communications relating to news and edi-matter should be addressed: To the Editor BUSINESS LETTERS.

All business letters and remittances should be ddressed to The Ree Publishing company, maha. Drafts, checks and postoffice orders to be made inyable to the order of the company. THE BEE PUBLISHING COMPANY.

STATEMENT OF CIRCULATION George R. Tschuck, secretary of The Bee Publishing company, being duly sworn, says that the actual number of full and complete copies of The Bully Morning, Evening and Sunday Bee printed during the mouth of September, 1854, was as follows:

6.080 Daily average net circulation.....

Sworn to before me and subscribed in my resence this lat of October, 1894. (Seal.) N. P. FEIL. Notary Public.

If China is really ready to sue for peace now, she is the most easily the world has ever witnessed.

has the campaign which it is endeavoring to make for Tattooed Tom.

as a man of bonor and integrity.

It seems as if no one but a millionaire

can aspire to be mayor of New York. of the principal party nominees. "Business still waiting" has become

the monotonous proclamation of the weekly trade reviews, and the remainder of the report is given up to wild guessing at what it is for which business is waiting. The B. & M. Business Men's cam-

paign battle cry is: "Wreck and Ruin!" It should be: "Rule or Ruin!" That has been the policy of the railroad czar since he assumed sway over the political destinles of this state.

Art exhibitors are an essential facfor in art culture. The effort of the Western Art association to develop and extend the taste for art in Omaha ought to receive the encouragement and cooperation of the entire community.

where the republicans have to make their campaign on the defensive this Futting Tattooed Tom at the head of the ticket lost the republicans of this state their golden opportunity.

year, so as to keep pace with the general smashing of athletic records.

There is a touch of the pathetic in the married before his life blood ebbs away. The doubt as to the continuance of his direct issue at the head of the Russian empire must be a source of uneasiness not the least among his many troubles.

The rank and file of the workingmen of Omaha believe in protection to home industry, but they do not believe in the industry by which the penitentiary gang, in combination with the railroad highwaymen, has looted the state treasury and ruled the people. The workingmen cannot be duped into voting for Tom Majors because they believe in the principles advocated by McKinley.

Brooklyn women are making war on the demoralizing pictures used as posters for theatrical companies, and Chicago women are making war on the living pictures which the theatrical companies present to their audiences. Manproscribed limits will prepare extra accommodations for the crowds which this

audiences are the rule at democratic than half its present cost. "It may his constituents on his return from Indians would gladly have this element, meetings, especially at manufacturing be applied to the running of the ocean Eugland, told them that he had given which is notoriously bad, expelled from

their homes and their firesides, in their use for heat, light and power. business and in their labor, and in the wages they receive, must rest upon the bservance of the law and the support of the law. It sometimes happens, and perhaps too frequently, that in varions ways and by various devices the laws are violated. When they are it is the duty of the citizen and the state to see that they are enforced, as it is the duty of the general government to see that the national laws are enforced. Upon this respect and veneration for the laws rests one of our great sources

of security," There is a peculiar timeliness in bringing this point forward just at present for the reason that the past year has witnessed so many events that have this source of national strength. The voucher? recent agitation against lynch law, for one, has certainly led a great many Seely. a few in this country, to believe that amount of cuttlefishing can befog the the laws guaranteeing accused persons people. the benefits of an impartial judicial process are habitually violated as against a The banner of the Railroad Business has obtained is the fact that its object Men's association has holes in it. So is to restore our reverence for law.

Look once at the long series of labor the millions is the leading card of each the authorities to enforce with the millicepted decisions will our courts have to tion of authority?

The argument might be illustrated almost indefinitely. What reverence is to be the result of barter and trade? How can a legislative body enact measures that will command the respect of the people when the members of the body do not themselves command resource of great national strength, so disrespect for law is a source of national weakness. The task of the people is to build up the former and stamp out the latter. Liberty can be preserved Nebraska seems to be the only state only through law and law can be made effective only through its observance.

CREAP FLECTRICITY. The general use of electric heat, light and power is believed by those who have given the subject intelligent study The Yale foot ball team was scored to be a possibility of the not remote against on the home grounds last week future. It is to this end that elecfor the first time in five years. The tricians are now directing their investiprospects are good for kicking the gations and experiments and a new mabottom out of the foot ball record this chine of one of the foremost of these investigators, Mr. Tesla, gives promise of great results. This machine, called the "oscillator," has done much to create new interest in the subject of power wish of the dying czar to see his son production and to direct attention to the comparative crudity of existing appliances for that purpose. The oscillator unites with the simplest and cheapest form of construction the capacity to use the highest steam pressures and convert the energy which they possess directly into electricity, and the inventor claims for it that it will reduce by more than one-half the cost of making electric light. Assuming that the price of this of the year just past. If there is need by the cost of making it, what a boon reasons other than those emphasized in the success of this machine will be to the general public. It is stated that the consumption of gas to that of electricity is still as ten to one, in spite of

would meet the existing emergency. Whether the army should be enlarged as the population and resources of the country increase and what is the exact number of soldiers needed by the country today are questions of expediency which those who have special knowledge of the subject ought to decide. There seems, however, to be a fallacy in the argument by which General Schofield supports his conclusion in the assumption which he makes that domestic violence is to be as frequent in the future as in the immediate past. He infers apparently that congress intends to enact no remedial legislation and that the old system of suppression by military force is to become the prevailing form of government. With this peaceful citizens will be tempted to take issue. The country will not tolerate the regular enforcement of federal laws at the point of the bayonet. The people expect their representatives in congress to devise some way of reaching the causes of the recent labor troubles without waiting for them to manifest themselves in lawless violence. Aside from this, the army seems to have been of sufficient size to cope with all rioters commodity to the consumer is governed to increase the army it must be for the commanding general's report.

THE PRICE OF WHEAT. CURTAILING THE FOSTAL SERVICE.

things under this democratic administration. It has been announced by the postmaster general that the free delivery system will have to be still further curtailed, because of insufficient appropriations. Over fifty cities and towns entitled to this service have been cut off, and it is understood the number will have to be increased. Besides. places which had expected to get free delivery will be disappointed. Of course the communities that have had the system and are now deprived of it will be seriously inconvenienced, but that is not a matter of any importance to the party in power. The appropriation by the present congress for the postoffice department is a little more than that of the preceding congress, but is \$3,000. 000 below the department estimate, which is shown to have been conservative. It is an example of economy for political effect, and as usual in all such cases the people are made to suffer.

CIVILIZING THE INDIAN.

The reports submitted by the agents who took the census of the Indian Territory are said to show conclusively that the tribal relation does not promote the progress of the Indian toward civilization. On the contrary, it appears that Indian civilization has reached its high-water mark among the so-called five civilized tribes and that no further advancement is to be expected by the continued policy of isolation and semiindependence of government. Instead of growing better it seems from the reports of these agents that things are becoming worse in the territory, indicating that the Indians have gone as far as they can by themselves and that without closer association with white civilization they must retrograde. Under present conditions in the Indian Territory the Indians associate with the worst instead of even the average white elements, and are, therefore, constantly under evil influence. How damaging special agents fully set forth.

The population of the Indian Territory is not, as commonly supposed, most largely made up of Indians. The census enumeration gives the population dians number only 50,000. There are, in round numbers, 109,000 whites and 18,scent. Nearly three-fourths of the people in the territory are there in suffercongress will have to deal applies to only a little more than one-fourth of as make it impossible that a fair degree

May the hardest burrs fail upon the head of the perennial humorist and crack it in twain.

> Artic Explorers Undismayed. Philadelphia Ledger

Philadelphia Ledger.

The ill success of most of the exploring parties this year does not seem to have disheartened either the leaders or their companions. Mr. Wellman has already announced his intention of trying the Spitzbergen route to the north pole again next year. The members of Lieutenant Peary's party, who returned home recently, are taiking of attacking the same point next summer by the same highway, and Dr. Cook means to try Greenland once more next summer. Even Prof. Hite is not satisfied with the laurels he won in Labrador and has expressed his intention of starting on a longer and greater journey for research this winter.

Labeling Adulterated Foods.

It will be instructive to observe the operations of the new Ohio law, making it It will be instructive to observe the operations of the new Ohio law, making it compulsory for the makers and sellers of adulterated food products to label their goods as such before exposing them for sale. A somewhat similar statute passed in this state has done some good, but it has most assuredly not come up to the expectations of its framers. The causes which led to its partial failure were, apparently, the laxity of the system of inspection provided and the cupidity of dealers. Human nature is not different in Ohio. The burglar does not ring the burglar alarm when he is about to crack a crib, nor does the thief begin his operations by notifying the police of the place he is about to visit. Neither will the people who seil bogus goods stamp them as such if they cas avoid steamship and lighten her of half the particular attention to the wheat mar-

Somerville Journal: Mrs. Wigglestein-Do you know, Jack, I think I should like to learn to play poker. It must be a fascinating game.

Mr. Wigglestein-Great heavens, Ethel,
don't think of it for a moment. We can't
both afford to play.

date for mayor of New York, when invited to sign certain pledges, sententiously remarked to the committee, "I'll see you in h— first." Later accounts announce the projected meeting has been indefinitely postponed.

Indianapolis Journal: "Yes," she mused, "I am almost sure he loves me. At least, it looks to me that when a young man squeezes a girl's hand so hard that she can't run her typewriter next morning he must mean business."

Washington Star: "It's too bad he isn't alive now," said Li Hung Chang, with a savage growl. "I'd like to get my hands on him for an hour. I'd teach him to write proverbs,"

"To whom do you refer?" inquired his myydra secretary. private secretary. "That asinine ignoramus who originated this idea about the cicthes not making the

IN RE THE BLOOMERS.

Now, where on earth does the harm arise, And why should the style be deemed unfit, If a woman rides out for exercise In a costume that gives her room for it? As the straight-laced Christian must con-fess,

OCTOBER.

Somerville Journal. Somerville Journal.

The chilly days of autumn now
Are here; the wandering breeze
Sends shivers down your back, and blows
The leaves from off the trees.

Your light topcoat is much too thin
To keep you saug and warm,
And in your winter overcoat
You wrap your manly form.

The iceman calls but once a week
To leave a hundred pounds,
Quite confident that it will last
Till next he makes his rounds.
The plumber soon will take his place,
Your pocketbook to tire,
And, worst of all, the time has come
To build the furnace fire.

The furnace fire! That means six months Of worry, care and grief,
From which you've had all summer long
A restful, glad relief,
Anxiety, and dust, and ashes now
For months will sear your soul,
For you must keep that fire alive
And pay the bill for coal.

YOUR MONEY'S WORTH OR YOUR MONEY BACK.

Dollar a Hat.

That's the plainest statement we eyer made. We might add, however, that you can have either a soft hat or a stiff hat for a dollar. They say

we're crazy to sell them at a dollar-but that's our business-it's your business to own a hat like this for a dollar every chance you get -this is an exception that won't be legular at a dollar. You may say what you please about it, but you can't say but you are getting the greatest bargain in a hat for a dollar that you ever struck.
