t would seem that the railroads are trying to ruin the packers of the Missouri river in

favor of the Chicago packers. We have but faw hogs to receive this year and few cattle from our territory, while Chicago is in the heart of the largest hog growing belt of the country. This is shown when on Monday the

tog receipts of Chicago amounted to 50,000 head, while Omaha hardly received 6,000. Under these circumstances it is grossly un-fair on the part of the railroads to make fish of one and flesh of another. And as for the raise in the minimum weight for carload lots shows plainly that when freight men get started they are like a flock of sheep. The

packers were content with the 20,000 pounds minimum, but when 4,000 pounds additional are added it looks like highway robbery." AGREED ON REORGAANIZTION. hicago & Northern Pacific Bondholders
