

NOVEMBER'S CHILLY SPORTS

What Shall Be Done for the Preservation of Our Fish and Game?

FIELD TRIALS FOR NEBRASKA

Wheel Whispermings—The Foot and Base Ball Fields—The Hunters' Reunion—Shooting Tournament—A Long Walk and the Usual Sports Roundup.

EVERYWHERE there is a manifest revival of interest on the part of the lover of the dog and gun in the western states...

There is but one remedy, which, under the prevailing circumstances, should be easy of acquisition, and that is the formulation of a new and sound law...

These are among the absurdities of the present law, and while others could be mentioned, they are not sufficiently aggravated to justify the space...

But before going into the requirements and necessities of a new law, it is necessary to allow me, in courtesy to a suggestion from that gentlemanly sportsman, Mr. A. C. Connor of Central City...

According to the new law the open season on all game birds, fowl and squirrels begins September 1st...

Section one provides for the protection of nests and eggs. Another provides that three-fourths of all fowl should be shot into the township school fund...

The law guarantees to every owner or occupant of land the right to control his own premises, and provides that every person who hunts shall first obtain a license...

Section 12 provides that game shall not be sold before the fifth day after the opening of the season and not after the fifth day preceding the close of the season...

The final section prohibits exportation of game. This insuring sport to any one who wishes to shoot within the state...

While the above law will doubtless strike a large majority of our sportsmen as a decidedly sensible and wholesome document...

In the first place, it is not in harmony with the fitness of things as they exist in the Antelope state...

Section 10 is highly laudable and an example to be commended to all western states where game birds and animals thrive.

The section prohibiting the use of rifles on the waters of the state is another good one and will commend itself favorably to the owners throughout Nebraska.

Section 11 is a very good one, and the provision that game shall not be sold before the fifth day after the opening of the season and not after the fifth day preceding the close of the season...

The final section prohibits exportation of game. This insuring sport to any one who wishes to shoot within the state...

Section 11 is a very good one, and the provision that game shall not be sold before the fifth day after the opening of the season and not after the fifth day preceding the close of the season...

Section 12 provides that game shall not be sold before the fifth day after the opening of the season and not after the fifth day preceding the close of the season...

Section 13 prohibits the use of rifles on the waters of the state. This insuring sport to any one who wishes to shoot within the state...

Section 14 provides for the protection of nests and eggs. Another provides that three-fourths of all fowl should be shot into the township school fund...

Section 15 guarantees to every owner or occupant of land the right to control his own premises, and provides that every person who hunts shall first obtain a license...

Section 16 provides that game shall not be sold before the fifth day after the opening of the season and not after the fifth day preceding the close of the season...

Section 17 prohibits exportation of game. This insuring sport to any one who wishes to shoot within the state...

Section 18 provides for the protection of nests and eggs. Another provides that three-fourths of all fowl should be shot into the township school fund...

Section 19 guarantees to every owner or occupant of land the right to control his own premises, and provides that every person who hunts shall first obtain a license...

Section 20 provides that game shall not be sold before the fifth day after the opening of the season and not after the fifth day preceding the close of the season...

Section 21 provides for the protection of nests and eggs. Another provides that three-fourths of all fowl should be shot into the township school fund...

Section 22 guarantees to every owner or occupant of land the right to control his own premises, and provides that every person who hunts shall first obtain a license...

Section 23 provides that game shall not be sold before the fifth day after the opening of the season and not after the fifth day preceding the close of the season...

Section 24 prohibits exportation of game. This insuring sport to any one who wishes to shoot within the state...

Section 25 provides for the protection of nests and eggs. Another provides that three-fourths of all fowl should be shot into the township school fund...

Section 26 guarantees to every owner or occupant of land the right to control his own premises, and provides that every person who hunts shall first obtain a license...

Section 27 provides that game shall not be sold before the fifth day after the opening of the season and not after the fifth day preceding the close of the season...

Section 28 prohibits exportation of game. This insuring sport to any one who wishes to shoot within the state...

Section 29 provides for the protection of nests and eggs. Another provides that three-fourths of all fowl should be shot into the township school fund...

Section 30 guarantees to every owner or occupant of land the right to control his own premises, and provides that every person who hunts shall first obtain a license...

Section 31 provides that game shall not be sold before the fifth day after the opening of the season and not after the fifth day preceding the close of the season...

Section 32 prohibits exportation of game. This insuring sport to any one who wishes to shoot within the state...

Section 33 provides for the protection of nests and eggs. Another provides that three-fourths of all fowl should be shot into the township school fund...

Section 34 guarantees to every owner or occupant of land the right to control his own premises, and provides that every person who hunts shall first obtain a license...

Section 35 provides that game shall not be sold before the fifth day after the opening of the season and not after the fifth day preceding the close of the season...

Section 36 prohibits exportation of game. This insuring sport to any one who wishes to shoot within the state...

Section 37 provides for the protection of nests and eggs. Another provides that three-fourths of all fowl should be shot into the township school fund...

Section 38 guarantees to every owner or occupant of land the right to control his own premises, and provides that every person who hunts shall first obtain a license...

Section 39 provides that game shall not be sold before the fifth day after the opening of the season and not after the fifth day preceding the close of the season...

Section 40 prohibits exportation of game. This insuring sport to any one who wishes to shoot within the state...

Section 41 provides for the protection of nests and eggs. Another provides that three-fourths of all fowl should be shot into the township school fund...

Section 42 guarantees to every owner or occupant of land the right to control his own premises, and provides that every person who hunts shall first obtain a license...

Section 43 provides that game shall not be sold before the fifth day after the opening of the season and not after the fifth day preceding the close of the season...

Section 44 prohibits exportation of game. This insuring sport to any one who wishes to shoot within the state...

Section 45 provides for the protection of nests and eggs. Another provides that three-fourths of all fowl should be shot into the township school fund...

Section 46 guarantees to every owner or occupant of land the right to control his own premises, and provides that every person who hunts shall first obtain a license...

Large Size Cook Stove with best facilities to give satisfaction, \$6.25

Zinc Board 45c. Coal Hod 13c. Elbows 4c.

BOSTON STORE. 16th and Douglas Streets. FURNITURE, CARPETS AND STOVES.

ON THE GRIDIRON FIELD.

The Iowa State Team and Breezy General UNIVERSITY OF IOWA, IOWA CITY, Nov. 2.—(Special Correspondence of The Bee.)—One week ago a letter on the prospects of the foot ball season in the University of Iowa would have been far different from what it is now.

Nonetheless, should the team win the championship of Iowa, the championship of the Interstate League, and take a place in the west that would not be far from the top.

Nonetheless, should the team win the championship of Iowa, the championship of the Interstate League, and take a place in the west that would not be far from the top.

FIELD TRIALS FOR NEBRASKA.

OMAHA, Nov. 2.—To the Sporting Editor of The Bee: HE state of Nebraska has many a sportsman who delights in the pages of the various journals devoted to field sports and the reviews of field trials always receives extra attention.

Many expressions have been made relative to the possibility of holding field trials in this section, but no one seems to have the energy to start the ball rolling.

The trials can be held in Nebraska successfully, at least from the local standpoint, is a certainty, and the opinion is endorsed by some of our most level-headed sportsmen of this vicinity.

Why not start a field trial club and have the initial "go" early in December for local competition only? Suppose you publish a circular in connection with the trials, with the request that every sportsman interested write you his willingness to cooperate and help the formation of a field trial club.

Let every sportsman interested reply to you immediately, stating his willingness to attend a meeting for the purpose aforesaid, so that there be several sportsmen who will submit to the sportsmen of the city who cannot attend might write their views with the idea of having letters read at that meeting.

Let every sportsman interested reply to you immediately, stating his willingness to attend a meeting for the purpose aforesaid, so that there be several sportsmen who will submit to the sportsmen of the city who cannot attend might write their views with the idea of having letters read at that meeting.

THE BATTLE OF THE FOOTBOARDS.

The Omaha Whist club tournament is creating no end of enthusiasm and enjoyment. The contestants are all wrought up to a most exciting pitch and each team is exerting itself in a manner that is as vigorous as it is fresh.

Wheeler and Small, White and Alice, Mickle and Hawke, Connor and Zug, Ben and Ludlow, Reed and Ripshard, Jordan and Musselman, Scannell and Shipley, Baxter and Kirk, White and Alice, Mickle and Hawke, Connor and Zug, Ben and Ludlow, Reed and Ripshard, Jordan and Musselman, Scannell and Shipley, Baxter and Kirk.

From Chicago Herald to Omaha Bee. Harry Bethune, ex-champion sprinter of the world, spent several days in Omaha last week, and made the sporting editor a number of pleasant calls.

Forest, Field and Stream. W. D. Hardin, Dr. H. S. West, August Beresheim and Julius Zuercher of Council Bluffs, and Harry Hardin of Gretna, this state, have returned from a highly successful duck and geese shoot in the sandy hills of Dakota.

N. E. Money, the American agent of the E. C. Fowler company, England, will be the guest of Frank S. Parmelee tomorrow, and for the three succeeding weeks, Mr. Money, together with a party of English friends will leave for the Kansas ground Wednesday morning under the efficient chaperonage of Colonel Parmelee.

J. C. Morrison and H. B. Kennedy, who have been hunting guests of Lieutenant Crager of Roswell, Ga., returned early last week. They drove as far north as Lake Le Mars, some 140 miles north of Valentine.

J. J. Dickey and William Salisbury, who were with J. H. McFarland during the first two weeks of his recent duck hunt, returned several days ago, brown as berries, and in fine condition to assume the duties of a long and cheerless winter.

J. A. R. Elliott of Kansas City, and champion pigeon shot of America, has received a letter from Captain John S. Brewer of New York, declining to shoot five races for the championship of the world at Kansas City, but accepting Elliott's proposition to shoot five races for a money consideration.

Colonel Law May of the State Fish Commission, together with Mrs. May, leaves for southern Alabama Wednesday morning for their winter sojourn.

The four Freds—Fuller, Hoff, Mengeloth and Schrader, have returned from their bear hunt in the Big Horn mountains. They killed two bear, thirteen elk and a number of both white and blacktail deer.

Scrappy Timothy Hurst, the National League umpire, has been appointed official referee of the New York sportsmen. This is good, for the club runs short of talent on any occasion they can run Tim in, and I want the long end of the betting of any fight he may make. He's a run 'em, Tim is.
