The table is certainly interesting and instructive, if not conclusive, as to the extent to which the issue was really in-

volved. The states naturally fall into three classes, those in which both parties declared for immediate free coinage, those in which both parties declared for sound and stable currency and those in which the parties are at variance on the subject. In Colorado, for example, all parties demand the restoration without delay of the coinage on equal terms of both gold and silver at the old ratio of 16 to 1. The same is true in Wyoming, Montana, Idaho and 10,007 other mining states, where there is practical unanimity of openion in favor of Daily average set circulation ... TZSCHUCK.

These platforms repudiate any action that would in any way endanger the stability of our monetary system.

In no party platforms was the silver issue drawn so sharply as in Nebraska. where the two parties came out squarely and unmistakably in favor of opposite positions. The republicans say that "While we favor bimetallism and demand the use of both gold and silver standard money, we insist that the paper or coin, issued by the government shall be as good as any other.' MUST THERE BE MORE BONDS! According to advices from Washington another issue of bonds is contemplated by the administration. It is said that the president is convinced that it more at an early date and that the question of doing this is being seriously considered. The report is that the but their awakening is terrible. president, acting under the authority

of existing law, is disposed to proceed in this matter at once, instead of waiting for action by his party in congress, which might not be favorable to the issue of more bonds. As a matter of fact the president fully understands that probably congress would not, if the question were left to that body, permit him to issue more bonds. A resolution looking to that was beaten in the present house and there can be no doubt that if another was introduced looking to the extension of the public debt it would meet with the same fate. True, the circumstances are a little different now from what they were when the former resolution was introduced. Then it was believed that under the new tariff law the treasury would get all the revenue it required to meet the current expenditures of the government and the gold reserve would be built up to the normal standard.

Experience has shown that this view was wrong. As a revenue measure the new tariff law is an absolute failure. and the gold reserve continues to be some \$40,000,000 behind what it ought to be. The prospect of a change for the better is not encouraging. Importations are not growing for the reason that the market does not demand them. The gold reserve of the treasury does paid in other forms of currency. The aggregate receipts of the treasury do not equal the expenditures and every month brings a deficiency, which must be made up by future appropriations.

How long can this state of things go on without very serious injury to the credit of the government? As a matter of fact the government is today insolvent. If called upon to redeem its obligations, as provided for under the aster. There may be differences of opinio law of 1875, it could not do so. The speakership of the next house of he Nebraska legislature is one of the plums which will soon begin to cut a figure among the newly elected representatives. The candidates for that place have been kept in the background wing to the uncertainty of their own success at the polls. Now that the membership of the house has been definitely determined the would-be speakers will no longer be bashful about precenting their claims. That the speaker will be a republican is taken as a matter of course, as also that there will be plenty of available timber to select from. The position is one of no little importance and every member of the legislature should weigh carefully the different considerations before ranging himself as the supporter of one aspirant or another.

The London Chronicle ascribes the defeat of Chairman Wilson to the fact that he permitted himself to be entertained abroad during his recent visit to England. This is giving the London dinner an influence which no one on this side of the Atlantic would venture to do. That incident, to be sure, furnished a certain amount of political capital to his opponents, but it was not and could not be made the issue between the two contestants for congressional honors. It was the cause which he represented, not his enter tainment in London, that carried Mr. Wilson down with his associates the whole country over.

The whole arrangement must be loose and artistically graceful. An excellent effect can always be obtained by a skilful combination of different colors of the same flower. A beautiful group can be made, for example, of yellow, orange, bronze and dull red chrysanthemums-a single pink blossom would

The hair dressing of the moment is varied There is but nough to suit any contour. one emphatic "Don't," and that pertains to bangs. Even the saleswomen have left off the last semblance of bangs—the long, drooping curl on the forehead—and have joined the rest of the women in wearing parted locks drawn away from the fore-head in loose waves and held here and there by the little tucking combs that are in high vogne. Every woman who sees Elsie de Wolf's arrangement of her hair in the third act of "The Bauble Shop" straightway re-solves to go home and copy it, and many heads it suits as it does the well shaped one everyth of that popular actress. The use of these combs is one more evidence of the adaptability of women. When bangs were or dered out and parts and waves were ordered in the women who had been cutting their front hair in a fringe for years found themselves in an unpleasant predicament. A crop of uneven, aggressive short ends of hair was their only barvest. The combs were resorted to by a clever woman, and the way out of the dilemma was promptly seen and taken advantage of. styles in vogue in the days of Louis Quinze of pearls will not be confined to the hair however, for they will be worn in every wide collar made of rows of pearls, caught together with a diamond clasp at intervals around the neck. A long, stender chain of pearls is another fancy, and this is worn twice around the thront, forming a kind of necklace. It falls in graceful loops to the waist, and is caught at one side of the cor sage by a jewelled pin.

The Philadelphia Record says that after chieving fame as the greatest manufacturer of saws in the world, Hamilton Disston may time become the greatest fruit and vegetable grower also. He controls 2,000,000 acres much as the whole state of Maryland. It is in one compact body, and after ten years of draining and experimental work he is now getting ready for colonizing it on a very extensive scale in connection with fruit and vegetable growing and sugar production. dission now spends a considerable portion of his time in Florida, but still retains sterest in Philadelphia to wield a potent influence in the Twentieth and Twenty-ninth wards when election day rolls around,

The Tarsney family are somewhat noted in political life. There are three brothers, Adjutant General Tarsney of Colorado, who was recently tarred and feathered; Congressman Tarsney of Missourt, and Tim Tarsney, formerly a member from Michigan. The In-dependent recalls an old story of Tim, that when sent at one time to a Connecticut city for a campaign speech he was introduced with even more than the usual flights of oratory. The chairman, after dwelling upon his great deeds for the nation and telling how his name had become a household word throughout the land, leaned over and whispered, "What is your name, sir?" receiving the answer he continued, "I now have the most gratifying pleasure of introducing to you Congressman Larceny.

Secretary Herbert, during his recent visit to Mare Island, met J. Newcomb, jr., a Massa-chusetts veteran who saved the life of Mr. Herbert during the war, when the Alabama man was taken prisoner. Mr. Herbert was taken prisoner by a picket guard, but proved A a rifle at his head, which Newcomb struck up, and thus saved him from death. Mr. Herbert met Nomcomb for the first time since the war at Mare island last June, and he since given him work at the navy yard. The other day an order came to remove Quarter-man Calker J. W. Jamison, a republican, and democrat.

James Whitcomb Riley's fondness for chillren is a well known characteristic of the 'Hoosier" poet, and his keen appreciation of their quaint sayings is illustrated in the fol-lowing dialogue he claims to have overheard, and which he related at a recent luncheon: "I don't like Willie 'tall," the first youngster asserted, emphatically. "Why not?" he was asked. "Cause every night he goes and blabs everything to God.'

Chesholm Robertson, one of the foremost eaders of the great Scottish coal miners' strike, speaks French with an unimpeachable accent, is acquainted to some extent with German, writes two systems of shorthand and reads Carlyle and Schopenhauer. He wears a velvet jacket cut a la Whistler, affects a stovepipe hat of the pattern worn ten years ago and is profuse in his display of lewelry. He carries a cane which is said to weigh seven pounds,

Ex-Senator Warren's ranch in Wyoming covers an area of seventy-five by 100 miles and is stocked with 2,000 horses, 15,000 cattle and 120,000 sheep. The extreme length of Rhode Island is fifty miles and her extreme breadth is thirty-five miles, her entire area being 1,250 square miles. The area of Mr. Warren's ranch is 7,500 square miles and it is, therefore, just six times as bi as Rhode Island.
