sept. 6 .- Great excitement was caused here by the discovery of a death from what is suspected to have been sporadic or Asiatle cholera among im migrants from Bremen surgate to Pittsburg. The man, John Peter Walther, when he reached here was so ill he could not walk.

"He was removed from the train to the immigrant house and later to a pest house outside of the city limits. He landed in New, York Tuesday. Other immigrants were sent to Fittsburg in a closed car and the authorities notified.

WASHINGTON, Sept. 6 .- A telegram was ceived today by Surgein General Wyman the Marine hospital service from Dr. Duke, health officer of Cumberland, Md., announcing the death there last night of John P. Walther, a German unmigrant, with symptoms ak n to Astatic choiera. Dr. Wyman wired the officer to hold a postmortem and report the results. Dr. Wyman said: "I do not believe that this man died of Asiatic cholera. There is now no cholera in Bremen, the port from which he is said to have come, and has been none. There has been no disease found on the other men from the Elbe now detained at Pittsburg, being held for further develop-ments."

"What is the situation with regard to the

disease in Eur.pe?" wis asked. "It is rather on the increase in Russia and is getting over into western Europe, but so far has been confined to the most couthern portions of that coast and is most prevalent in Austro-Hungary. This has kept it away from the ports whence the immigrants came to these shores, and as there is a rigid consular inspection on that side, as well as a most thor ugh quarantime service on the side, I am absolutely certain that no case of cholera has got into America this year. There have been two cases caught at quarantine, but they have not amounted to anything. It will be practically impossible for the epidemic to get in unless there is a relaxation of vigi-lance cn the part of health officers and con-suls. By the 1st of September we were practically over the worst of the pan'c, and looks as though the great danger of con-

tagion is past." NEW YORK, Sept. 6.—Nothing is known at quarantine relative to the supposed cases of cholera at Cumberland, Md. The steamer Elbe arrived during Monday night, and carly Tuesday marning the steerage passengers were all carefully inspected and found well. Captain Von Goessel and the ship's surgeon made no report of any sickness during The emigrant car from which a suspected

victim was taken is now sidetracked at Shauers station, a few miles from Pittsburg on the Baltimore & Ohio. Nine emigrants are confined in the car. Dr. J. G. Mc-Candless, member of the State Board of Health, and Health Officer Baker examined the suspects today. They think the man who died was suffering from cholera morbus or cholerine. To avoid any risks, how-ever, the car will be kept in quarantine for another twenty-four hours at least. NEW YORK, Sept. 6.—Gustave Schwab,

agent for the North German Lloyd Steam-ship company, on whose steamer, the Elbe, John P. Walther, who died at Cumberland, Md. of supposed Asiatic cholera, was a pas-senger, scouts the idea that Walther was

a victim of that disease. "Had it been Asiatic cholera," said he, "the disease would have made its opp arance long before. The period of incubation is sel-dom more than six days, and so either Walther or the person from whom he con-tracted the diseas: should have developed on the steamer.

ranch. William Leeder, the man who lost his leg on the railroad a few nights ago, is still in a critical condition. Dr. Slabaugh says the man will probably recover, but he was very

low yesterday. Hugh Landy is a fellow who has been in jail a number of times for disturbing the peace. Wednesday he was arrested for throwing a rock at his aged mother. He also smashed all the dishes on the table.

Mr. John J. McMillan has secured his bondsmen and forwarded his papers to Washington. He expects to receive his commission within a few days. There will not be any changes made in the present force at the postoffice.

ANNOUNCEMENTS.

The Lyceum Theater company's new play o be presented here, "The Amazons," pre sents Georgia Cayvan, Katherine Florence and Bessle Tyree as three young girls whom their mother has reared to appear as boys. Herbert Kelcey, Fritz Williams and Ferdinand Gottschalk are the three young men who convince the girls that they do not de sire to be thought boys by wishing to marry them. Mrs. Charles Walcot is the worried mother and Mrs. Thomas Whiffen the ful and eccentric servant. It is said that nothing could be more charmingly or delicately handled than the manner in which Arthur Pinero, the great English dramatist, has treated this subject, and the unusual spectacle of continuous mirth without coarse-ness or suggestiveness is the result. The Lyceum Theater company comes to the Boyd on Mon-tay and Tuesday nights only. The nale of seats will open at 9 o'clock Saturday morning and the rush is expected to be un-

precedented.
