Dance Broken Up by Troughs.

News is brought to The Bee of another deprecation committed last Saturday night at Crescent by the notorious gang of plug uglies composed of Cliff and Sully Hough, Dutch Boyington and "Dago Dick" Landon.

A dance was in progress and everything was going on pleasantly when the gang rushed in and without the slightest provocation or warning commenced to knock people down.

All were drunk and armed with clubs, brass knuckles, or such other weapons as came handy.

Ernest Menary of the firm of Menary Bros., nurseryman at Creston, was struck with the knuckles and hurt so badly that a doctor had to be called to dress his wounds.

Every member of the gang is known to the police of Council Bluffs as an ex-convict and a general desperado.

One of them, it is said, has served ten months in the penitentiary for burglarizing a store and robbing a man from the scene of this disgraceful outrage.

Made the Century.

In spite of the fact that it was announced that the proposed century run to Sioux City had been abandoned on account of the recent rains, five Ganymedes riders of the club house yesterday morning to make the run.

They were Captain Williamson, Ray Bixby, W. D. Carothers, Tiltus Dahl and John Carothers, who sit upon the club house bench, but a small boy who has never ridden more than ten miles at a stretch in his life.

He made 120 yesterday, however. Williamson and Bixby put in about four hours of riding time in going to Sioux City, a distance of 115 miles, arriving there at 4:30 o'clock.

Twelve hours and a half after leaving the club house. At Sallis, a few hundred from Council Bluffs, Dahl punctured his tire and Carothers and Hansen decided to stay with him.

Ernest Menary of the firm of Menary Bros., nurseryman at Creston, was struck with the knuckles and hurt so badly that a doctor had to be called to dress his wounds.

Fire Damp Detector.

An electrical fire damp detector has been devised for use in coal mines. The instrument consists of two identical similar spirals of fine platinum wire, one of which is enclosed in a tight tube containing air and having the upper end closed, while the other is contained by a wire gauze tube of similar size, which is also placed at its upper end, both tubes being arranged vertically.

The use of the instrument is based on the fact that the spiral of platinum wire that has been heated to redness burns more intensely when it is plunged into a vessel containing air mixed with inflammable gas.

WHAT INCAPABLE RULERS.

Here Are the Figures, Running Into Thousands of Millions.

The depression that resulted from the attempt of the democratic party to carry out its pledges which were made in the Chicago platform two years ago has been recognized in every branch of business, and it has been known for many months that the loss to the United States would amount to many millions of dollars.
