United States Marshal White received a telegram yesterday from Acting Indian Agent Penney at Pine Ridge stating that Fast Thunder, the Indian who on Wednesday night killed Red Horse, an Indian policeman at Rushville, had been captured and was being held in jail pending the arrival of a

Black beaver ulsters, In this connection it is of literest to know that in many other cities the cost of street sweeping has been materially reduced by the employment of day labor. Last year it cost the city of St. Paul just \$13,766.97 to clean 1,587 miles of streets. This makes the average cost per mile \$3.67, or less than half what is being paid in Omaha. In St. Paul the street is the paid in the paid in the street is the paid. the streets are swept from early in the spring to the end of November. This country is off this year. Democrats are republicans, republicans are populists and populists are democrats. The goldbugs are after silver and the silverites are after gold.

The Nebraska is off, too--couldn't figure out such a possible demand for overcoats, as made upon us recently. The fashion is "off"--a slouchy-fittinglong, loose, blankety overcoat is the fad of fashion this year. Even short people sigh for long overcoats.

All of our overcoats are long. Matters not what quality or price, they're all long. Even our Two-Seventy-Five coats are made according to this season's length. Our Five Dollar overcoats are as close to the fashion plate as any stylish garment you've seen so far. Six-Seventy-Five, Ten-Fifty, Fifteen Dollars, Seventeen, and up to Twenty-One-Fifty--they're all long and stylish, best of fabrics, most serviceable of linings and handsomely draped.

But our prices are only "short" features about our coats. In one of our windows you can see some of our Five Dollar overcoats. Tell you what it is like: A patent all-wool beaver, lined with cassimere, velvet collar, made up clean, silk stitching all over. It is by heavy odds the best \$10.00 article ever retailed by man. Side by side you see some of our Five-fifty long. warm and storm protecting ulsters, of several different cloths and as many colors. That will also put a surprising smile on your face, because you know others charge you for one like it at least \$10,00. By the time you see other prices you'll know why we are the acknowledged money-savers of this country,

Here is an additional sacrifice: We have a few styles of shorter than usual gauge of overcoats, that formerly retailed at from \$17.50 to \$25.00. Are to be cleaned out this week at Fifteen Dollars. They're clean, brand new stock, but the sizes are 34, 35, 36. Nothing larger. Truthful advertising demands that you shall know it. We never misrepresent,
