WIFE BEATER SENTENCED.

Chester Gerrish Carried His Favorite Amusement a Little Too Far.

Chester Gerrish, an individual who lives at Seventeenth and Cuming streets, finds his principal means of varying the monotony of his daily lite in abusing his better half, Nellie Gerrish. This amusement he has put in practice so much during the pist that his helpmest has come to look upon it with equanimity. But the worm will turn at last, and Chester found out the truth of this proverb Sunday afternoon. He went home and immediately began to engage in b's favorite amusement. But his wife was too used to it to pay any perticular attention. The performance was not so enlivening as Chester desired. So he turned toward the little baby of the family. As long as his abuse was directed against herself Mrs. Gerrish made no particular objection, but when her poor little innicent received it her mother's instinct was up in arms. This was just what Chester wanted, and he thought he saw a whole lot of fun in sight. But Mrs. Gerrish summoned neighbors. A policeman was called and Chester was ig-nominiously carted off to jail.

When he was up before Judge Berka yes-terday Mrs. Gerrish was still wroth. When she finished the recital of her woes the judge was pretty indignant. Wife beating is his pet abimination, anyway. So he scaked Chester \$75, and the fifthy lucre was not forthcoming. Chester will lose his liberty for some little time and Mrs. Gerrish will have a little peace. Even after Gerrisi boards out his fine his amusement will prob ably cease, as the neighbors have urged Mrs. Gerrish to place him under bonds.

SAME GREAT SHOW.

Sights Seen Under Baraum & Lalley's Tents in Omaha Yesterday.

Barnam and Bailey's greatest show earth gave two performances in Omaha yes terday, showing to tremendous throngs both afternoon and evening. Truly and unequivocally, it is the greatest show on earth, and there is no extravagance in the claim, from the magnificent grand entree to the wild, thrilling and marvelous feats of horsemanship with which the grand aggregation of closes. Everything is new, clean and startling, beginning with a glittering pageant containing life-like counterfeit presentments of the crowned potentates of the globe, re-vealing the military uniforms of all nations true and accurate in the minutest detail, in cluding China, Siam, Egypt, Japan, Persia, Turkey, Belgium, Sweden, Spain, Italy, Austria, Russia, France, Germany, and the United States. All of the concomitants of royalty and power are graphically displayed. Such troops of splendid thoroughbred horses, from the steppes of Russia, the deserts of Arabia, the plains of America, as well as from the stables of the nobility of England and the aristocracy of the United States-horses that represent millions of dollars in value, a throng that it would be impossible to duplicate without years of thorough search and careful study. The exhibition of trained wild beasts, including all of the carnivori, from the ferocious tiger down to the treach erous hyena, is a show in itself well worth the price of admission. This is one of the children's favorite features, but is to be equally enjoyed by both old and young. Under the intelligent manipulation of Albert Stadie: these wondrous beasts execute the most asonishing feats. There is an Immense herd of trained elephants, monsters in size, and whose novel evolutions and almost human mowledge are to be remembered always. There is almost every type of humanity to

he seen at Barnum & Bailey's, a collection of ethnological curlosities that has com-manded the attention of the civilized world. The leaping, tumbling and somersaulting of a division of expert athletes is without an exception a matchless piece of work. The queenly equestriennnes and daring bareback riders, the trained thoroughbreds, ponies, zebras, monkeys, pigs, and baboons all ap-pear to entrance and charm. The aerial ex-ploits of Long and Edwards, Lizzle Seabert, Mand Allington and Alfredo Nelson must be witnessed to be believed. In posturing, contortions and all species of athletic marvels this corps of artists stands unexcelled. The couning little clown elephant, the troupe of caning fittle count respand, the trough of canine comedians the trick donkeys and bears are always the delight of the young, and the study of the old. Linda Jal is in-imitable in her whirlwind hurdle equestrian-ism, while the feats of the Japs on the high wire, the aerial ladder, the tight rope and other Oriental wonders are intensely fuscinat-

The clowns are original, new and funny and never fall to keep the colossal pavillor in a roar of laughter. The Eugenes, Thomas, Charles and James, are really the champion aerial artists of the world. Their exploits in midair are bioodcurdling, incredible, and must be a en to be appreciated. Their back ward, forward and twisting somersaults in midair, and all executed with a mathematical nicety, are to be seen nowhere on the face of the earth but at Barnum & Bailey's. The horseback tournament, May pole dance, fox hunt, steeple chase, quadrille and fence leaping, is an enjoyable display. The hippo-drome races and novel contests of speed are

as numerous as they are remarkable.

And the menageric, surely the combined efforts of all the showmen of the world togeth r have not nor cannot accomplish greater things in this line than has been compassed by Barnum & Bailey. It is a megatherian congregation of the animal kingdom, such as startles one when he reflects that it is day after day transported from one point to the other over the country. There is the monstrous and bulky hippopotamus, lions, tigers, the best specimens in captivity, jaguars, leopards, cougars, panthers, mountain lions, hyenas, striped and spotted, wolves, big timber and Russian grays, bears, ant eaters, armadillos, elk, wapiti, elau, gnu, mountain goats, ibex, zebras, gorillas, boons, serpents, birds, monkeys, alligators, wild cats, lynx, African buffalo, springboks, liamas, jackals, and in fact almost every wild beast that roams the plain, sneaks through the jungle, frequents the mountains or treads

the forest, are here to be seen in all their native savagery, grace, ugliness and beauty. George O. Starr, the gentlemanly, suave and generous press agent, old vet that he is must not be overlooked, for he is not only a star by name but a star indeed, in intrinsi worth. The press all over the country knows George, and always has an extended hand for him. Yesterday he took exquisite care of the little coterie of newspaper people who occupied the press boxes. They not only had the choice, but were kept lavishly sup-plied with cooling drinks, fruit and other re-

freshments. In charge of the menagerie is Prof. Billy Winner, the best known wild animal trainer and handler in the world, and the magnifi-cent condition in which all of the splendid animals are to be found, is due largely, it might be added, to his intelligent handling and thorough knowledge of their repuire-

Employment of Nonunion Men Causes Union Coopers at Ewift's to Strike.

THERE ARE TWO DOZIN OF THEM OUT

Not Thought the Trouble Will Extend to Other Unions-Wife Brings Her Husband Into Court for Intidelity -Magie City Gossip.

There is another strike on in South Omaha. After working an hour yesterday the union coopers employed at Swift's packing house sent a committee to Manager Foster and informed him that unless he discharged two coopers named Eaton and Muir they would all walk out. Mr. Foster told the committee that the two men mentioned suited him, that they had done their work well and he could see no reason why he should discharge them. "Then we will quit work," said the spokesman. "Very well," replied Mr. Foster, and the conference ended.

The committee went back to the work room and reported, and in five minutes the men all had their tools packed and were walking out of the plant. There are twenty-four of them in all. Upon leaving they were paid in full, and it will be a very chilly day when any of them ever secure employment in the Swift plant, according to a remark that was

ropped by one of the bosses. Eaton and Muir were employed by Mr. Fos ter during the recent strike. They were the only men employed in the cooper department who did not belong to the union. An effor was made to get them to join the union by old crew was taken back there has been had blood between the union and these two coopers. Only last Saturday while there men were on their way home from work they were attacked by a gang of union coopers, and if they had not had revolvers they would have been badly used. Several arrests have been made on account of the assault.

In speaking of the strike Manager Foster said to a Bee reporter that he considered the opers at his plant had been very ungrated. "At the time of the other strike," said he, 'all my coopers went out without any grievance whatever. They left in a body, but when the strike was settled I took them back in a body to a man. I did not discharge a single man of them. The two men whom they objected to working with are good coopers. I hired them at the time of the strike. They do not take the am satisfied with their work and will keep

When asked if he proposed to fill the places of the strikers with nonunion min, Mr. Foster simply remarked that he was not going to close the plant. The matter was settled Sunday at a meet-

ing of the coopers union as to what they would do. The committee was appointed at this meeting and all the details discussed. Out of the twenty-four men who struck all are married but three, and most of them ive in South Omaha. The last strike was an expensive one to

Mr. Robinson recently returned to South Omaha and told his wife that he had given up Texas and was going out west to seek a location. The wife suspected that something was wrong and by the assistance of detectives and by getting a peep at some of his correspondence she discovered that John had sent for Mrs. Roberts and that the two would return to the south together. A quarrel followed, and y sterday John went to the office of Z. P. Hedges an signed over a portion of his es-tate to his wife. Weather Interferes With the Plans of the Local German Marksmen.

Owing to the rain Sunday the attend ance on the second day at the local shooting ournament of the Omaha Schuetzenveren n Ruser's park was limited mostly to the more enthusiastic members of the club and few crack shots from the local Danish and Bennington rifle clubs. During the afternoon it became evident that the unpropitious weather would not permit of a conclusion of the shoot, and the arrangement commit-tee, consisting of Fred Mengedoht, W. F. Stoecker and F. R. Heft, decided, therefore to continue the tournament next Sunday a in the afternoon, and these were the Kehr and Man target. On the former F. R. Haft, who now holds the Rings prize, won at the last tournament, gained the only medal awarded during the day. His score on this target was 113 points out of a possible 240. This makes the second medal for points on the Kehr target, where, at a distance of 200 yards, only the eight-inch center counts, the first one having been won by Fred Fuller on Saturday previous. W. F. Stoecker gained the honor and premium for calling out the first red flag, attendant upon hitting the bulls eye. Subsequently Heft also accomplished this fourteen times in succession. On the Man target Charles Rasmussen's score of 58, out of a possible 60, was the highest The bowling alley also received attention from those present, W. F. Stoecker making 59 out of 60 points, with William Butt a

No prizes, however, with the exception of the medal spoken of, were awarded, and points on unfinished shooting cards are to be counted at the close of the tournament next Sunday, The regular program, as arranged for Sunday, will also be carried out at that time. Shooting is to commence at 8 o'clock in the morning, and in the afternoor the occasion will be enlivened by instrumental music. The bowling alley contest

begun Sunday, will be continued, and pop-ular games are designed to entertain all

visitors.

The most interesting part of the house-just now-is where the big and the little boys' clothes are. Good things-you know-adver tise for themselves.
