INCREASES FLESH.

The New Dyspepsia Cure Does It.

A Few Remarkable Instances. Stuart's Dyspepsia Tablets, the new discovery, has made a number of remarkable cures of dyspepsia and indigestion, has recently shown that it also has the effect of increasing the flesh and weight of thin, run-down people, and finally, it is done in a perfectly natural manner. The tablets by increasing perfect digestion cannot fail to increase the weight and general vigor, because the first effect of perfect digestion, following the use of Stuart's Dyspepsia Tablets, is a vigorous appetite, then complete digestion and assimilation of food eaten, and the result is very muscular, nerve, ligament in the body is nourished and the increase in flesh is noticeable in some cases within a week after using the remedy.

Dr. Harlandson mentions many cases in his own practice where Stuart's Tablets were used, and he says that he has done so in each case. The doctor says: Whenever I have a patient whose stomach is disordered, a tongue coated, poor appetite and run down condition, my advice is to go to the nearest drug store and get a 50 cent package of Stuart's Dyspepsia Tablets, and the result will be the stomach will be set right, perfect digestion restored, all nervousness disappear, and in many cases I have seen the weight increase 15 or 20 pounds. I recommend this remedy in preference to any other because it is not a secret patent medicine, but is purely and simply composed of vegetable essences, fruit juices, pure pepsin and bismuth, and can be given to delicate babies with benefit.

Another case is that of Miss Helen Sholes of Nashville who writes as follows: Up to the fall of 1893, I had suffered from dyspepsia for nearly eight years. I was not sick in bed, but was so miserable, run down, discouraged and nervous that I might better have been in a hospital for any good I was to myself or others. For years I had been thin, pale and dyspeptic. Our good family doctor did all he could for me, and finally advised me to try Stuart's Dyspepsia Tablets, telling me there was no risk in taking it, because it was not a secret patent medicine, but every physician knows what the tablets contained. Acting on his advice, I went to the drug store, bought half a dozen packages, and before they were half gone I knew the right medicine had been found. I ate with appetite, strength, and freedom from weakness that I had never known previously. I gained eighteen pounds in weight, and while I am not fat (I don't think I ever did all he could for me, and finally advised me to try Stuart's Dyspepsia Tablets, telling me there was no risk in taking it, because it was not a secret patent medicine, but every physician knows what the tablets contained.
