

THE OMAHA DAILY BEE.

Published every morning. Terms of subscription: Daily Bee (without Sunday), One Year, \$2.00...

THE MOST IMPORTANT THING.

In a speech delivered in Ohio a few days ago Senator Sherman said that the most important feature of the political campaign is the election of members of the house of representatives of the United States.

1801 silver went down more than 6 per cent, but corn averaged 70.4 cents, advancing 45 per cent. In 1892 the price of corn was 54 cents, or still above the figures for 1890, when silver was strong and over 20 per cent higher than in 1892.

They must not be permitted to remove from Omaha for any inability to tide over the interval. The refusal to grant the mandamus demanded by the Louisiana sugar makers to compel the secretary of the treasury to appoint inspectors to keep track of the product with a view to ascertaining the bounty claim disproves some of the allegations that were urged against the appointment of Judge McComas to the bench of the District of Columbia.

PEOPLE AND THINGS.

There is a marked revival of business in the train robbing line. There are several buckles loose in political circles nowadays. Poor old Breakridge! Pretty soon Sarah Goss will read him out of the party.

MAJORS AND THE CENSUS FRAUD.

COUNTY TREASURER'S OFFICE, CLAY CENTER, Neb., Oct. 15.—To the Editor of The Bee: In your Fremont speech you quoted from Congressional Record, volume 14, part IV, pages 3,247 to 3,252. Parties here have claimed that the language you quote is not in said record. Will you kindly get us this record, that we may have the proof.

CHARTER REVISION.

OMAHA, Oct. 15.—To the Editor of The Bee: The Nebraska legislature would ordinarily pass such charter amendments as seemed reasonable to the growth of the city, and the welfare of its inhabitants, when agreed upon in the main by said inhabitants.

THE SIXTH DISTRICT.

The Sixth congressional district has practically been without a representative in congress for the last four years. Mr. Ken has been a cipher in all matters in which his constituency was most vitally concerned.

UNAPPROACHABLE ORATORS.

ES-PRÉSIDENT Harrison is by all odds the most forceful and happy public speaker in the United States at the present time. Governor McKinley is an excellent second. The democratic party contains no orator who is the equal of either of these men.

SHATTERS THE WILDEST DREAMS.

Could anybody have been wild enough to dream a year ago that in October of the year of grace, 1894, Japan would be making a foot ball of China and the platters of Louisiana, it is hard to say how down there and preach the republican gospel to them.

STATEMENT OF CIRCULATION.

Table with 3 columns: Date, Circulation, and Total. Rows include Daily Bee (without Sunday), Daily Bee and Sunday, One Year, etc.

BUSINESS LETTERS.

All business letters and replies should be addressed to The Publishing Company, Omaha, Nebraska. These are postpaid orders to be made payable to the order of the company.

DISCREDITED RAILWAY SECURITIES.

American railway securities, but a few years ago the favorite field for investment for German capitalists, will with difficulty recover from the shock they have received from the exposure of railroad mismanagement made in the recent report of Dr. von Leyen.

OUT OF THE ORDINARY.

The United States uses nearly half the quinine produced in the world. In Japan the farmer who has more than ten acres of ground is considered a monopolist.

FOR THE BEST.

Atlanta Constitution. Keep on hopin' for the best; When the sun goes down the west, All the sunbirds they can make, Purty soon you'll see him rise!

THE COURTS AND WAGES.

Chicago Herald: Judge Woolson, in the United States court at Omaha, (Council Bluffs), has issued an order forbidding the receiver of the Omaha & St. Louis railway to cut wages.

STURBORN FACTS.

Who hired Seth T. Cole to conduct Senator Taylor out of the state while the Newberry bill was pending? Officials of the Burlington railway? Who paid Seth T. Cole for staying with Taylor to see that he fulfilled his contract with the oil room bookkeepers?

GEORGE B. TSHUCK.

From a letter to me and subscribed in my presence this 1st of October, N. P. FEIL, Notary Public.

THE SPICE OF LIFE.

Detroit Tribune: Sailor (defiantly)—I'll tell you more than you can hold my. I'll tell you Cannibal (significantly)—Oh, I shall invite a few friends.

HE COULDN'T TELL.

Somerville Journal: A fall opening at the milliner's is generally followed by a winter opening of many husbands' pocketbooks.

THE ARBITRATOR.

Nixon Waterston in Chicago Journal. Two ladies reach a street car that has just left the vacant seat. Each glances at it slyly.

YOUR MONEY'S WORTH OR YOUR MONEY BACK.

That's the plainest statement ever made. We might add, however, that you can have either a soft hat or a stiff hat for a dollar. They say we're crazy to sell them at a dollar—but that's our business—it's your business to own a hat like this for a dollar every chance you get—this is an exception that won't be regular at a dollar.

THE DEMOCRATIC PRIMARIES RESULTED.

In the selection, for the most part, of an excellent list of councilman candidates—to be slaughtered. McKinley's warm reception everywhere during his own speech-making tour only increased the enthusiasm that greeted him on his return to Ohio.

CORN AND SILVER.

By way of showing the fallacy of the claim persistently urged by the advocates of the free coinage of silver, that the prices of commodities have been unfavorably affected by the so-called demonetization of silver, nothing more conclusive can be cited than the course of the price of corn, the first of all our agricultural products in importance.

THE PHILADELPHIA PRESS HAS IT.

The Philadelphia Press has it that the administration is trying to make those southern and western democrats who favor the free and unlimited coinage of silver at the old ratio of 16 to 1 believe that it is with them on that issue. In this the Press is certainly mistaken—at least so far as Nebraska free silver democrats are concerned.
