Hollingsworth Went Into the Box for Omaha and simply Floated 'Em Over for the Farmers to lit to Boundaries.

The Lincolns flaxed the Rourkes yesterday afternoon 14 to 10, and thereby took their first game in the state championship contests. Hollingsworth pitched for Omaha, and that explains the whole defugelty. With Whitehill on the slab, the game would have been another gift for Pa. This afternoon the two teams meet again. Whitehill and Johnson will again oppose each other, and a sharp contest will be the result. Score: OMAHA.

Discussing the Barber Letter at Washington and in Omaha. WASHINGTON, Oct. 5 .- (Special Telegram.)-Quite a stir was created today among the officials of the War department in Washington by the reports published this morning to the effect that Colonel Merritt Barber, assistant adjutant general of the Department of the Platte, had offended the veteran members of the Army of the Tennesses, now encamped at Council Bluffs, by writing an insulting letter. No information of an official nature has yet been received by the department, and, beyond the newspaper statement, the officials here know nothing of the matter. Adjutant General Ruggles today said that he, of course, did not know what would be done.

General Vincent, the assistant adjutant general, said: "I know nothing of Colonel Barber's alleged action, except what is stated in the newspapers, and I cannot therefore say whether or not any action will be taken by the department. It is not probable, however, that anything will be done until some official notification is made in the way of a complaint."

None of the army officers were willing to express their opinions about the remarkable letter of Colonel Barber.

Captain Crowder, judge advocate of the Department of the Platte, was seen last even-Department of the Platte, was seen last even-ing and asked if there was any foundation for the report that Colonel Barber would be court-martialed. The captaid, said that he knew nothing about the case save what he had read in The Bee, and from the pub-lished account of the affair, he could see nothing in it that would call for a court-martial, or even for an official investigation martial, or even for an official investigation under the army regulations.

Bee man asked Colonel Barber if he had anything to say in reply to the uncom-plimentary remarks made concerning his action in the matter. The colonel said he action in the matter. The colonel said he had nothing to say further than to make clear the point that when he received the communication of August 21 he had only been here a little over a month; had no acquaintances in Council Bluffs, and was not aware that there was to be a general meeting of the society at that place, and was perfeetly honest in his statement that thought there was a mistake. He called attention to the fact that he made no statement in his reply that he "had never heard of the Army of the Tennessee." His reply distinctly states that he had never heard of the committee that appointed him, either at his office or his residence, and had never even consulted him by note or otherwise. He took it to be some local organization, not knowing and not observing it was the parent society that, would meet in Council Bluffs, and he was not aware that such committee was acting in behalf of that society.

DELAYING ALL CITY BUSINESS.

Union Depot Combine Causes Another Adjournment of the City Council. As was forecasted in The Bee of last evening, the combine lacked a vote of being able to pass the union depot ordinance over the veto of the mayor at the adjourned meeting of the city council last evening and another adjournment was forced by the B. & M. mafority. The minority protested that there were important matters which must be considered or the public would suffer by the delay, but the combination was fixed and the motion to adjourn was carried by a majority

The council was declared adjourned until Monday night and a number of important matters that should have been attended to last Tuesday night will have to wait until they can be considered without endangering they can be considered without endangering the interests of the depot ring. Important among these is the appointment of registrars of election to fill vacancies. The carilest date on which they can now be appointed is Monday night, while the next day is the first day of registration. The appointees must qualify after their appointment and be confirmed by the mayor and how this can now be done, if they are not appointed until the evening before they are to serve, does not appear. not appear.

The Corby street paving contract is an-other matter that is compelled to suffer by the action of the council ring. The con-tract was ready for approval Tuesday night and the weather during which asphalt pave-ment can be safely laid is rapidly passing. It was important that the contract should be approved at the earliest possible time, but the interests of the public were not con-sidered, and it will have to suffer in order that the desires of the Burlington road may be subserved. A number of estimates from the Board of Public Works and the city en-gineer are also sidetracked as well as the ordinance providing for the filling of va-cancies in municipal offices and other mat-ters of public interest.

Well!

As it has made thousands of others well,

Prof. Cook is one of the editors of the Educational Review. He knows just what the
English language means. Here is what he writes.

'Last winter I had a severe attack of teh grip, which was followed by complete nervous prostration. I lest forty pounds-of nervous prostration. I lost forty pounds of flesh in as many days. After trying change of climate and various remedies without any apparent benefit, at the suggestion of a friend, I began to take Paine's celery compound. Its effects were very marvelous. My appetite returned, my digestion was improved, and I began to sleep regularly, which I had not done for weeks. I am still taking the compound, but regard myself as a well man. I have recommended it to many of my friends, and they are all loud in its praise." Can anything be plainer?

Paine's celary compound makes people well. Just try it.
