VERDICT CAME TOO LATE

Plaintiff Not Able to Benefit by an Award of Damages.

WON THE SUIT BUT NOT BEFORE DEATH

Tried Twice in the District Court, the Plain tiff Again a Winner and This Time in the Supreme Court-Questioning the Sanity of a Juror.

The supreme court has passed upon the case of Ada C. Flagg against James Stephenson, affirming the decision of the district court of this county, in which a judgment was rendered for the plaintiff. The mandate arrived yesterday, and was at once docketed in buyers of our superior quality of fine granuthe office of the clerk.

On April 7, 1887, Ada C. Flagg was driving along Douglas street in her private carriage, and as she neared the Fourteenth street intersection her vehicle was run into by one of Stephenson's cabs. The woman was thrown to the pavement, sustaining some serious injuries which impaired her health, and it is alleged that they resulted in her death which buying less than \$1.00 worth will be entitled followed some years later. The carriage was demolished and the horse was cut up and rendered useless. Soon after this Mrs. sued for \$5,241.50, and at September term of court the case went to trial, the jury returning a verdict of \$1,500 for the plaintiff. A motion for a new trial was made and granted, and at the February term of the following year another trial was had, this time the jury finding for the plaintiff and fixing the amount of the verdict at \$2,000, or \$500 more than at the previous trial. The defendant appealed the case to the supreme court, and there the judgment has been affirmed.

Sanity of Austin Questioned.

The insanity commission which has been investigating the condition of the mind of W. B. Austin, a juror who sat in the case wherein Ed F. Morearty was convicted of forgery, has taken a recess, to resume laboring again today, when additional will be taken, together with some advice upon the subject before arriving at a conclusion.

Two years ago W. B. Austin, who at that time was an engineer in the city hall, suddenly disappeared, and no trace of him was discovered until a few weeks later when it was learned that he was at the county hos-pital, having been sent there after he had been adjudged hisane by the commission. Now the attorneys for Morearety hold that Austin never having been declared sane, he was not a competent juror.

SHE WON IT.

A Young Lady Accepted a Wager on Hol-

A pretty typewriter girl employed in one of the insurance offices in the New York Life building has been a steadfast supporter of the candidacy of Silas A. Holcomb, During the campaign the young lady earnestly advocated the election of her favorite candidate, and, as a matter of course, met an occasional Majors supporter who took issue with her as to the relative strength of the two men. One day after a spirited controversy a gentleman proposed to wager a box of candy on the result and was promptly ac-

cepted.

The outcome is well known. The rash young man paid his wager as all other honorable men are doing, and with the candy he enclosed the following wall: Dear Miss: The wager, fairly won, I send to you, and from the gloomy depths of despondency, where torn and tattered remdespondency, where torn and tattered remnants of lacerated pride chase the spectral
shadows of despair, I extend to you congratulations upon the victory of your populistic friend, which doubtless has kindled in
your eyes a brilliant gleam of sparkling
light, and sent a radiant smile of sweet
serenity dancing o'er your sunny phiz.

Public Institution Feeling the Fatal Effects of Defective Plumbing.

TWENTY-FIVE DEAF MUTES ARE VICTIMS

sebraska's Institute for the Deaf Turned Into a Hospital-One Death and Others Expected-Disease Due to Defeetive Plumbing.

The Nebraska Institute for the Deaf and Dumb, in the northwestern part of the city, is suffering from a serious epidemic of typhoid twenty-five самея altogether within thirty days, ten of which the have developed into unmistakable typhoid. One of the inmates has died from the disease and there are three more whose lives are in serious danger. The remaining patients are evidently in a fair way to recovery.

As gathered from the statements of the officers of the institution, the fever is directly attributable to the present unsanitary ondition of the buildings. Two years ago this winter the plumbing was condemned by the city authorities as dangerous to health and a violation of the sanitary regulations of the city. This was while the last legislature was in session, and before the appropriaion was made to support the institution during the ensuing two years.

An investigation showed that the entire ystem of plumbing was out of order. It Take advantage of the removal sale on had been in for a long time, and besides planes and organs at Woodbridge Bros., as they have leased rooms at 117 South Sevenalmost entirely worn out. In view of these facts an effort was made to induce the legislature to appropriate enough money to make the necessary repairs, the expense of which would be considerable. The effort was not successful, however, and outside of such little patching up as could be done with but little outlay of money, the building has re-mained during the entire two years in the

ame unwholesome condition.

By a liberal use of disinfectants and general cleanliness the management have succeeded in warding off any serious epidemic of disease until about a month ago, when a large number of the inmates were taken ick. Two severe cases of scarlet fever were developed, and nearly a dozen cases of ty-phold. The other cases yielded to prompt treatment and recovered after a few days illness. The typhoid cases continued to grow worse, and the first death occurred last Sunday. Yesterday it was stated that three of the remaining patients were in a critical condition, but that there had been no new cales within the past ten days, and it was hoped that the epidemic was under control. Superintendent Gillespie was asked as to the cause of the sickness, and said that there was no doubt but that the defective plumbing was responsible. In this view he was up held by one of the physicians who is on the regular staff of the in titution. Both gentle-men maintained that everything had been done that was in their power to insure cleanliness, but it was impossible to do away entirely with the deleterious effects of the worn out and inadequate plumbing. It was imperatively necessary that the entire sys-tem should be overhauled as soon as pos ible. Most of it would have to be torn out and re placed by more modern apparatus. It would cost at least \$2,000 to put the institution in a satisfactory sanitary condition, and this amount the legislature would be asked to appropriate for the purpose at the coming session. The amount appropriated two years ago had been insufficient to pay the running expenses of the institute, to say nothing of such repairs as were necessary, and should have been accomplished. This year Superin tendent Gillespie says that he intends to make out a con-ervative estimate of such expenses as must be provided for, and unless the necessary funds are furnished the health of the inmates will be seriously endangered.

Agreeably Surprised. Henry Wilson, the postmaster at Welshton Fla., says he cured a case of diarrhea of long standing in six hours, with one small bottle of Chamberlain's cholic, cholera and diarrhea remedy. What a pleasant surprise that must have been to the sufferer. Such cures are not unusual with this remedy. In many instances only one or two doses are required to give permanent relief. It can always be depended upon. When reduced with water it is pleasant to take.

It has been cynically said that women keep the doctors alive. That a girl should learn a little French and German, and a little music is considered of more consequence than that she should know the laws of her own life. So the world is full of sickly women who might be well. They are pale and nervous, martyrs to headache and indigestion, and they complain that "the least thing upsets them."

Well, ladies, there is not the slightest need of this state of things. Your pains in the back and your suffering from heavy colds after a trifling exposure to autumnal or wintry air simply means that you need something to revive the flagging energies of your bodies. One get the blood circulating briskly and the nerves in proper shape and you will be surprised to see how soon you will be rid of that miserable, half-sick condition.

The standard stimulant for alling women is Duffy's Pure Mait Whiskey. After work in the household, worry at a sick bed, emotional strain or any of the other common causes of debility in women, Duffy's Pure Mait women, Duffy's Pure Mait is a very fountain of new life.
