Charge of Accepting a Bribe Withdrawn After a Settlement Was Made.

BEAVER CITY, Neb., Oct. 25 .- (Special Telegram.)-The prosecution of D. T. Welty, judge of this district, who was arrested ten days ago on a charge of accepting a bribe, came to an abrupt and unexpected close today at the proliminary hearing. The complaining witness, A. D. Gibbs, withdrew the complaint and the case was dismissed, much to the disappointment of a court room full of expectant people who wished to hear some sensational testimony. The matter has been amicably settled between the principals.

Edward Gabby was sentenced today to one year in the penitentiary for horse stealing the prisoner having pleaded guilty before horse stealing. Judge Welty. Gabby, who is but 17 years old, stole a pony of doubtful value from his employer in Sherman precinct and went to Kansas, where he was captured.

# Irrigation in Platte County.

COLUMBUS, Neb., Oct. 25.-(Special.)-Orlando Nelson has flied papers for water right for an irrigating ditch, to take water from the Loup and run castward through Platte and Colfax counties. It is expected work will begin in a few days. No bonds are to be asked for, as the owners of land along the line are to own the ditch, under certain con-ditions of its construction and operation. En-gineer R. W. Lawrence, who is now superintending the construction of a ditch in western Nebraska, is expected daily, to help with preliminaries. Already this latest scheme has developed considerable interest among farmers, and it seems as though we are to have a canal for sure.

The authorities in Cambridge sel- able that the remains are those of a man tom have any telegraphic communication with who lost his life while searching for the the station owing to the fact that it costs some \$3 for each word.

"I have hopes, however," he said, "that the report as published is distorted by being on the desert and they made the discovery bandled about from one country to another. I think that the station that has been sacked While out on the desert about sixteen miles scattered bones of a man, bleached white is the one on El Misti and not that at Arequipa. This station is extremely important, for it is the highest meteorological station in the world and observations made there have already been very valuable. The loss of what instruments there are there will not amount to much as far as actual money goes, for the instruments would only cost a few hun-dreds in America, but it would nevertheless be a great loss to have any of these in-struments stolen, because it is with the 1891, Straubenmiller started from Cottonwoo greatest difficulty that anything can be carried there.

"The atmosphere is so rare on the summit that nobody can pretend to live there. So three times a month somebody goes there from Arequipa and takes a record of all the never again seen. work the automatic instruments have been doing in the previous ten days. From these facts you can readily understand that the sacking of that station would be a seriou

liscovered a scheme whereby it is estimated that 500 pauper Japanese have been admitted this year. The only restriction to immigration is that each applicant for admission shall possess \$30. It now develops that when a party of pauper Japanese arrives in Vie toria they are met there by agents from this de who supply each with \$39 and a ticket into this country. Upon arriving here the Japanese are taken to the customs house examined and as each has the requisite amount the party is passed. Before starting to interior points the money is refunded to the agent, who crosses the line again to await another batch.

The discovery of the statement is second only to that made during the term of ex-Collector Wasson when a party of twenty seven Japanese applied for admission. They were lined up in a hall outside the collector office and were called in and re-examined separately. An inspector standing near hapened to see one giving money to anothe and, suspecting fraud, had the entire party taken before the collector in a bunch, result-ing in the discovery that there was but \$30 among the whole crowd. As a conseque the whole crowd except one were bundle back to Victoria, where the agents evidently concocted the scheme recently unearthed.
