HOW ARIZONA IS ADVANCING

Material Resources Being Developed at a Rapid Rate.

ANNUAL REPORT OF GOVERNOR HUGHES

Will Lead in Gold Production-Proposed Withdrawal of Troops Declared Unwise -- Geronimo Not Wanted-Liquor Trame Among the Indians.

WASHINGTON, Oct. 9.-Strong protest Against the return of Geronimo to Arizona nd against the liquor traffic in that territory made in the annual report of Governor C ughes, to the secretary of the interior, which was made public today. The report comments generally on the increase in popuation, morals, educational and social adancement of the people and the absence of distress prevalent in other sections. It shows that the two previous years of drouth resulted in a loss of 50 per cent of range cattle in the territory, but was followed later by a general recuperation of the stock

The closing of silver mines caused by the low price of silver resulted in increased gold production and development of gold re-Bources, with the prospect, says the governor, that Arizona will become a larger gold producing state than any other state or territory. The gold output was \$2,080,250, silver \$1,700,800, and copper 48,270,500 pounds.

The increase in gold output over the previous year was \$1,078,000 and from the present monthly output of gold it is estimated that the gold product for this calendar year will the gold product for this calendar year will be over \$4,000,000, and for 1895 will reach \$8,000,000. The value of Arizona's total output of gold, silver and copper for the last eighteen years was \$101,784,017. The lumber production last year was 25,000,000

There are 35,000 Indians in the territory among the Navajoes, caused by scarcity of water and pasturage on their reservation. Gazernor Hughes stamps the proposed with-drawal of troops from Arizona as unwise. drawal of troops from Arizona as unwise, suggests encouraging young Indians to take allotted lands in severalty and says not a more fatal mistake could be made by the government than to return Chiricahua and Geronimo Apaches to Arizona, where their presence would be fraught with great danger. If the troops are withdrawn it is urged that the Indians be protected from strong drink, insuring the people immunity from Indian outbreaks, consequent massacres and wanton destruction of property.

The statehood question is discussed at length and admission of the territory to statehood through an enabling act is suggested. The cultivated land of the territory aggregates 650,000 acres. The state has 10,000,000 acres capable of reclamation. The Carry bill ceding 1,000,000 acres to each state and territory in the arid region is characterized as the most important measure in the interest of the west. It is estimated that the total retrenchment made in administering territorial affairs exceeds \$100,000 for

ASKS INDEMNITY FROM RUSSIA. American Who Was Imprisoned in that

Country Asks Damages. WASHINGTON, Oct. 9 .- Nicholas Frederickson, claiming to be an American citizen, who was seized and imprisoned in Russia and afterward made his escape, called at the State department today in furtherance of a claim for indemnity for illegal arrest. Frederickson asserts he was born on shipboard in Persian waters, of a Swedish father and a half-breed Esquimaux mother. He resided in Alaska when the territory was acquired by the United States and so became an American citizen. He was at school in Chicago during his boyhood and returned there during the World's fair to work as a machinist. At the time he took out his naturalization papers to meet a refusal by the authorities in Alaska to recognize his citizenship. In Russia last winter he was ar-

rested and imprisoned as a deserter. Later he was set free and kept under surveillance. Again he was imprisoned, and this time he managed to escape and make his New York. The impression conveyed man's story is that he suffered from a case of mistaken identity. He told his story to State department of the United States. but as a mere statement does not meet the requirements, he will have to prefer a formal complaint before the department can act in the matter of securing indemnity for him.

TROUT DID NOT THRIVE.

Those Planted in Alaskan Waters All Froze Out.

WASHINGTON, Oct. 9.-Fish Commissioner McDonald has received from Commander Drake of the fish commission's steamer Albatross, which has been patrolling Bering sea since May 1, the report of his movement: and experiences up to June 30. The report covers principally meteorological and hydrographical observations and contains little of special interest, nothing in fact to the seal question, as the period covered was the "closed season," before the seals left the Pribyloff islands. Only five seals were Pribyloff islands. Only five seals were seen at sea up to June 30. No trace of the trout which were planted last year in the inland waters of the island were discovered This left no doubt that the lakes were frozen to the bottom and put an end to further experiments in that line. According to a telegram received this morning from Port Townsend, Captain Drake left there yesterday with the Albatross for San Francisco where be will prepare his report on the observations made in Bering sea during closed season. This report probably will be of a confidential nature and will, with future reports on the same subject, serve as valua-ble information in any future negotiations with Great Britain as to the limitation of the great prohibited zone.

TERM "WOOL" DEFINED.

Held to Mean Only the Hair of the

WASHINGTON, Oct. 9 .- Secretary Carlisle today received from Acting Attorney General Maxwell an opinion in which he holds the term wool as used in the woolen schedule of the new tariff act refers to the hair of the sheep only and that new and lower duties on goods made of the hair of the other animals went into effect on the signing of The opinion further states that se, "manufacturers of wool," in paragraph, is not applicable to articles o which wool, as so defined, although a com ponent material, is not the material of chief e. Immediately on receipt of this opin-Secretary Carlisle sent the following telegram to all collectors of customs

"Attorney general has rendered an opinion that the word 'wool' as used in paragraph 297 of the new tariff act refers to the hair of sheep only, and that the new duties under schedule K upon articles made of the hair of other animals went immediately into effect Customs officers will be governed accordingly. Instructions of August 27 remain unchanged. Collec-tors will reliquidate all entries covering goods classified contrary to above instruc

Dynamite Guns for San Francisco. WASHINGTON, Oct. 9 .- The War department is arranging at once for the construction of a battery of dynamite guns in San Francisco harbor similar to that in place at Francisco harbor similar to that in place at Sandy Hook, with the exception it will consist of three fifteen-inch guns instead of two fifteen-inch and one eight-inch gun. The guns will be placed temporarily at Fort Winfield, where the masonry platform has already been prepared, but it is the intention of the department to remove the battery at a future day to Point Diable. at a future day to Point Diablo.

Associated Press Not Responsible WASHINGTON, Oct. 9.-The attention of Mr. MacCuaig, chief of the Department of Agriculture, was invited to an assertion made by him in this morning's papers to the effect that the republican campaign books charges against Mr. Morton had been published by the Associated press on the eve of that gentleman's departure. Mr. MacCuahy immediately admitted that he used the term "Associated areas" ciated press," not as referring to any

particular concern, but with the idea of the system itself in his mind, his impression being from the simultaneous publication in two or three papers that it must have been handled by one or the other of the press associations. In further reference to extracts on his desk he was fully satisfied that the publication in question was the work of special correspondents, for which the Associated press was in no wise responsible.

CONFUSION IN NAMES.

Postmasters Instructed to Watch the State as Well as the Town in Addresses. WASHINGTON, Oct. 9 .- Acting Postmaster General Jones has issued an order discontinuing the practice at all postoffices of placing postage due stamps on advertised mail matter before collecting the required

The second assistant postmaster general has issued circulars calling the attention of all postmasters to the importance of promptly notifying the department of changes of schedules on any railroad, whereby mails reaching their offices by star routes are de-layed. Frequent complaints have been made to the department of the negligence of post-masters at railroad points in this respect. Postmasters have also been notified to make prompt disposition of mail sacks used in transporting public documents from Wash-ington, and their attention has been called to the necessity for a closer scrutiny of the name of the state in the address on mail for offices of similar names in different states. Unusually frequent complaints have been made in the latter case of missent mails for Cleveland, Tenn., and Cleveland, O.; Cincinnati, Ia., and Cincinnati, O., Detroit, S. D., and Detroit, Mich., Quincy, Ia., and Quincy, III., and St. Paul, Neb., and St. Paul, Mich., and St.

POTATOES FROM SCOTLAND.

Over Half a Million Bushels in Nine Months in Spite of the High Tariff.

WASHINGTON, Oct. 9 .- Considerably ore than half a million bushels of potatoes, weighing 31,784 tons, were brought from Scotland to the United States in nine months ended in June, and this, too, notwithstanding a protective duty of 25 cents per bushel on imported potatoes. This fact is set out in a report to the State department by United States Consul Savage at Dundee, Scotland. Nothing but the best potatoes, Magnum Bo-nums and Bruces, are shipped to America. The price at the beginning of the season was \$11.55 per ton f. o. b., exclusive of the cost of sacks-13 cents each. The freight from

Dundee to New York was \$2.85.
The consul reports that the outlook for this season's business is uncertain. The Scotch acreage is smaller than last year, less of the export brands have been planted and the crop has suffered from frost and rain, all pointing higher prices. On the other hand the retariff act is from 25 cents to 15 cents bushel and the expected rise in price of petatoes owing to our own short crop may largely increase shipments from Scotland.

CHILIAN CLAIMS PAID.

Money Paid Into the Treasury at Washington for Distribution.

WASHINGTON, Oct. 9 .- The Chilian government, through its minister here, has just paid into the State department \$245,648.35, being the amount of the judgments rendered against Chill by the Chilian claims commission, which closed its work in Washington three months ago. Most of these claims are based upon injuries sustained by American citizens resident in Chili and Peru during the war between these countries. From the total amount of judgment there were deducted 5 per cent, amounting to \$12,028.21 in accordance with the provisions of the treaty, to pay the expenses of the commis-sion. The awards will be paid by the State department immediately to the persons who obtained judgments, as follows: Central and South American Telegraph company, \$38,-687.60; W. S. Shrigley, \$4,831.70; Gilbert Bennet Borden, \$8,728.13; Wells-Fargo & Co., \$27,735.23; Jennie R. Read, \$1,081.08; Edward C. Dubols, \$147,470.40, 5 per cent having been already deducted in each case.

ROOM FOR RETALIATION.

Figures of Our Trade with Germany in Meats and Breadstuffs.

WASHINGTON, Oct. 9.-The treasury statistics of our trade with Germany, which will be affected if that country carries out its threat of retaliation against American meat and breadstuffs, shows that our sales to that country last year were as follows: Cattle, \$285,792; canned beef, \$376,917; salt and pickled beef, \$441.484; tallow \$220.800 and pickled beef, \$441,484; tallow, \$229,890; bacon, \$1,036,090; hams, \$146,360; fresh pork, \$199,611; lard, \$8,488,650; oleomargarine, \$2,850,090; butter, \$11,090; corn, \$5,339,490; wheat, \$1,177,090; flour, \$1,287,090. In the aggregate a retallatory policy on the part of Germany would affect about \$20,000,000 of American trade in meats and breadstuffs.

LOST NO RIGHTS BY ENLISTING.

Decision of Commissioner Lamoreux in the Case of a Nebra-kan.

WASHINGTON, Oct. 9.-Commissioner Lamoreux of the land office has rendered a decision which will probably be regarded as a precedent in a number of cases vet to follow. It was in the claim of Peres A. Tisdel of Nebraska. He was living on a pre-emption entry when the war broke out, when enlisted and served three and a half years. Tisdel did not return to the land, and sub-sequently made application for another tract. This was denied by the local officers, but the commissioner holds that the man lost no by enlisting, even if he did not return to the land at the close of his service

Saving in Army Expenses.

WASHINGTON, Oct. 9.-At its last session ongress cut the appropriation for army transportation heavily, reducing it about \$100,000. It was already low, compared with the necessities, and close upon the reduction came the large expenditures involved in the extensive movements of troops during the Debs strike, and more recently the considera-ble exchange of stations following the reorganization project. The strictest econ was necessary to make the appropriation last through the fiscal year and after looking over the ground, a method of retrenchment was found by the reduction of the number of draft animals employed. By an order just issued these have been reduced from 4,300 to 3,100, and taking account of the corresponding reduction to be made in the number of teamsters, hostlers and other employes, it a saving of about \$200,000 per annum will be effected.

Rifle with Enormous Velocity.

WASHINGTON, Oct. 9,-The naval ordnance officers hav ejust completed at the navy yard here an eight-inch steel rifle of the Hurst type, which will be tested at Indian Head in a short time. Owing to a psculiar construction of the breach and the shell and cartridge extraordinary claims are put forward for it. The base of the projectile, properly recessed, fits snugly. The purpose is to first ignite the inner power charge and then the outer, thus starting the shot gradually and then accelerating progress. It is asserted that the result will be an enormous velocity for the pro-It is asserted that the result jectile, which may also safely be charged with a high explosive, owing to the absence of shock in starting.

Named General Hawkins' Successor. WASHINGTON, Oct. 9.- The president has appointed Colonel Michael Morgan to be commissary general of subsistence, in place of General Hawkins, retired. Following the advancement of Colonel Morgan is the pro-motion of Lieutenant Colonel J. W. Bar-ringer to be colonel, Major H. J. Gilman to be lieutenant colonel and Captain J. J. Tague to be major in the subsistence department. The vacancy in the list of captains has not

Choosing a Line for a Canal. WASHINGTON, Oct. 9.-That project which has excited so much interest at the great ports on South Atlantic coast to unite Chesa-peake bay with the Delaware by a canal, and thus supply the most important link in an internal waterway route from Florida to Long Island sound, today received an imperus by the appointment of an expert

PHYSICIAN

Dr. G. W. Corman and W. T. Harris Exchange Shots at Short Range.

CULMINATION OF A DOMESTIC FEUD

Alleged Undue Familiarity with Another Man's Wife Said to Have Been the Cause of the Whole

Affair.

GENEVA, Neb., Oct. 9 .- (Special Telegram.)-This community is in turmoil tonight over a sensational shooting affray which occurred shortly after noon. It was the sad culmination of a domestic feud which has been in progress some months. A local physician, G. W. Corman, made a mortal enemy of W. T. Harris, a stenographer, by undue familiarity with his wife. Matters came to an open rupture two weeks ago, when Corman was advised to leave town within ten days. This he was not inclined to do, and today Harris, accompanied by his wife, called at the doctor's office, with what intent is not known. The physician was alone. The Bee's correspondent could not get reliable information as to the exact character of the conference. It was very brief, and shooting began, both men using revolvers. Corman was shot in the back. He is at his residence, suffering much pain, but it is thought the wound will not prove fatal. Both parties are well known and have many

SAVED THE OFFICERS TROUBLE.

Cameron Surrenders to Lincoln Authorities After a Long Chase.

LINCOLN, Oct. 9 .- (Special.) -- Irvine Cameron, a young man who has been wanted for a long time for statutory criminal assault. walked into the county attorney's office this morning and gave himself up. If he had only done this twelve months ago the state of Nebraska would have been saved much expense and Sheriff Miller much anxiety of mind. He is the young man who caused Sheriff Miller to go on an expensive trip to California, only to find that he had flown to parts unknown. At one time he was said to be a student of the State university, and it was while his time was thus employed that he effected the ruin of the young

Certificates of nomination of Austin H. Weir, populist candidate for congress in the First district, was filed this morning, as was also that of John M. Devine, populist of the Third district. The resignation of J. C. Thomas, democratic candidate for congress in the Third district, was accepted and the name of William H. Hensley was substituted in his place by the co-Judge Welty of the Fourteenth judicial district has revoked the appointment of J.

D. Gibbs as court reporter and substituted the name of John Stephens. The state grand lodge, Knights of Pythias, met in annual session in representative hall this morning and will be in session for three days. Delega es are here to the number of 600 from all over the state. The Lincoln Commercial club held a special

meeting last night and instructed com-mittees to work on the different railways entering the city with a view of gaining concessions from them in the way of cheap rates to this point. If this can be effected the shopping excursions, about which there has been so much discussion of late, will become a very important factor in fall trade

The fifth anniversary celebration of the Nebraska Conservatory of Music, takes place this evening.

William H. Thompson of Grand Island addressed the students of the State university

law school last evening.

Archie Ross, who was arrested in Omaha a short time ago on the charge of forgery to the extent of \$250, was up before the board of insanity commissioners today, but his mental condition did not warrant his being sent to the asylum.

Business Improving at North Platte. NORTH PLATTE, Oct. 9 .- (Special.)-Lincoln county is moving in irrigation work this fall. Fully one hundred miles of main ditch lines are now under construction. Today arrangements were perfected whereby the irrigation ditch of John Bratt & Co., which taps the North Platte three miles mouth of the Birdwood, will be completed this year. This will bring all the land on the north side of the Platte under irrigation, leaving very little valley land within the county which may not be irrigated next year from ditches completed or under construction. The Farmers' and Merchants' company have compromised their legal difficulties, since Judge Holcomb dissolved the injunction brought against the company by the Paxton & Hershey company, and work on the company's main ditch will be completed at an early date. North Platte will be greatly benefited by the irrigation work of the present year, and the drouth of 1894 will be remembered as not altogether an unmixed evil. Property values show an upward tendency. Vacant store rooms are filling up and merchants are preparing for a new order of things during 1895.

Ord Personals.

ORD, Neb., Oct. 9.—(Special.)—Mrs. J. G. Sharpe returned from her eastern trip Friday.

Rev. W. B. Leonard, of the Presbyteria church, returned Friday from an extended acation spent in Washington and Alaska He occupied his pulpit morning and evening

Sunday.

Rev. C. C. Wilson, of the Methodist Epis copal church, left this morning for Shelton which charge he was assigned at the cor ference. The three years of his pastorate here have been prosperous ones for the church. His engergy and administrative ability have added largely to its membership and financial prosperity.

Nebraska City Hoy Crippled. NEBRASKA CITY, Oct. 9 .- (Special Telegram.)-While attempting to jump on a moving freight train today a 10-year-old son of Jesse Ervin missed his footing and fell un-der the cars, the wheels of which passed over his right foot, completely severing it.

Craig Creamery. CRAIG, Neb., Oct. 9 .- (Special.) - The Craig creamery is nearly completed, and operations will begin as soon as the milk routes can be laid out. The prices of cows have gone up and cows are in far better demand.

John King of David City Hurt. DAVID CITY, Neb., Oct. 9. - (Special.)-John N. King, while walking on the track of the Eikhorn railroad, was struck by the

engine of a freight train and seriously, if not fatally, injured. His right arm was shat-tered from the wrist to the elbow and his left leg crushed, besides internal injuries. King has been quite deaf for some time and within the past mostly has lost his hearing entirely, and did not notice the warning whistles of the engine. Mr. King was a member of the Masonic fraternity and Grand Army of the Republic, having been a corporal in the First Pennsylvania "Buck Tail" rifles.

INDIAN GIBLS ASSAULTED.

Joint Reepers Near Decatur Arouse Considerable Indignistion by Their Acts. DECATUR, Neb., #Oet. 9.—(Special.)—A most dastardly act is alleged to have been committed at Snyder's Point, five miles west of here, the latter part of last week. An Indian, with his wife and two daughters, went to Snyder's to sell a load of corn. Snyder bought the corn, and so the story goes, he and another white man got the Indian drunk and forcibly put the women in the back room. In defending his daughters, whose ages are about 15 and 17, he was severely beaten by the men and thrown out of the house and the doors locked upon him. It is alleged that they have assaulted the girls, first compelling them to drink, presuming that when intoxicated, they would suming that when intoxicated, they would become easy victims. Snyder has been running a hole in the wall for the past year and is not at all backward about selling whisky to the Indians.

SUTTON POSTOFFICE ROBBED.

Fifty Dollars in Cash and Nine Hundred in Stamps Taken by Safe Crackers. SUTTON, Neb., Sept. 9 .- (Special Tele-

gram).-Sutton postoffice was robbed last night and about \$50 in money and \$900 in stamps, besides money orders and records, were taken. The safe was drilled into and

STRIKE OF CLOAK MAKERS. Ten Thousand Persons Already Out and

More Will Be Forced to Follow. NEW YORK, Oct. 9 .- A general strike of cloak makers of this city, numbering nearly 10,000 men and women was inaugurated to day. About 7,000 finishers and operatives will be forced out of work within a day or two by the strike. They will only work long enough to finish up the work that the cloal makers left in the shops. The strike committees have agreed that no settlement shall be made by the manushall be made by the manu-facturers until the latter have signed bonds giving real estate security for their good faith. It was further agreed that no union man shall commence work until all the manufacturers had come to time.

There was considerable opposition to this movement, its principal antagonist being Je seph Barondess, who holds that under this rule one obstinate manufacturer can keep 10,000 men out of work forever. The socialistic element, however, wanted a general strike, and they held a majority.

MRS. NAGLE'S GUARDIAN.

Judge Lacey Defends His Appointee from Mrs. Hibbard's Attacks.

DENVER, Oct. 9.-A special to the News from Cheyenne says: Judge Lacey, attorney for W. A. Robins, the guardian of Mrs. Nagle, the wealthy widow who some time ago was declared mentally incapable of attending to her own affairs, denies the allegations in Mrs. Hibbard's petition asking his removal. Judge Lacey says Mr. Robins' management of the estate has been in the interest of the estate and there has been no mismanagement or misappropriation of the funds or property. The trial of the case promises some sensa tional developments, as Mrs. Hibbard's attorney, W. R. Stoll, declares that every allegation is a matter of record and that the appointment of Robins as guardian was upon the application of Daniel S. Swan, an entire stranger to Mrs. Nagle, and was done at the request of Judge Lacey, Robins' attorney. Mrs. Hibbard, who brings the suit, is a sister of Mrs. Nagle.

New Plan to Educate the Public in His Way of Thinking.

ANARCHISTS AS AMATEUR ACTORS

Striking Success of a Five-Act Realistic Drama Written by Gerhart Hauptman and Presented by Disciples of the Doctrine it Propounded.

NEW YORK, Oct. 9 .- Die Weber (the weavers), a historical realistic play in five acts by Gerhart Hauptman, the apostle of dramatic realism, was performed at the Thalia theater last night by Herr Most and fifty anarchists who had never acted before. The house was filled, packed, crowded, jammed; the audience fairly stuck out at the doors and windows-and the applause was tremendous.

The object of this performance was to raise money for the literary fund of the anarchist society of New York-to help Herr Most's paper. Die Frieheit. The performers had carefully rehearsed their parts, and with true anarchistic fervor had mastered the woes of the characters in the play until they almost looked upon them as their own. The acting was remarkably good, but nothing else could have been expected, for they were merely reciting upon the stage the griev-ances that they have for years been shouting in meeting halls, and when they demolished the residence of their employer they prob-ably did it with a secret satisfaction that was not set down in the book. The play opened in the delivery room of

Herr Dreissiger, the merchant, whose clerks were paying the weavers the pittance that they had earned. Herr Most was one of the weavers, and when he appeared on the stage there was a loud roar of applause. His make-up was excellent. In his tattered garments and frowsy gray wig, the gray hairs of which mingled with the shaggy ends of his own true whiskers, he came slouching stage with a strange blending of Weary Raggles and Diogenes.

Throughout the first act the weavers told the merchant's clerks of all the suffering they had endured in the week just passed. In the second act Herr Most and two other actors went through the whole catalogue of human woes, from leaky roofs, through which the rain pours, and heartless landlords, to starvation and diseases that come from poverty. In the third act the whole crowd as-sembled in a tavern and piled up a list of grievances against their employer that was positively frightful. In the fourth act they went to his house and smashed everything they could lay their hands on, particularly the mirrors, the demolition of which seemed to give them a flendish delight. In the fifth and last act they went to another neighbor-ing town, fought with the soldiers, killed a weaver by accident and demolished anothmanufacturer's home. Then the curtain fell and the agony was over.

Broke His Wife's Head with a Chair.

MARBLE ROCK, Ia., Oct. 9.-George

Reams today murdered his wife by breaking

her head with a chair and then cutting her

throat. He then cut his own throat and will

die. Domestic trouble was the cause. When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria.

When she became Miss, she clung to Castoria,

When she had Children, she gave them Castoria

HERR MOST ON THE STAGE MME. M.

THE HAIR CONQUERED

MME, M. YALE'S Excelsion Hair Tonic, ITS MIGHTY RULER.

For the first time in the history of the world Gray Hair is turned back to its natural and original color without dye. Aims. Yale's Excelsion Hair Tenie has the marvelous power of giving the natural coloring matter circulation, consequently, of restoring the gray hairs to their own original color. The complete mastery of this marvelous compound over the human hair has created a genuine sensation all over the world, and its discovery has been haifed with endless joy. There wil be no more gray hair to worry over now, and no longer necessary to use injurious artificial hair dyes. Mme. Yale's skill as a chemist has nover been equalled by man or woman. She stands alone a queen and conqueror. The whole world bows down to her as a pioneer and scientist. Excelsion Hair Tonic will stop any case of hair from falling in 24 hours. It is a guaranteed cure for any aliment of the hair or disease of the scalp, it is absolutely pure and free from anything injurious. It can be taken internally with perfect safety. It contains nothing greasy or sticky; has a delightful delicate odor, and makes the most perfect hair dressing known for general use. It wil aid in keeping the hair in curl, it creates a luxurient, glossy growth and preserves its natural color until the end of your days. After gray hair has been restored to its natural color with this tonic it is not necessary to continue its use except at intervals as a tonic, as the hair grows out from the scalp its own color the same as before it turned gray.

FOR BALD HEADS It is the only remedy on the hair grow on bald heads. Be sure that you get the genuine. Beware of counterfelts and initiations. Make sure that every bottle has Mrns. Yale's photo on and habled Mrns. M. Yale's Excelsior Hair Tenic. Guarantsed to resure gray hair to its original color without dys. Price 11.00 per bottle, six for \$5.90.

Aloe & Penfold Co:-I am very much pleased to commend W. L. Seymour's ability as an optician, having been satisfactorily fitted with glasses for astignatism and derived great benefit therefrom in my professional work. I would recommend all of the artistic profession to do likewise. Very truly, J. LAURIE WALLACE, Omaha Academy of Fine Arts.

HEADACHE CAUSED BY EYE STRAIN. DON'T TRIFILE WITH YOUR EYES.

Many persons whose beats are constantly school.

Many persons whose heads are constantly aching have no idea what relief scientifically fitted glasses will give them. This theory is now universally established. "Improperly fitted glasses will invariably increase the trouble and may lead to TOTAL BLINDNESS." Our ability is adjust glasses safely and correctly is beyond question. Consuit us. Eyes tested free of charge. THE ALOE & PENFOLD CO., Opposite Payton Hotel. LOOK FOR THE GOLD LION.

Or the Liquor Habit Positively Carred by administering Br. Haines Golden Specific.

It can be given in a oup of coffee or tea, or in feed, without the anowledge of the patient. It is standard harmless, and will effect a permanent and oure, whether the patient is a moderate dringer or an alcoholic wreck. It has been given in thousands of cases, and in every instance a perfect ours has followed. It Never Falls. The system once impreparated with the fispecific, it becomes an utter impossibility or the innor appetite to exist.
