Elections Upset Early Business, but the Week Closes Well.

Mr. W. H. Roberson, manager of R G. Dun & Co.'s mercantile agency, says;
"Business has been generally democalized for the week on account of the intense interest taken in the election, but for the past two days there is a marked resumption of trade. Already the more sanguine of traders claim to observe an improvement in conditions and predictions are frequent positive that the last national obstacle has been removed from the course of com-

though willing enough to admit that it is not often a big election has occasioned so much general interest or so disturbed commerce. It is always advantageous to business to remove apprehension and it is conceed that congressional legislation has been largely at the bottom of the present panicky situation. The business world knows as the result of the present election that the tariff will now remain undisturbed for two years. The republicans will not attempt tariff legislation so long as the senate and president are against them. Certainty is what business needs and two years of peace will work wonders for the commercial conditions, no matter which party wins in the next presidential control.

"Locally, probably the chief regret of the election was the defeat of both the canal and improvement bonds. These were disappointments, indeed, but it is quite likely the propositions will be again submitted at a special election.

"Wheat advanced 2 cents on the strength of the republican victory, but corn fell off 3 cents. Honors are therefore easy and neither side can afford to boast so far as these two great cereals are concerned." not often a big election has occasioned so

London Grain Market. LONDON, Nov. 18.—The wheat market steadily hardens. English and foreign wheats are in good demand. California cargoes, August delivery, were quoted at Es. and red American on passage at 22s 134d. Plour was firm and in good demand at \$1 up.

Malze was firm and advancing. There was a moderate sale at \$1 advance. In barley there

was the average demend, partly for the continent at fully 6d higher. Outs were firm at 3d ad

STOCKS AND BONDS.

Factor in Speculation.

NEW YORK, Nov. 16.—The moving influence in Wall street today was the reported intention of the government to issue a \$50,000,000 loan. Despite denials of the rea \$50,000,000 loan, Despite denials of the report in the press dispatches from Washington, leading bankers are inclined to the opinion that a government loan is anticipated, and that official announcement of the fact will be made possibly early next week. The traders accepted the fact and bought stocks freely on the theory that it would strengthen the general linancial situation, and consequently would cause an appreciation in share values. At the opening there was very good buying on the bullish feeling imparted by the rumored bond issue, and the market gained in strength until some holders of stocks bought at lower figures began to realize profits, which caused a reaction, limited to a fraction, except in the week the content that the content that the content that the content taken in the content taken taken in the content taken in the co

the impression that a strong Battimore combination control of the compound States of the control reduced and the refineries are making large purchases of raw sugar preparatory to resuming operations. The Franklin refinery, which also includes the E. C. Knight plant, started up this morning and will give employment to nearly 2,000 men in both refineries, while the Spreckels refinery will resume next week. W. J. McCahn, president of the W. J. McCahn, by the city, says: "The sugar market is improving easier than during the month preceding it. The sules of raw sugar during the past few days have also been very heavy. We are now running on about half time, but hope to be running with the full force within a few days."

Fat Fed Steers Bring \$5.45 and Smooth Grassers \$4.25-Hogs Show Nothing New for the Week, Closing Two Cents Higher.

SATURDAY, Nov. 10. Cattle receipts have been light this week and show a big decrease as compared with last week and the corresponding week of one and two years age. On the other hand, both hog and sheep supplies have been liberal, showing a heavy increase as compared with a week ago and the same six days of '92 and '93. The figures are as follows:

Receipts this week. . . 14,081 Receipts last week. . 23,078 Same week last year. . 18,244 Same week 1892. . . 15,467 On account of the big falling off in receipts of cattle this week, about 9,000 head, the market has exhibited a stronger tendency from day to day and the six days' advance on decent killing steers has averaged fully 25c. The demand from the dressed beef men has been very active and cone of the local houses have been able to secure the number of cattle they wanted. Early in the week there was some speculative activity, but all the cattle, or at least most of them that went on to Chicago, lost money, and, as a result, shippers of dropped out until such a time as cattle would bring more east or sell cheaper here. Local killers have done nearly all the buy, the sum of the auppiy has been so light and competition so active that sellers have experienced no trouble in getting good, strong prices for their stock. It is most too late for good range cattle and most too late for good corned cattle. The quality runs to extreme, with far more poor stuff than anything else coming. As showing that the demand is good and the market strong for the right kind of stock it is only necessary to note that \$4.5 and \$5.5 & was paid for fat fed natives, and a bunch of smooth, fat Idaho rangers brought \$4.25 today. On account of the scarcity of good cattle and the necessity for some kind, the market and the necessity for some kind, the market and ruled active and strong, even on the poor to fair stuff that has made up the buik of the light supplies is evident from the fact that at Chicago, where receipts have been heavier, prices have declined 25s to 35c.

There were too few cattle on sale today to afford anything like a fair test of the market. Such as were suitable for killers, to afford anything like a fair test of the market. Such as were suitable for killers, to afford anything like a fair test of the market. Such as were suitable for killers, to afford anything like a fair test of the market. Such as were suitable for killers, to afford anything like a fair test of the market. Such as were suitable for killers, to afford anything like a fair test of the market. Such as were suitable for killers, to afford anything like a fair test of the market. Such as were suitable for killers, to afford anything like a fair test of the market. Such asweet and the processing the such as a such as a suitable for a de least most of them that went on to Chicago, lost money, and, as a result, shippers

Fair to choice western rangers brought \$1.25 and \$1.25.

The cow market was active and strong. There were not to exceed a dozen good loads on sale and buyers were all after them. Prices ruled strong to 5c and 19c to 30c higher than Friday and 20c to 30c higher than Friday and 20c to 30c higher than the first of the week on all, including the canning grades. A couple of head of fancy 1.515-lb. cows brought \$1.50, but \$2.15 to \$2.75 bought fair to very good cows and helfers. Canners sold at from \$1 to \$2. About the middle of the week there was a slump in real values, but it has all disappeared, and fair to good veal calves brought \$1 to \$2.50. The market for rough stock has shown very little change all week. Sales were at from \$1.25 to \$2.25. today or good, strong prices. Common heavy stock ruled dull at \$1.50 to \$2.50. The market for rough stock has shown very little change all week. Sales were at from \$1.25 to \$2.50 today or good, strong prices. Common heavy stock ruled dull at \$1.50 to \$2.50. The market for rough stock has shown very little change all week. Sales were at from \$1.25 to \$2.50 today for poor to very fair buils.

For the pist two or three days activity and strength have characterized the stocker and feeder trade. The weakness consequent upon the election excitement the first part of the week has entirely disappeared, and, with a good demand and light supplies, prices have been advanced loc to 20c and the feeling has been rather buoyant. For a Saturday quite a little business was trans. acted today and at good, strong prices. Good to choice feeders are quotable at \$2.70 k2.25; fair to good \$2.35 gaze, 50, and common grades, from \$2.25 down.
