A. P. A. METHODS ROUNDLY DENOUNCED

To the Surprise of a Large Portion of Those Present the Iowa Leader of the Democratic Party Completely Ignored Silver.

Horace Boles and Horatio F. Dale of Des Moines, the candidate on the democratic ticket for the office of secretary of state arrived in the city last evening and were met at the depot by a number of prominent democrats and excerted to the Grand hotel, where they held an imprompts reception previous to repairing to the opera house, where the speaking was to be. When the hour for opening the meeting arrived there was not the crush that had been anticipated from like occasions in the past. The great throng that used to pack the aisles was notably absent, and there were vacant

Mr. Dale was first introduced, and made a speech, in which he touched the same chord that he has found so responsive in his former speeches, that of opposition to the American Protective association. He vigorously denounced this organization, and in doing so brought out a hearty burst of applause. What good impression he made on this score, however, he almost neutralized to other parts of his speech, notably so in his discussion of the silver question. As is well known, the democratic state platform is in rank conflict with the national form is in rank conflict with the national platform on the silver question, the former declaring in favor of free and unlimited coinage on a basis of 16 to 1, without the consent of any nation on earth, while the latter favors the free coinage of gold and silver on a basis of parity. By sticking to the national platform Mr. Dale put himself at issue with the democrats of the state, and particularly with those of this course. and particularly with those of this congres-sional district, and probably did himself but little good, so far as the making of votes was concerned.

BOIES IGNORED SILVER. When ex-Governor Boiss was introduced he was greeted with a volley of cheers and hurrans that threatened to blow off the opera house roof. When quiet had been floally restored the silver-headed veteran of democracy began a speech which was notably different from those with which in former car paigns he has aroused the enthusiasm of his followers. He found himself confronted with the degressing task of applepring for the Wilson tariff bill. He devoted a good portion of his speech to three sections of the tariff question.

"A tax on lumber," said he, "benefits a few men who own pineries in Minnesota. Such a tax was imposed on lumber by a republican congress in 1890, and had the effect of increasing the price \$2 or \$2.50 per thou-sand on all lumber consumed in the country. This amount had to be paid by the rank and file of the citizens of the country, by the poor men and men of moderate means, and

it was wip d out by the present congress.

was used.

The Wilson law reduced the tax on wooler goods from 98 to 48 per cent, and thereby reduced the cost of those commodities to the corsumer. He devoted some little attention to the income tax feature of the Wilson bill. Some interest was felt as to how he would deal with the silver question, but Iowa's "grand old man" fooled all the boys and didn't say a word, and thereby saved the followers of the demo-pop banner considerable We are sole city agents for several of the

### VICTORIOUS COPPS CHEER

The King of All Temperance Drinks Knocks Out All Rivals. The extraordinary demand created for

Copps Cheer in all temperance communities where intoxicating beverages cannot be sold has led envious alleged rivals to attack it and misrepresent it. Among conservative and cautious dealers who do not wish to even approach the line of violation of law, and families who don't want an intoxicating beverage in their lockers, these misrepresentations have led to the most crucial tests for alcohol known, and the heaveness with nicohol known, and the beverage, while sparkling, invigorating and health-building, has been found to be as harmless as the mildest soda water. Thus the alleged "friendly warnings" coming from little fel-lows who think themselves rivals prove to be clfish misrepresentations made for the purpose of enabling them to force the sale of nauseous and unwholesome compounds. Wheeler & Hereld, Council Bluffs, Ia., are the originators and sole brewers of Copps Cheer, and give an indemnifying bond every dealer, while the heverage speaks for itself. But if more proof is desired the en-dorsements of ministers, judges, chemists and physicians can be referred to as they have appeared in The Bee daily for weeks, and hundreds of others in our office.

Council Bluffs was not included in this report, but the article adds: "Council Bluffs. with a population of 35,000, the average is \$7 per year." When asked if it was not a fact that \$7 was the very lowest charged to any one, and an additional \$5 to all who used a sprinkler outside, they failed to answer, evidently not desiring to publish facts as to the prices de-

manded for water by the water works company of this city.

There is no doubt but that the average cost for families is much nearer \$12 than \$7, and, besides, the city pays for public use of water more than \$30,000 yearly.

We admit if the actual figures with regard to the cost of water in Council Bluffs were

published they would look bad in comparison with the ten cities included in the Dubuque

Pacific Express Will No Longer Handle Money in Indian Territory. ST. LOUIS, Oct. 18.—Agents of the Pacific Express company in the Indian Territory have been instructed by L. A. Fuller, the general superintendent, not to receive money to forward and to discontinue the sult of the frequent depredations made by

sale of money orders. This action is the result of the frequent depredations made by bandits without interference on the part of the authorities in the Indian Territory, the United States government and the local government of the Indian nation. The result is that, although only a short time has elapsed since the closing of the offices, the wheels of commerce have already been clogged by the absence of money, and complaints are beginning to be heard. Treasurer E. E. Starr of the Cherokee nation, in a letter written in answer to one sent him by an official of the Pacific Express company in regard to the noninterference of the Indian police with the bandits, deplores the condition of affairs, and adds:

"In a country like this, where two authorities are at work in their respective jurisdictions and each trying not to trespass on the other, it is hard to tell who has, the United States or the Cherokee nation, the right to interfere. You do not know perhaps, that a Cherokee cannot put an intruder off his premises either by force or by law without being hauled up before the United States court at Muscogee on charges of violence or damage. If there is any dereliction of duty for which some one is responsible, it is not that of any cherokee official. We are helpless in any case where parties are noncitizens or the presumption is that they are."
