The Chinese legation here is not notified as to what course its government will take. An Associated press cable from Japan states, however, that China is reported to have intimated her willingness to pay an indemnity of 100,000,000 taels and in addition pay all the war expenses incurred by Japan. As the war expenses reach 150,000,000 taels, the total offer of China would be 250,000,000 taels.

The tael is the Chinese silver coin, worth about 75 cents at the present rate of exchange, so that the whole payment would be approximately \$175,000,000 in American money. The amount is regarded here as quite large, and it is believed arrangements on terms providing for smaller war indem-

The advance on Port Arthur is regarded as having an important bearing on the peace negotiations. Lieutenant Liyoka, naval attache of the Japanese legation here, says the advance movement has been most cautious, as the ground for forty miles around Port Arthur has been found fairly alive with powder mines, connected with electric wires to Port Arthur, Three days ago the Japanese were within a day's march of the fortress, were within a day's march of the fortress, and the second that the mines and electric wires. The regular roads could not be used for the artillery, as it would have been blown up, and accordingly the big guns have been moved in circuitous routes through woods and morass. It is regarded as likely this cautious march will have been completed today, and the Japanese legation is hourly expecting word that the decisive blow has been struck, though a long siege may be necessary, as the fortress has one of the strongest defenses of modern times. It is believed that a Japaneses success would quickly close the peace negotiations, but that a repulse would unjectly close the peace negotiations, but that a repulse would unjectly close the peace negotiations in the that a repulse would unjectly close the peace negotiations, but that a repulse would unjectly close the peace negotiations is not the peace of the content of the prophetic instincts, not so fully described at the left in the store of the action, as a shier. committee of the W. C. T. U. held a post convention today, lasting until far into the evening. The most important matter that came up was a resolution to admit men to full membership in the young ladies' branch. The subject was fully discussed and the decision reached that such a change was inexpedient, as when the proper time ar-rived the W. C. T. U. itself should admit men to membership and eliminate the word "Woman's" from its name. Fremont Laid Finally to Rest. NEW YORK, Nov. 22-A party of about fifty people journeyed out to Rockland ceme-

GRAVE ROBBERS' HEARING

University Professors and Students at Lincoln Have Their Case Continued.

COURT ROOM CROWDED BY SPECTATORS

Prisoners Claim that the Body Was Stolen by Professionals, Who Sold it to the College Where it Was Found.

LINCOLN, Nov. 22 .- (Special Telegram.)-The Cotner university medics, Prof. J. W. Ward and D. S. Meehan, A. S. Ross, D. H. Roberts, B. J. Alexander, J. A. Burford and J. E. Waller, arrested last night on a charge

A sensational rumor that Otto Alwhose cadaver was purloined bert, from Wyuka cemetery, committed sufcide and that the insurance company refused to pay the loss, appears to have little foundation. The burial permit shows that Albert died from a valvular disease of the lungs. Suspicion points strongly to parties connected with the university as the ones who actually despoiled the grave of the "stiff." The students in attendance at the clinic at the time of the arrest had each paid \$10 for the privilege of the demonstra-

tion which was so suddenly interrupted.

porter today Lawyer McDonald said: archeonspirator, H. H. Holmes or H. L. Morgan, the name by which he was known in St. Louis came to the office while I was absent in Colorado and proposed the case, say-ing that Mrs. Pitzel wanted some one to represent her. It was the first case the boy had ever been offered and he jumped right into it with all the ardor and enthusiasm of youth. He did not wait for us to return and the result was that this slick crook im-

posed upon him. My young friend may have been indiscreet, but he is no criminal." Superintendent of Police Linden places implicit confidence in what Mr. McDonald says in reference to young Howe and is of the opinion that the latter has been misled by Holmes. Lawyer McDonald called on A. S. L. Shields, the noted criminal lawyer, at the latter's office and asked Mr. Shields to act as counsel for young Howe. The facts of the case were briefly stated and Mr. Shields agreed to take charge of the case Howe, in all probability, will be released on

INDIANAPOLIS, Ind., Nov. 22.-The surance company which insured and paid the \$10,000 policy on the life of Pitzel on Septem-ber 24 a few days afterward received a letter from Mrs. Pitzel, thanking them for their promptness and expressing gratitude for the consideration shown her and her children. This letter was carried and scattered broadcast as an advertisement by the company. The letter is reproduced verbatim and is preceded by the company's statement that satisfactory evidence of Pitzel's death had been secured.

CHICAGO, Nov. 22.—Today it became known that Holmes was the head of what purported to be an incorporated company called the A. B. C. Copying company, with headquarters in the Monon building on Dear-born street, this city. The copying machine

Calfornia Strikers Want to Put Him on the

SAN FRANCISCO, Nov. 22.-Attorney Montieth is preparing some affidavits to be filed in the case of the strikers now on trial for obstructing the mails and interfering with interstate commerce. It is the purpose to make every effort possible to summon to this city as witnesses in the cases now pending President Cleveland and the managers of all the principal eastern railroads which were in any way involved in the big strike. If the application of the defense for these distinguished witnesses be refused the matter may be carried to the su-

preme court for final adjudication. Montieth, speaking of the case, said: "We hold that the president of the United States and the managers of the eastern roads were technically guilty of obstructing the United States mails when they put forth the presidential and managerial proclamation concern-ing the strike. We want to find out why that proclamation was made and on that point Mr. Cleveland's testimopy is essential. I do not believe there is any law by which he can claim exemption from coming and testifying
