Grain Markets Were Extremely Dull Yesterday but Closed Unchanged.

WHEAT OPENED JUST A TRIFLE FIRMER

Market Was Too Narrow to Make Much of One Side or the Other and Bears Were Afraid to Follow Declines Any Distance.

CHICAGO, Oct. 26.—The grain markets were extremely dull today. Firm foreign markets prevented declines in wheat, while corn and oats closed unchanged. Provisions were weak and heavy at lower of round. Wheat opened a little firmer, owing to a slight improvement in the tone of the Liverpool cablegrams. While firmer, it was by no means active. The northwestern receipts were somewhat lighter than for a few days past, but with 27 carloads at Minneapolis and 230 at Duluth they were not regarded as light, although an estimate of 45 cars fewer than were received at the two places last year on the corresponding day. The small exports from the four principal ports amounted to only about 10,000 bu. in wheat and four together. The total receipts at terminal markets were 79,000 bu. and shipments, 55,300 bu. During the season the terminal receipts were 79,000 bu. in December and May. The market was too narrow to make much of one side or the other. The lower side was not followed down more than 5c, preferring to take that much profit when it could be had, and the bulls were not anxious to take a further advance into the market. The closing cablegrams from Liverpool were 40 1/2c higher and firm. The receipts from the outside, they pressed their offerings and brought about at that time the lowest prices of the season, 40 1/2c for No. 2, and 40c for No. 3, and 39 1/2c for No. 4. It rained for the first time since the 15th, and the corn market was even duller than the wheat market. Receipts at terminal markets were 183 cars, compared with 169 estimated. At 11 a. m. of the day's receipts were of new corn, more of the old crop, and 40 cars of No. 2, and 40 cars of No. 3, and 40 cars of No. 4. The receipts were 183 cars, compared with 169 estimated. At 11 a. m. of the day's receipts were of new corn, more of the old crop, and 40 cars of No. 2, and 40 cars of No. 3, and 40 cars of No. 4.

After yesterday's extraordinary session in oats the market seemed even more insignificant and unattractive than ever. Outside orders were limited, and even local orders and speculators were not inclined to take hold. May sell from 26 to 27c, and back to 26c, where it closed.

The provision market was afflicted with another spasm of weakness. Pork had 2 1/2c, and at the close had 27 1/2c on the day's receipts. Lard left off with the decline and was 1 1/2c.

High receipts were 27,000 head and 16,000 bush estimated for tomorrow. Hogs were sold and packers killed, by some short selling to the day's receipts.

The leading futures ran as follows:

Table with columns: Article, Open, High, Low, Close. Lists prices for Wheat No. 2, No. 3, No. 4, Corn, Oats, Flour, etc.

On the Provisions section today the market was steady. Receipts, 13,222; butter, 12,210; eggs, steady at 17 1/2c.

STOCKS AND BONDS

Volume of Business Yesterday Was Lighter Than on the Previous Day.

NEW YORK, Oct. 26.—The stock market was dull today, the volume of business being lighter than yesterday. The feature of the speculation was the continued weakness of the coal stocks, which were hampered by the bears on offerings of short stock. It is claimed that the coal market was brought out by the board talk, but that the condition of the coal trade does not warrant the maintenance of current rates for coal stocks. An attempt was made to seek a lower level, Delaware and Hudson being the first to decline at once, and in the market for the day, the coal stocks were the only ones to show a recovery of 1/2 per cent. Reading opened 1/2 per cent lower, and recovered 1/2 per cent. St. Paul fell in the transactions, but moved within 1/2 per cent of its closing yesterday. The market on the day, Burlington and Quincy was held in similar limits and Rock Island with a slight decline. Northern Pacific declined 1/2 per cent and recovered 1/2 per cent. The market on the day, Burlington and Quincy was held in similar limits and Rock Island with a slight decline.
