A telegram has been received announcing that W. B. and Ed Harter have been ar-rested at Mapleton, N. D., and will be brought back here for a trial on the charge of disposing of a lot of property that was mortgaged to Herman Mendal of Neola. Sheriff O'Brien left last evening for Mapleton.

The Christian church gave a concert last evening at the Tabernacle, a fair audience being present. Mr. Franz Adelman of Omaha, the violinist, did some exquisite work, by far the best on the program. R. E. Sunderland, elocutionist, and the Mo-zart quartet, all of Omaha, rendered several selections which were well received.

John Burke, James Campbell and Charles Johnson, the three fellows who put in Wednesday afternoon begging on South Main street, were given thirty days apiece by Judge McGee yesterday morning. They refused to work on the streets, and they stood on the street corners all day long, each with a large chain attached to himself and his two mates.

A large number of Red Men, their wives, daughters and sweethearts, gathered at the hall last evening to enjoy the pleasures of the first entertainment given this leases by Etchetah council. A pleasing program was given many of the special features of which elisited great applause. Dancing and re-ficehments topped off the evening's festivitics in a delightful manner.

William Duquette, a worthless rounder, who is already out on bonds for an assault upon his wife, repeated the offense last evening, using his fists with terrible effect. The ort was circulated that he had stabbed but an investigation proved this to be a mistake. After committing the crime Dunuctle skipped out, and at a late hour last night the officers were after him. trage had been solumnized a number of the members of the Junior Order of United Am-erican Mechanics, friends of the groom, ien-ustred a serenade. ily relinquished that news service to accept service from any other news association not in close and friendly reliations with the Associated press. The committee further re-ports that the present actual cash receipts each week in payment for the various de-liveries of its news service are in excess of the a unal we kip ex, ense of he As oc atcd press, and in excess of the average weekly expenses of the organization since the last annual meeting. The Associated press has for the exclusive use of its news service (k,58] miles of leased wire, extending from St. John, N. B., on the east, to Portland, San Francisco and San Diego on the west, and from Duluth on the north to New Orleans. Galveston and San Antonio on the south. The independent agents—correspondents—in the service of the Associated press are 1,560. The number in the eastern division is 525, in the central 632, in the western division is 605, in the southern Associated press cover that territory. The number of telegraph operators in the service of the Associated press is 165. The average mumber of words transmitted over the day wire is 5,600. The average number over the night wire is 45,000. The approximate num-ber of words gathered in the telegrapht service throughout the country is 61,000 per day. The committee finds that the Associated habitation and are now living in obed ence to the laws, and the time has now arrived when the interests of public justice and morality will be promoted by the granting of amnesty and parden to all such offenders as have compiled with the conditions of said proclamation, including such of said of-fenders as have been convicted under the provisions of said act; now, therefore. Nothing has been heard from St. Augustine

night wire is 45:00. The approximate number of words gathered in the telegraphic service throughout the country is 60:00 per day.
The committee finds that the Associated press has maintained at every point great superiority in its service over all competitors, and that not only in its domestic, but also in its foreign, news arrangements, it stands far ahead of any previous record. It holds exclusive contracts with the London Times, prohibiling the lexitimate use of the news of that newspaper by any other American association, and similar contracts with the lendon Times, prohibiling the lexitimate use of the news of that newspaper by any other American association, and similar contracts with the three great agencies of England, France and the Wolfe of Berlin, the three great agencies of England, France and Germany, which maintain correspondence at every important city in Europe. Africa, South America, Asia and Amstralia. The examination of the books of the Associated press shows that its numbers have righed any ple field theme ves of a gur raty fund of \$50,000 to maintain the high character of its news service and to meet any extraordinary contingencies of expense. A demurrer was argued by the attorneys the case of Henri Gittens against Martha Gittens, both of them ancient and well known residents of Boomer township, this county. Gittens has made three efforts to Tree himself from the bonds of matrimony, but each time the woman's wiles have proved his undoing, and he has found himself unable to stay away from the lady who mar-ried him. So two of the three suits were dismissed, one after the other, and now Gittens goes in a third time, determined to fight it out on this line if it takes three more efforts to do it. He claims in his petition that the lady married him for his money, induced him by her caresses to deed it to her, and then turned him out into the cold world with a suit of clothes and a psin. Sev-eral legal points were discussed yesterday and the demurrer of the defendant was over

A row came near being precipitated Wednesday night shortly before midnight by the determination of a large crowd of men and boys to tender a newly married couple in the northern part of the city a charivari. Officer Martin had been sent to the place in anticipation of some trouble, and found fully 200 men and boys in the act of perpetrating their serenade. Mattin ordered them to stop, but some of the men were drunk, and four of them, who had organized themeselves into a quartet for the promotion of crucity to

the atmosphere, told him they would go get dishpans if they were not allowed to use their vocal apparatus. Directly across the street was a lady lying very fil. After considerable trouble the gang was broken

Rousing Campilre as a Final Coup of the

Reunion. OTTUMWA, Ia., Sept. 27 .- (Special Tele gram.)-The seventh biennial reanion of Crockers' Iowa Brigade association closed tonight with a rousing campfire. This city is the home of the late General Hederick one of its distinguished members, and no effort was spared to make it the most successful reunion in the history of the brigade. The campfire tonight was rich, rare and racy. The inevitable General Jack Stibbs was used to "whoop it up," and speeches were made by Major Hamilton, Captain Harper of this city, Commander-in-Chief Lawler of the Grand Army of the Republic, Colonel Benjamin Johnson, Captain C. W. Kepler and others. Muse's Iowa quartet produced a number of sensations for the boys and the Indias' quartet was enboys, and the ladles' quartet was en-thusiastically greeted. There was another jam at the opera house, but no one was hurt, as at last night's entertainment, when one man was knocked down by the police

and a number of women fainted in the crush. Colonel H. H. Reed was re-elected president, Captain C. W. Frocker corre-sponding secretary, Captain John Hayes sec-retary and Peter Keuhne treasurer. The next meeting will occur in two years at Marshalltown. Marshalltown.

VALLEJO, C .la, Sept. 27.—The naval court of inquiry to examine into the cir-cumstances regarding the grounding of the a wind of twelve miles south. Later reports cumstances regarding the grounding of the United States steamship Adams on St. Pau's island convened at the mavy yards yesterday. After the board, of which Captain C. Scott is president, was organized, in ac-cordance with the navy regulations, they visited the Adams, lying in the stream, and all the officers and crew were given an opportunity of entering any complaints they might have regarding the handling of the ship by the officers in charge at the time. After careful inquiry among the onficers and men by members of the board, not the least particle of dissatisfaction could be found in any form. All were perfectly satisfied and were free to express that in their opinion nothing could have show that the pressure has risen six-hundredths in three hours at Charleston, and fallen the same amount at Norfolk, which indicates a very slow movement to The present indica tions are that the storm will continue to move slowly until midnight, probably diminishing in intensity.
