Bryant Damage Suit Still on Trial in the District Court. DAY DEVOTED TO EXPERT TESTIMONY. Physicians Disagree as to the Permanent Character of the Plaintiff's Injury—Company Claims It Is Only In Her Mind.

All of yesterday was occupied in the district court with the trial of the Bryant damage suit against the motor company. Medical experts were put upon the stand to swear as to the probability of the young lady's injuries being permanent. Dr. F. S. Thomas, who was summoned as an expert for the motor company, said he thought the girl was somewhat hurt, of course, but that she had brooded over her injuries until she had made herself think she was much worse than she really was—had become, in fact, a victim to a malady that was entirely within her own mind. In this he was seconded by Dr. Fairchild of Clinton and other medical men.

Dr. Macrae, who was the young lady's physician, on the other hand, testified that he and four other physicians put her under the influence of anesthetics before operating upon her limb, and that while she was entirely unconscious, the limb itself by contraction of the muscles, showed signs of pain, an undeniable indication he thought that the injury was not a mental one. The case is full of possibilities to the medical experts. Every item you will find exactly as advertised.

He also denied that there was so much of the liquor as the inter- vening witnesses testified to. He said that cases of wine, one case containing six bottles, and one case containing five bottles of whisky. He denied that the liquor is to be returned to the store. He said he is holding it subject to the order of the court, which can have it any time it wants it.

SOUL LINE STILL OBDRATE

Will Enter Into No Agreement Concerning Emigrant Rates. MUST PROTECT ITS OWN BUSINESS. Little Prospect that Western Lines Can Make an Arrangement with Eastern Roads to Work in Harmony.

CHICAGO, Oct. 27.—The Western Passenger association has been utterly unable to come to any agreement with the Soo line on the question of emigrant rates, as that line insists that it must be left free to meet the competition of the Canadian Pacific at any time that line puts the screw on the emigrant rates. The western lines admit that the position taken by the Soo line is eminently reasonable, and that they cannot ask that line to bind itself in such a way that it cannot protect its own interests.

By a readjustment of the Northwestern rail schedules, taking effect Sunday, October 29, a great saving of time is effected between Chicago and that port of northern Nebraska tributary to the Northwestern line, as well as Deadwood and Hot Springs, S. D.

The new time-table for the Northwestern line will provide for the distribution of the Chicago morning mail throughout the entire district mentioned twenty-four hours faster than at present. The Northwestern line will carry a special mail and express train from New York and the east. The saving in time from all points as far east as New York and Boston.

THREE TESTIMONIES

Agreeing Perfectly Upon One Point. Which is the Value of the Copeland & Shepard Treatment in Various Forms of Chronic Disease—Read Them Well.

Mrs. Christian Kaehler of Millard, Douglas county, Neb., is well known in Omaha. Her husband is a large farmer and merchant of Millard, where he settled twenty years ago. Mrs. Kaehler says:

"A good many years ago I began to have stomach trouble. At first it was simply a loss of appetite and a little discomfort and bowels were constipated. Then my stomach began to feel as if it were burning. Digestion failed, I couldn't eat without pain and distress and a horrible burning and belching of sour gas. Finally nothing would stay on my stomach. To eat meant to vomit. This was the worst I ever had without number. About six or eight months I had a terrible headache, the result of a brain ailment, which was caused by several of my friends who had cured. His first treatment gave me quick relief, and after six weeks under his care I am perfectly well. I am keenly enjoying comfort and health, which long and severe suffering had denied me. I feel restored in every way, and my ailing friends now to Dr. Shepard."

"My catarrhal trouble dates back about seven years. For all this period it was working in my system and fastening its hold upon me. It was not until I had a malady became more active a year ago, when all the symptoms rapidly got worse. I seemed to have a continual cold in the head, with a painful pressure on top and through the temples. The nose and mouth were full of mucus that stopped me up in the head. The dropping of this secretion into my stomach disordered that organ so that I could eat little or nothing. I cared little for food and much of the time felt a nausea and disgust at the thought of eating. Soon I became languid, weak, without ambition, and, in a word, run down completely. I felt that the real cause of the trouble was the catarrhal poison in me and after a course of treatment with Dr. Shepard I am restored and changed as to feel entirely a new man. My nervous system, stomach and stomach trouble. I feel first rate in every way.
