The following extracts from state show the drift of the sentiment already setting in toward Omaha and the Business Men's association. The extracts quoted are but a few of a large number and more are coming in every day. The Grand Island Independent has made an especially severe attack upon Omaha for the part her citi-zens are taking in the campaign:

Niobrara Pioneer: The Omaha business men, or rather the capitalists and bankers under the political influence of the rallreads and other corporations, have organized to defeat Holcomb and elect Majors. The cry is calamity. Don't be fooled. If your credit is good and you have the wherewith to secure a loan the banks will remain in business and wholesale houses will want to sell goods. Don't be fooled. This is an old scheme that can only be worked once or twice. The people—the rank and file—have no need of worry. If they ever get down at a lower condition than the past year God pity them, and He will—but don't look for pity from such earthly people as this "business combine."

who originated the movement know it. No man who respects immself will pay the least attention to it.

Lincoln News: A very good way to stand up for Nebraska is to see to it that calamity howlers are sent to the rear. Present the plain facts to the people, without assaling the state's future, and the result will not be in doubt. Nebraska is great enough in herself to live down any calamity that may happen to her, but republicans, above all, should hesitate to add anything to the weight of the threatened injury by drawing upon their imagistation for the future.

Fremont Leader: It looks to the Leader at this distance as if the alleged business men's committee of Omaha and Lincoln, which is an annex of the B. & M. road, has undertaken to injure the credit not only of Omaha and Lincoln, but of the entire state. It is, in fact, a conspiracy against the people of the state that will react against Omaha and Lincoln, for when the election is over how are these so-called business men going to explain their position? It shows the desperate means the railroads will resort to to maintain the control of the government of the state, and shows that they have neither honor, honesty nor decency. The populists have nominated a ticket of clean, honorable, capable gentlemen. Men who have more interest in the prosperity and welfare of the state than any of the alleged business men. We want to suggest too, that there are other interests in this state besides railroads, bankers, Shylocks and insurance sharks. It seems like a piece of imperithence for a few men in Omaha and Lincoln to say to the people of the state, you must elect those who have robbed and who will still continue to rob you, otherwise we will defame the state. Did men ever win by such dastardly conduct? The votets of this state have determined to clean dishonest men out of the state house and put honest men therein. Men who will administer the affairs of the state with honesty and integrity, although by so doing it may deprive some of the alleged business men of at jo

Individual investors, whose own sayings are at stake, do not fear for their money on account of Holcomb, What they do fear is, not the good faith of honest Nebraska farmers, nor prospective dishonest legislation if Holcomb is elected; it is not these things that they shrink before, but it is a belief that unless railroad control of legislation in Nebraska farmers, nor incompletely shrink before, but it is a belief that unless railroad control of legislation in Nebraska farmers will be unable to keep up his obligations, no matter how willing he may be to do so.
