

THEIR NEW PASTOR

Trinity Methodist People Listen to Dr. Sanderson's Inaugural Sermon.

TO VICTORY UNDER CHRIST'S BANNER

Rev. C. W. Savage Finds a Model Mayor in Nehemiah of Jerusalem—Had the Proper Official Spirit—Nervous at First Christian Church.

There was a large congregation at Trinity Methodist church yesterday morning to hear the new pastor, Rev. F. H. Sanderson, D.D., who preached his first sermon to his Omaha congregation.

people will back you and God will honor you as He did Nehemiah.

No wonder a great revival of religion followed. The people confessed and turned from their sins and the mayor of Jerusalem made them take a solemn vow to stick to it.

Crane on Temperance Reform. As a prelude to his sermon last evening Rev. Frank Crane at the First Methodist church discussed "The Present Situation of the Temperance Reform."

He viewed what has been done in the last generation in the way of lessening the drink evil, referring to the prohibition laws of several states, the national prohibition party, the local option system, the south dispensary experiment in South Carolina, the malt law of Iowa, the Norwegian and German laws, and the license laws.

Public sentiment against the public drinking place has been increasing. He talked at some length on the recent hostility to the saloon shown by the Catholic church in America, as shown by the utterances of Mr. Stotoli and Bishop Waterston.

He concluded by saying: "It seems to me that the duty of every patriot is to work for the prohibition of the open saloon, and to use for this end that means which he thinks to be the most effective. The strength of the liquor traffic is in the cities. Its strength is there because there the execution of law is the most certain."

PROPOSED AMENDMENTS TO THE CHARTER

Plan to Put a Check on Impulsive Legislation by Reducing the Size or Changing the Make-Up of the City's Law-Making Body.

The question of a radical change in the make-up of the city council which was suggested by the charter committee, was discussed by Mr. John D. Howe the other day.

It is claimed that much of the unfair legislation of the Omaha city council has grown out of the fact that politics and personal advancement have been the most powerful motives that have controlled the official action of a majority of the members of the council.

government, and that the public interests would be more adequately protected.

MAYOR HENRI'S IDEA. Mayor Dennis remarked that at first thought it seemed that a more satisfactory system might be suggested by the ideas advanced. He believed that the plan of having two houses was a good one as it would afford an additional check, and make it difficult for the council to pass any measure through the council, as they were sometimes able to do when they had only a single body to deal with.
