RESULT OF LAST SUMMER'S STRIKE

Activity as Head of the General Managers Association and the Consequent Cost to the Company the Causes of the Rupture,

CHICAGO, Nov. 28 .- (Special Telegram.)-General Manager E. St. John of the Chicago, his resignation today. It was accepted and Rock Island & Pacific has resigned. He received word this afternoon that he had been out of existence. When the meeting con elected vice president of the Seaboard Air vened this morning Chairman Caldwell said Line, a rather obscure road which runs be- if the lines wished to form another associatween Norfolk, Va., and Atlanta, Ga., and tion they would be 'ree to choose such the immediately accepted and severed his con- chairman as they desired. A resolution denection with the Rock Island.

This change will no doubt cause considerable comment among railroad men, inasmuch as St. John was one of the oldest employes of the Rock Island road, having worked his way up from the position of staoffices, until he was made general manager. but among Rock Island officials the resignation of Mr. St. John was no surprise, in fact it has been anticipated for several months.
It is reported on good authority that St. It is reported on good authority that St.
John was requested to take the action he
did. When the strikes broke out last summer he was active in the organization of the
General Managers' association and was made
its president. His aggressiveness in this
direction so engaged Lebs and his followers.

weeks past and may be expected to be in direction so entraged Debs and his followers that they centralized their efforts against the Rock Island road. As a consequence the Rock Island was one of the heaviest, if not the heaviest, losers among western roads by the strikes. This angered President Cable and other high officials, and it was decided that St. John must go. He was requested to resign and some months ago Mr. St. John began looking for another position. His election to the vice presidency of the Senboard Air Line today was accordingly implementations. #### WHY THEY SHOULD BE GRATEFUL. Thanksgiving Coming Just in Time for

Sumber of Rattroad Men. Railroad officials feel that they have Bitle to be thankful for this year, if they are to be judged by expressions inadvertently made during the past week, except that they are alive and have jobs. But there are some things that even railroad men forget in casting up the balance sheets for the year; things which have been intimately associated with their lives during the past twelve months, and The Bee suggests that over the walnuts and the wine today they give thanks for blessings which have been very much in evidence, but which are seemingly ignored by

General Passenger Agent Buchanan of the Elkhorn can, with much feeling, devote a section of his blessing today, as the steaming soap is before him, to the thought that the existence of the Western Passenger associa-tion made it possible for him to sit upor numerous boards of arbitration at \$25 per daily sit and actual expenses added.

Edward Lloyd Lomax, general passenger Burlington, when asked when the Omaha and ticket agent of the Union Pacific, whether rates would be equalized to correspond to the he take turkey at home or at the Auditorium in Chicago, can afford to be profoundly grateful that the long-standing differences between the Oregon Railway and Navigation company and the Union Pacific have finally been adjusted and that his long conlinued absence com home is not without some reward. General Passenger Agent Francis of the

prington will have a perfect right to cele-fate the day and rejoice that his line has canscontinental trimmings since October 15. and that he will hereafter be permitted to their words of wisdom. Incidentally, too, he may be thankful that the crop of hot tomales

he is one of the receivers of the Overland, but if is known he is supremely happy over hav-ing caught a six-pound trout in the Powder worthy disciple of the gentle character who fished on the River Dover.
General Manager Holdrege has cause to be

thankful over the complete knockout admin-istered to the maximum rate bill by Justice Brewer, and, incidentally, that the pass agreement will interfere seriously with some of the men who were lukewarm in the sup-

### ATLANTIC & PACIFIC ROAD.

Forty-Five Hours from New York to San Francisco in a Few Years MAUCH CHUNK, Pa., Nov. 28.-The Atlantic & Pacific Railroad Construction com-

pany, a corporation chartered in the state of Illinois and behind which, it is asserted, there is a powerful English syndicate, has had a corps of sixteen engineers at work here for a week surveying their line through Carbon county and Mauch Chunk. The rail-way is to be an air line across the continent from New York to San Francisco, and passes through Chicago, which city will be brought within thirteen hours of New York and San Francisco forty-five hours of New York.

The English syndicate, it is said, will take \$150,000,000 dollars worth of bonds and have placed a bill in the heads of Control of the Sanda and the said of the Sanda and the said of the Sanda and the said of the Sanda and San

\$150,000,000 dollars worth of bonds and have placed a bill in the hands of Congressman Childs of Illinois asking the government endorsement of the bonds, in return for which the railway company is to turn over 51 per cent of its capital stock to the government. The survey is now completed from the Mississippi to the Delaware river and the construction is to begin next apring and the division between New York and Chicago finished within five years.

CHICAGO, Nov. 28.—Referring to the Atlantic & Pacific Railroad Construction compani deal, Congressman Childs said today: "I was asked by a constituent if I would intro-

panl deal, Congressman Childs said today: "I was asked by a constituent if I would introduce such a bill, and I informed the individual that I would if requested. I have not yet seen the bill and do not really know whether it would be given to me to present. Such a proposition, if properly circumscribed and bound down, might be of great benefit to the people and the government, the latter by greatly facilitating its operations, the movement of mails and its troops. The house of representatives is, of all places, the one from which the people could be advised if there was merit in a propesition such as this company would make, and perhaps the matter may be brought to the people's attention, though I do not think that the time is ripe for this sort of thing in congress."

Presumed They brew the belary.

It is pretty generally understood that Judge Santorn, before he left on his trip to the Pacific coast, made an order fixing the amount which the receivers of the Union Pa-cific might draw monthly, pending the final of the case .

the receivers in the Union Pacific cases peti-tioned the court to allow them each \$18,000 per year, on the ground that the trust was so vast and the interests so enormous that it would require their entire attention, and that their private business would suffer to that extent. There is a well founded rumo that the receivers have drawn their allot ments for November, but cothing of a definite nature could be learned at headquarters, the people connected with the departments being as dumb as oysters.

#### PLAN OF REORGANIZATION.

Proposed Successor of the Western Pausen

ger Association. CHICAGO, Nov. 28 .- Chairman Caldwell of the Western Passenger association tendered the Western Passenger association has passed claring the Western Passenger association out of existence was introduced and adopted, with the understanding that the Emigrant Clearing house shall remain intact man Caldwell will be retained, with his prin man Coldwell will be retained, with his principal assistants, for the purpose of manager, among Rock Island officials the resignation of Mr. St. John was no surprise, in fact as been anticipated for several months.

Is reported on good authority that St. is reported on good authority that St. be placed under the jurisdiction of five territorial committees, to have their headquarters as follows: The Pacific at San Francisco, the central at Denver, the southern at St Louis, the eastern at Chicago and the northern at St. Paul. Each of these committees are to have jurisdiction of all matters in its own territory, and all matters of general in-terest to be referred to the general associawhich will have its headquarters in this city. No definite action was taken the report, it being only discussed inform ally. The general feeling, however, was ally. The general feeling, however, was strongly in favor of adopting the plan proed by the committee. After the discussion the general meeting adjourned to Saturday

> General Passenger Agent Francis of the Burlington, when asked when the Omaha Kansas City-Chicago rates, said that he was waiting to see what action would be taken

by the roads now interested in the formation

f a new transcontinental association He thought something definite would result within a day or two. "We are not inclined to reduce rates, because we have instances now how hard it is to get them back when once reduced. The normal Denver rate for nearly a year has been demoralized on account of the scalp from Utah common points and with this staring us in the face it is natural we should go slow. Of course if the Kansas City-Chicago rate of \$9.50 continues the same rate will undoubtedly be applied to shows no signs of being cornered.

The master of ceremonics was J. Vieu.

Burgler Was Not There.

Last night a telephone message was rereived at the police station to the effect that the house of Judge H. Bradley, at 1917 Wirt street, had been burglarized and that the burglar was shut up in the cellar. The patrol wagon started out, but at Fifteenth and Harney streets the axle of a rear wheel was broken off. The wagon stopped, but the wheel went on to Farnam street, and there ran into a buggy, slightly damaging it and frightening the occupant. The other wagon was sent out, but when it reached the house to burglar was in the cellar. The house, however, had been well ransacked, bureau drawers and tranks being invaded. The family has been out of twu for two weeks, and the son, Edward, who has been staying alone in the house, was unable to say what was taken, beyond a stockholm of the same of the son was the caliber revolver. When he went home last night he found both front and back doors unlocked. No clew was found of the burglar or burglars. the burglar was shut up in the cellar. The

avored with anything Omaha will witness one of the greatest foot ball games at Y. M. C. A. park this afternoon ever played in the west It is the state of Ne-

braska against the state of Iowa, as represented by their 'varsity elevens, and as the most intense

the finest possible condition. It is A of the closing games of the Western Collegiate association, the other being played at Kansas City between Kansas and played at Missouri. Many things depend on the game. lowa and Nebraska at present are tied in the standing, each having lost a game to Missouri and won a game from Kansas. Kansas expects to defeat Missouri this alternoon. If this happens the victors of the Omaha game will be tied for the championship, with a chance to win the pennant, which is worth something. Moreover, there is an old score to settle between Iowa and Nebraska. In three years each team has de eated the other once, and one game is a tie. Today's contest will, therefore, decide who stole the boots.

NEBRASKA'S TEAM IN GOOD SHAPE. Since its victorious trip to Kansas the Nebraska team has worked hard to perfect its play for today's game. It is now in prob-ably its strongest condition. Hammung, the new man at center, has held his own so far against the veterans he has met in oppos-ing teams, and is considered safe. Wilson, left, and Jones, right guard are both bloom left, and Jones, right guard, are both big, husky fellows, well qualified for their posi-tions, although Wilson is a little slow in morning, in order to allow the transcontinental lines to meet on Friday and see if they cannot arrange to do away with the demoralization in Pacific coast rates, and thus pave the way for an agreement of all the lines on the day following or on Monday. The earnings of the Atchison system for the third week in November were \$892,240, a decrease of \$\$1,474 compared with the same week last year. The earnings for the month to dats were \$2,699,740, a decrease from the same period of last year of \$230,522. He is very heavy for the place, properly belonging at tackle, but he is quick and gets around well. Behind the line Spooner, the first season on the team, but he has been doing excellent work, and is considered reliable. Yout, at right half, and Flippen, at left, are standbys. Their work on the left, are standbys. Their work on the team in the past has gained them a name outside of the state. Both are in fine form, although Yout is not showing up so well as could be wished in tackling the line. He is a little slow and sometimes misses the hole. Fair, who plays full back, is big and strong and very swift, but does not punt well. He bucks well and his blocking around the end and catching are good. In one point the Nebraska backs are weak. They are all prone to fumble. This has cost Nebraska every game she has lost this season, and on it rests Iowa's only hope. Nebraska's backers

are afraid of the fluke. It may not come. HOPE OF THE HAWKEYES. Iowa will be represented by a team that was pronounced in Chicago to be one of the best that ever lined up in that city. It has coached energetically and conscientiously by Roger Sherman. Its great point is line bucking and end runs, Herrig, the cham-plon western sprinter, being depended on to show his ten and two-fifths gait several

times during the game. Full personal descriptions of the members of both teams have hitherto been published

in The Bee. Last night the lowa team reached the city accompanied by a delegation of partisans, and took up its quarters at the Dellone. Iowa men are proud of the team, and there will be a good representation of Hawkeyes at the grounds today. So far as known the names and weights of the men who will line. up at Association park this afternoon are:

Nebraska Positions. Right end ... Wiggins, 14 light tackle .... \*Dern, 17 tight guard .... Jones, 18 Hayes, 175 Right end
Collins, 170 Right tackle
Leighton, 185 Right guard
Ivinson, 178 Center
Allen, 280 Left guard
Williams, 168 Left tackle
Littig, 164 Left end
"Sawyer Quarter back
Herring Right half
Converse Left half
Kepler Full back
"Captain. Hammaeg,
Wilson,
Oury,
Whiplpe,
Spooner,
Yont,

\*Captain. Substitutes—Iowa: Ingersoil, Fickles, Mc-Kinley, Bremner. Nebraska: Frank, Swee-ney, Brandt, Wiggin, Thorpe.

It will be noticed that the Iowa line is a little heavier than the Nebraska line, about a pound and a half to the man. This statement is made to forestall future conversation concerning "be f." If Wiggins, who is thirtyfive pounds under Nebraska's average, was up to weight, the "beef" would be in

favor.

Game will be called at 3 o'clock. To reach the grounds take the cable cars to Twentieth and Lake; Hanscom park motors to Twenty-fourth and Miami, or Sherman avenue motors fourth and Miami, or Sherman avenue motors to Sherman avenue and Miami.

BISHOP MATE'S PROBABLE SUCCESSOR

Appointment of Father McGuire of Chicago Considered Unlikely. CHICAGO, Nov. 28.—Regarding the ru-nored appointment of Father McGuire of this city to succeed Bishop Matz of Denver, Father Malone, editor of the Colorado Cath-olic who is in Chicago, says; "The report of the blood and keep it pure. The weak parts of the body are thus enabled to build themolic, who is in Chicago, says: "The report olic, who is in Chicago, says: "The report of Father Maguife's appointment most likely originated from the fact that Bishop Matz himself suggester Father McGuire as his successor. The conditions attached to his resignation by Bishop Matz make its acceptance highly improbable."

Father McGuire today said: "There can be no foundation for this rumor. I have heard nothing at all concerning it, and it is not possible that any one else could know who will be Hiship Matz's successor.

'old home" has the greatest attraction is hat made memorable by mother's pumpkin ples and stuffed turkeys. He who cannot spend at least that day under the ancestral roof or at his own fireside is in no way to be the kind that has appeared on an Omaha blamed if he resigns himself completely to melancholic retrospection. The directors and officers of the Young Men's Christian association, mindful of this fact, has decided to spread a Thanksgiving dinner at the association rooms and to extend a most cordial invitation to the young men of the city who are unable to reach their homes to come In with them. It is expected that about 125 lonesome fellows will turn out and accept this gracious hospitality.

The down town churches will hold a union

Letter from "de Gang." In a car of lumber from Malvern, Ark. billed to the G. H. Hammond company, were found two slips of paper supposed to have been written by members of the Cook gang of desperadoes. The notes state that the outfit were concealed in this car while the yards were lined with officers and detectives. The date is "Fort Scott, Ark., Nov. 20." The lines state that the gang is headed for a new territory and when they get there they will "surprise" the natives. The whole thing is signed "Lon Gordon and Bill Coock." There is a bluff at detectives, stating that they "shoot to kill," and a lot more rot. On another leaf Bill Coock says he will give himself up if the authorities will give him a "fair and impartial trial."

and Brain Restorers. Paine's Celery Compound Makes

People Well. Watch the Crowded Street of Any

Large City. By far the finest portrait galleries in the world are the crowded streets of a large city. "What a serious, tired expression on most every face!" one can't help saying to himself. It is rare that one goes by that does not wear something of that strained, worn look; and how many more pale lips there are than rosy ones. How often the eyes are dull, the flesh

flabby, and that tell-tale line from the corner of the lip to the angle of the nose, drawn painfully deep.

Poor health is unmistakable to the most casual observer. When the body is but poorly filled out with flesh, and a feeling of languor pervades the system, plainly there is something lacking in the vital, nutritive powers. Impure blood is keeping the tissues poorly fed and starvingly vitalized.

Get the blood pure with Paine's celery com-

pound and languor and debility will leave the body. Restore the nervous energy to the brain and nerve cells and good spirits and vigor will take the place of despondency and moodiness. Backaches, persistent headaches that general feeling of fatigue, neuralgia rheumatism, and heart weakness that show itself in frequent palpitation-are all but vari ous symptoms of a nervous organization badly nourished. Paine's celery compound promote the healthy activity of the organs that make selves up when this magnificent nerve and tissue builder is employed. The complete recovery and repair of the diseased organs in this way goes on rapidly, naturally, and the happy results are permanent. The effect of the intelligent use of Paine's celery compound in all wasting and debilitating diseases is to check at once the decline in strength, and t keep the tissues from further degeneration.

rendered with a zest that leaves no gaps in the entertainment.

The humor of the play centers around the race between McAllister and his friend, Dennis McGinty, for sheriff. Incidentally there is a banquet in honor of McAllister's nomination in the second act, at which McGinty arrives with the intention of making it interesting for his opponent. As a result, they both grow mellow over the wine and become involved in a muddle, from which they awake under the impression that they are guilty of a murder. It requires the entire third act to bring them out of the dilemma, and then it develops that McAllister has been elected and every one is satisfied. Mr. Gaylor, as McAllister, and Aruthr J. O'Brien, as McGinty, furnish a large share of the amusement, but they receive substantial assistance from Joe Kelly, who, in the character of a life insurance agent, it entitled to no small share of credit.

share of credit.

The second act is mainly devoted to the musical specialties, which are decidedly superior to those which accompany the usual run of similar performances. A most pleasing intertude in the medley of fun was the singing of Miss Marie Laurens, who sang an air from Italian opera and sang it so well that she was twice recalled. The specialty of Walter Goldie and William Gilbert was also very creditable, and the dancing of Miss Kathleen Warren and the banjo specialty of J. Jessie Burnes were also well received.
