Plan of the Rail-cad Republican Managers to Get a Local Organ.

GOD" AND M'SHANE "VOICE OF

It is All to Come from the Magie City on a Wheelbarrow-Populist Primaries Last Night-Oth r Local Politics.

Some time ago a man named Wilson came to Omaha from St. Louis, where he had been living under the Missouri Pacific wing. He started a railroad paper, which he surrendered to take the aditorship of the South Omaha Tribune, in the interests of the railroads. Mr. Wilson has been on the inside of course, of the railroad manipulation of McShane's candidacy, and tipped the matter off in his paper on Tuesday evening in an editorial, in which he set forth that "the voice of the people, like the voice of God," was calling for John A. McShane to accept the democratic nomination for governor of Nebraska. Following is an excerpt from the

editorial:

It is the sentiment of the rank and file of the democratic party of Nebraska that John A. McShane stand for governor at the coming election, and John A. McShane is too good a democrat, and too loyal to his party, to refuse to respond to the call of his people to lead them against the enemies of the state's commercial, financial and agricultural well being.

On the one hand, a combination of communism and narchism, under the name of the populist party, is threatening to overturn and cast aside the underlying principles of our system of government, and establish thereon a form of government whose first purpose will be to add more than one million people to the already too large army of national and state office holders, and increase the nation's debt by more than eleven billion dollars.

On the other hand, the monopolies, the trusts and the protected industrial barons are putting in motion such machinery as will, if not interrupted, fasten something worse than the McKinley bill about the necks of the people. The consummation of this is the object and purpose of the leaders of the republican party.

To lead them against these enemies of Jeffersonian democracy, is what the democrats

our system of government—enemies of Jef-fersonian democracy, is what the democrats of Nebraska ask of John A. McShane, and since "the voice of the people is the voice of God," let it go abroad in the tand that the democracy will be led in the coming struggle by a man who has many times been tried and never found wanting. But that is not all of the program. Mr.

Wilson is to put his paper on a wheelbarrov and trundle it to Omaha, where it will b run as the strict democratic daily organ o Tob: Caster and the railroads. The change will be made very soon in the hope of helping the waning fortunes of the railroads tattooed candidate.

City Hall Employes Get a Trip to Lincoln at Somebody's Expense.

The city hall was closed yesterday he city officials and employ s of the various offices having taken'a vacation for the purose of attending the state fair at Lincoln There was very little reason why any one who has any business around the city buildng should stay away from the state capital vesterday if he had any desire whatever to see the sights of the city and the fair under the most favorable circumstances. The item of expense, which usually figures promicently in vacation trips of the kind enjoyed yesterday, was missing from this junkel. Wednesday afternoon three councilmen, two republicans and a democrat, visited the ity building and literally plastered it with passes to Lincoln and return. All of the employes who were considered desirable recipients of such favors were supplied with Burlington trip tickets to Lincoln and return janitor and elevator boys were not over looked. In the treasurer's office six clerks were supplied and in the other offices the distribution of the favors was equally

Naturally a question arises as to wh hears the expense of this somewhat royal entertainment, but the clarks and employes with no desire to look a gift horse in the mouth asked no questions, but took thei ittle blue tickets and started early for their lay's outing at somebody's expense.

SETTLED IN POLICE COURT.

Neighborhood Row Carried Too Far and Fines Follow.

A story of a neighborly row was exploited yesterday in Judge Berka's mill. Mrs. McNamee, who lives at 1146 North Twentieth street, was up for assaulting her next door neighbor, Mrs. Belle McDonald.

A base ball and a small boy were the direct cause of all the trouble. On Septem ber 10 this combination was out in the alley behind the residences of the two women company with some other small boys. game of three old cat was soon in active progress. The boys got warmed up and rapped out three-baggers and home runs in ball was over the fence and into Mrs. Mc Donald's vard.

The boys were in a quandary and dared each other for awhile to get the ball. At last the particular small boy who figured in the row said he wasn't afraid. He'd go in and get that ball if he'd have to face hundred buil dogs. So he opened the gate and went in. He found no bull dog, but he did find Mrs. McDonald, who told him to get right out. The boy wasn't built that y. Besides the other boys would laugh him. So he said he guessed not, and emphasize his intentions he struck Mrs. McDonald. She took hold of him and began to hustle him out. But the small boy was the possession of Mrs. McNamee, who lives next door, and she didn't like to see him hustled about in this way. So she crossed over and took a swipe at Mrs. McDonald and knocked her down. So, at least, said Mrs. McDonald and her witnesses. Mrs. McNamee says she tripped over the board

Well, the judge thought it over and decided he was sick of these neighborly fights. They are getting too common and every day affairs, and he thought he ought to put a value upon them. So Mrs. McNamee liquidated to the extent of \$6 and coats.

HEALTH BOARD BEFORE JUDGE SCOTT

Contempt Proceedings Growing Out of Alleged Neglect of the Very Stringent Orders of the Court - Other Cases Before the Judges.

The members of the city Board of Health were cited to appear before Judge Scott vesterday morning and show cause why they should not be fined for contempt, but when the hour for their appearance rolled around Chief of Police Seavey, Councilmen Howell, Bruner and McAndrews staid away, while Mayor Bemis, Health Commissioner Saville and Bob Duncan were on hand for the purpose of takng any dose of medicine that the court might want to force down their necks. None were forced, however, as the contempt trial was continued until next Saturday morning, with attachments being issued for the absentees, requiring them to attend at that date and explain why they had ignored the latter order of the judge.

All of the irouble arose over the city dump, located at Fourth street and Poppleton avenue, and which was established after the closing of the Davenport and Jones street dumps. When the new dump was established there was an order requiring that it should be kept clean and sweet, and this, it is alleged, it has not been, which fact the court has cincluded has placed the members of the city health department in contempt of the order.

The application in the contempt matter is brought in the name of Peterson & Boison proprietors of the Gate City Mait company, and Mathias Vanuce and Albert Zahrobsky, though the members of the board claim that B:b Duncan is the man behind the scenes, and that he is simply laying the lines to get even with Health Commissioner Savilla, whom he hates most cordially, and from the very bottom of his heart, all on account of some political difficulties which ante-date the organization of the beard. Union Depot Ordinance. The revival of the union depot controversy s not meeting with much encouragement at the hands of property owners and city offi-cials. About the only activity noticeable is the overgealous effort of a contractor of thunfinished Tenth street structure, who doubt less sees a chance of reviving the work. He has employed men to scour the various wards carrying petitions for the signatures of propowners. These petitions are designed to have some effect upon city councilmen who up to date have taken very little stock

in the depot compromise ordinance. The consensus of opinion among many of the leading men of the city is that the ordinance now pending before the council will prove a stumbling block to the early solution of the union depot problem. Some of the councilmen have caught the drift of popular sentiment and it is highly probable that the ordinance will soon be killed.
