FALLING OFF IN REVENUE

Money is Not Rushing Into the Public Office Just Now.

GREAT DECREASE FROM INTERNAL TAXES

All Due to the Change in the Law—Loss on the Receipts of the Year Will be Seventeen Millions.

WASHINGTON, Sept. 15.—The revenues of the government have fallen almost \$13,000,000 in round figures for the first fourteen days of this month compared with the last half of August. The receipts from customs for the first fourteen days of this month amounted to \$2,227,000 (in round numbers) against \$6,730,000 for the last half of August, while the receipts from internal revenue were but \$2,292,000, compared with \$20,634,000 for the latter half of August. The loss is due to the enormous sums paid on whiskey, which was withdrawn for consumption just before the new tariff went into effect, increasing the tax from 90 cents to \$1.10 per gallon. The receipts from internal revenue for the first fourteen days of the month divided to \$2,292,000, about \$100,000 below the normal, and were not counterbalanced by the increase in the receipts from customs due to heavy importations under the reduced rates immediately following the enactment of the new law. Custom rates increased about \$3,000,000. The receipts from internal revenue are now confined almost entirely to the tax on beer, cigars, and tobacco, and average about \$250,000 per day. For the two months July and August, while the normal receipts are \$1,000,000 daily, the Treasury department estimates that about four months supply in addition to that for current use was withdrawn during July and August. This month the receipts from the tax on alcoholic spirits will reach the normal again before January 1, 1892. This will be a relief to the Treasury, as the receipts from the tax on beer, cigars, and tobacco, which had also increased, are now about \$22,000,000 per month until January 1, 1892, when they will fall to the normal of \$10,000,000. This estimate, it should be stated, leaves out of account any large increase in importations arising from the operations of the new tariff law. The expenditures have averaged about \$34,000,000, but without the sugar bounty, which is now being paid, the Treasury would be \$23,000,000 in the red. For the next four months it is estimated that the receipts will be about \$88,000,000 and the expenditures about \$124,000,000. The Treasury department estimates that the income tax for the last six months of the current year will take place and this will swell the receipts to about \$100,000,000, so that at the beginning of the next current year the Treasury (when the receipts will resume their normal figure) would be on the strong side of the ledger about \$23,000,000 in the first half of the present fiscal year. There is to be deducted from this, however, \$7,000,000 which the Treasury gained during July and August, leaving a net loss to the Treasury for the first half of the fiscal year of about \$17,000,000.

CATARACTS NOW EPIDEMIC

DRS. COPELAND & SHEPARD AND OTHERS NOTE THIS FACT

Greatly Increasing Number of Applicants to the Copeland Medical Institute—Trifling Expense Attending a Speedy and Permanent Cure—Reliable People Continue to Testify.

The practicing physicians of the west seem now agreed on one matter of common public interest, and that is that the month of September has set in with a regular epidemic of cataract. The disease is always prevalent in our climate, but this time it seems to be on us like a wave of a gripe, that takes in all men, or like a sweep of the epizot, that takes in all horses.

It isn't always a mere nasal catarrh. It isn't always an inflamed and running nose. In an unusually large number of instances it is something deeper, more subtle, more secret and more serious. Thousands upon thousands of themselves suffering from some mysterious dyspeptic trouble, coming in reality from catarrhal inflammation of the mucous linings of the stomach; others are suddenly conscious of some mysterious kidney disorder, bladder disorder, liver disorder, bowel disorder, uterine disorder, coming in reality from some long-lurking un-conscious catarrh of either of those vital organs; and others find themselves sick and miserable from a strange, debilitating bodily heat, which is in reality a slow catarrhal fever coming from the gradual action of catarrhal poisons upon the entire system.

Mr. C. L. Davis, of the U. S. Mail Service, 1122 W. Locust st., Des Moines, Ia., says: "I received your medicine for chronic nasal catarrh, which had also involved the middle ear, and I wish to say now that I must credit you with the cure of my trouble. The good that it does for me is hard to estimate, for I am in perfect health today, and have had no such trouble since taking the medicine."

Dr. Copeland & Shepard, who have a vast experience in the diagnosis and handling of the disease and its subtle complications, confirm the impression of its present epidemic form in their statement, recently made public, touching the inevitable results of abnormal climatic conditions recently prevalent. The consequence is that

TO PAY THE IOWA MILITIA

Litigation Necessary to Secure Funds for the National Guards.

TEST CASE TO BE SUBMITTED AT ONCE

Supreme Court Will Be Given an Opportunity to Pass on the subject at the Earliest Possible Moment.

DES MOINES, Sept. 15.—(Special Telegram.)—The state executive council today after a lengthy discussion of the bills of the state militia for services at Council Bluffs, Muchakineo and Sioux City, amounting in all to about \$12,000, decided to make up an agreed case for decision by the supreme court. State Treasurer Beeson voted to allow the bill under protest for the purpose of a test case. Adjutant General Prime will now present the proper vouchers for a warrant to the auditor of state. The latter official will refuse to draw the warrant, and Prime will endeavor to secure a writ of mandamus from the district court of Polk county. Whichever way it is decided an appeal will be taken. Hon. A. B. Cummins will represent the state auditor, and Attorney General Stone the rest of the council. It is hoped to have the matter settled at the October term of the supreme court.

There is a difference of opinion whether the payment should be made out of the general fund or out of the National guard fund, the governor and secretary of state holding the former view and the auditor and treasurer the latter. Attorney General Stone concurs with the governor. Should the final decision be in favor of the governor's view it will enable the council to pay bills out of the general fund to an unlimited extent, where no appropriation has been made for certain purposes.
