THE OMAHA DAILY BEE NEWS FROM COUNCIL BLUFFS

. NO. 12 PEARL STREET Commercial Interests Discussing a Unique Power Canal Scheme.

TO JOIN THE RIVER AND INDIAN CREEK

This Scheme is Being Advocated in Connection with an Effort to Boom the Manufacturing Interests of the City.

Among the explanations of the present flurry in real estate, one of the latest is also one of the most interesting, whether it has any basis in fact or not. People have been found who averred that the smelting works to be moved to this side of the river, that the Illinois Central would build its long proposed line to Omaha and Council Bluffs, that the Chicago, Burlington & Quincy shops would be moved here from Plattsmouth, that number of large manufacturing enterprises were to be located here through the efforts of the several companies that have been or-ganized for the purpose of inducing capital to turn Council Bluffsward. But it is only re-cently that the idea has been suggested that it is the plan of some of these improvement companies to cut a canal through the western part of the city for the purpose of furnish-ing water power for the factories which are expected to locate here. It is claimed that a canal could run from the river at a point ot far above the Terminal company's bridge in a southwesterly direction, foining Indiar creek, and that in this way many thousand horse power could be obtained. This sugges-tion is not given as an ascertained fact, but as all the other plans of the improvement apanies which are commonly supposed to working up a boom for Council Bluffs realty are shrouded in mystery, there is no reason why this should not be given as much credence as any of the rest of them.

Sheriff Hazen returned yesterday from his trip to New York as a witness in the Wilson case. WASHINGTON, Sept. 26.—Tokio advices stating that a second Japanese army of 30,000 had sailed from Hiroschima is regarded in official circles here as the first movement in the advance on the Chinese capital. Peking. It is pointed out that there is no need of Japanese reinforcesments in Corea, as since the battle in Ping Yang the Japanese have had practically possession of Corea and their first army of 15,000 needs no additions. It is believed by diplomats that Japan has turned her attention from Corea with a view to invading China. The guilf of Pe-Chi-Li, which the dispatches give as the probable destination of the army, is the entrance to the river leading to Peking. It is said, however, that the forts at the entrance of the river are practically impregnable, owing to a stretch of mud flats arpund them. It is not believed, therefore, that any advance on Peking would be made up the river, but that the 30,000 men would be landed at some other port, after which a short overland march would take them to the walls of Peking. This circuit of the forts is the strategic move advised by a United States army officer of high rank, who has made a study of Japan's proposed invasion of China.

BRAINS (SOUND.)

Sound brains furnish practical ideas. A bat, being a close neighbor to brains, is entitled to harvest the crop. We lend our brains to our hat department. Three months of each year we study how to obtain a practical, shape-retaining hat, for little money. The result, compare any hat, at any price, whether 4, 5 or 6 dollars-side by side-quality to quality--trimming to trimming--to our three dollar hat, and find ours overbalance the scale --certainly.

The "Nebraska Special" our one fifty leading hat, is exceptionally fine this season--sold so far over 400 dozen. Three dollars buys as good a hat -- but in a few places. Derby, Fedora or soft.

Two and two fifty are our other prices, the identical hat you pay \$3.50 and \$4.00 for. Fashionably blocked and every shade appropriate for the season--shales, stiff Fedora, Tourist, soft and other.

Crushers we sell at 35c, 50c, 75c, \$1.00, \$1.25, considerably cheaper--as a matter of course--than any one selling a line anywhere--shades are everything that color hats.

Autumn weight overcoats. Shan't omit to ad-

vise you in the matter of selecting a fall overcoat. They're cheaper this year than ever before. If you can't do as well elsewhere try us. We shall please you with a good dressy coat for four do lars, a better one for six fifty, increase in grandeur and dollar by dollar in price until we reach a tailor made, elegantly draped beauty that'll cost you but fifteen dollars. A sample of the queer and awkward overcoat called "Paddock," which is -- by the way -- the newest extreme for swell wear, on exhibition in our

Our drapery department is full of new things jus now, and many of them at much lower prices than heretofore, as these have just been imported

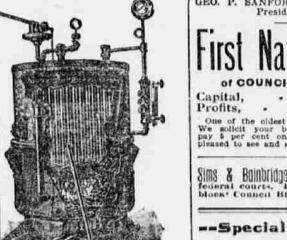

under the new tariff.

For doors and arches we have: The new Negas curtains.

The new Durby curtains. The new Verdure curtains. The new Tuscan curtains, The new Ramsic curtains,

100 Couch Covers \$1.65 each, former price \$3 50. Lace curtains of all kinds. The line of Swiss Laces by the yard is complete in all widths and the variety of patterns and qualities is far greater than ever before- These goods are more popular than ever this season.
