FLOUR TRADE WAR.

Few people realize the extent and importance of the milling industry in this state. There are nearly 250 flouring mills, whose combined capacity, running full time, is great enough to supply all the flour consumed by the people of this state and still leave a large surplus for export. In no other manufacturing industry is there more money invested or more men employed. The total value of the annual output runs up into the millions. A conservative estimate places

Civil Service I xtension.

The year 1894 will be remarkable in Amersion of the Fifty-third congress to further disturb the financial and business interests of the country or to check the restoration of confidence and the progress making toward a recovery of prosperity.

The year 1894 will be remarkable in American pointend plants. Mr. Warner asserted that the trust's new refineries, by far the largest and most conomically working in the world, refine sugar from 10 cents to 15 cents per hundred pounds of product more cheapty than do the product more cheapty than do the product more cheapty than do the reformers had hardly dared expect for years to come. Already has President Cleveland extended the rules so as to include a large number of federal employes hitherto unprotected, but the good thus done is but a little thing when compared with the good he intends to do and as to which he is now conferring with the civil service commissioners. All the information to be had at this time indicates presidential belief that there should be no limit to the extensions. Every federal employe is to be selected and retained only because of fitness and without any regard whatever for political predilections; in short, the affairs of the government are to be run just as are the affairs of every well conducted and successful business house.

Two of 'Em-

Either of 'em will be a lucky strike for you it

it happens to be what you need. We mean the two special things we offer Monday-No. 1 is a fine \$20 Cheviot overcoat, oxford mixed color, silk piped fac-

ing, with embroidered relief work down inside of facing, heavy silk lined all through. It's an extra heavy lining, and this, combined with the tight weave of the cloth, gives a very warm garment with light weight-It has fly front, five buttons on each sleeve-It's not long [only 41 inches]-In fact it's a very stylish all around garment for fall, winter and spring wear. We always sold it for \$18 and \$20. There are 41 left and you get pick for \$12.50-nearly all sizes in the lot.

A neat brown Cheviot, flannel lined, well made-Sold Saturday for \$7,50-Balance of the lot, only 27 left, Monday for \$5 each.
