WASHINGTON, Dec. 5 .- The Turkish legation has received the following communication as regards the Armenian troubles: "Towards the end of July last, and under the instigation of an Armenian named Hampartzoun, the men of ten Armenian villages near Mooch formed separate bands, and armed with guns, daggers the action of the secretary of the treasury in hatchets and other instruments, attacked the tribe of Delikan, killed a few men o that tribe, and afterwards fell on the tribes

of Bekiran and Badikan. These bands burned alive Hadji, nephew of Eumer Ahga one of the chiefs of the Bekiran tribe, and not only assaulted Mussulman women of the village of Kulliguzat, but also put them to death in an atrocious manner. Men were also treated in a most ferocious way Not satisfied with all those lawless criminal proceedings, the same bands burned also a few villages inhabited by Mussulman people. Thanks, however, to the neasures taken by the lawful authorities, the bands in question were dispersed and the insurgent chief, Hampartzoun, as well as the priest, Mighirditch, of Kazil-Kilisse, and other guilty persons, were arrested and brought before justices. Twenty insurgents having surrendered were treated with all possible consideration, and after their depositions before the legal authorities of Mooch were taken they were given their freedom. It was Lese twenty insurgents who indicated the plain where the chief, Hampartzoun, and his accomplices were hiding. The above facts show that among the insurgents only twenty surrendered and that with the exception of the brigands, who broke in revolt, no one else was ill-treated.

WASHINGTON, Dec. 5,-An important conference of most of the democrate of the house committee on banking and currency was held after the adjournment of the house today, as a result of which early action looking to the reporting of a banking bill in line with the scheme presented by Secretary Carlisle in his message was taken. Chairman Springer said that Secretary Carlisle has intimated a desire to appear before the committee himself and has suggested the names of several persons whom it may be well for the committee to call for the pur-pose of learning their views. Among the names in the list furnished by Mr. Carlisle vere those of ex-Secretary Fairchild, Horace White of the New York Evening Post, Mr. St. John of New York, and George A. Butler of New Haven, Cohn. The members pres, ent decided to hold a meeting of the full committee on next Friday, when a resolution will be offered providing an invitation be extended to Mr. Carlisle and Mr. Eckels to appear on Monday and Tuesday respec tively and the other gentlemen to on the remaining days of the week. Efforts of the reade to close the hearing by the 15th inst., and, according to one member of the committee, immediate work on the preparation of a bill will be begun.

Collection of the Income Tax.

WASHINGTON, Dec. 5 .- Secretary Carlisle had a conference with Commissioner Miller of the internal revenue bureau, at which were discussed the regulations recently prepared to govern the collection of the in-come tax. The regulations are very lengthy and cover every question which is likely to arise in the administration of the law. They are not, however, likely to be promulgated

for some days yet, as the secretary has granted the request of some gentlemen to be

statistics of railways for the year ending June 30, 1894. On that date there were 174,461.77 miles of line in the United States, eing an increase during the year of 4,987.95 niles. The number of railway corporations was 1,890, being an increase of sixty-eight ver the previous year. The capitalization of the roads reporting was \$10,506,235,410; the number of passengers carried was 593,-560,612; the number of tons of freight carried 745,119,482; the gross earnings \$1,220,751,874; operating expenses, \$827,921. 299, leaving net earnings, \$392,830,575, which is equivalent to \$2,314 per mile. The com-

nission stated that all new cars ordered by he railways are being supplied with automatic couplers and a larger proportion with air brakes. The accidents of the year how little decrease on accunot of the use of automatic couplers. CORRESPONDENCE WITH BRAZIL.

Notice of Abrogation of the Reciprocity Treaty and Gresham's Reply.

WASHINGTON, Dec. 5 .- The president tolay sent to the senate the correspondence with the Brazilian minister here in reference to the termination of the Brazillan reciprocity arrangement, about which there has been some controversy. The correspondence be gins with a note to Secretary Gresham from Minister Mendonca of the date of September 24 last, in which the minister notifies the secretary that his government has informed Mr. Thompson, United States minister at Rio de Janeiro, of its intention to terminate the agreement in accordance with the stipulation therein contained regarding its duration, so that the termination shall take effect January 1, 1895. In response, under date of October 26, Secretary Gresham com-ments on the fact that the Brazilian goverrment deems it necessary to terminate the treaty on January 1. He says the act of August 28 last appeals these agreements where they were inconsistent with its pro-visions. Consequently, notice of an intention to terminate them was not contem-plated and was unnecessary by reason of their immediate termination. The minister's note, however, seems to imply that the United States and Brazil had contracted an

obligation not to terminate the arrangement except in the manner stipulated in gotlations leading up to it. The secretary proceeds to discuss that question at some length. In conclusion, the secretary says the friendly disposition of this government toward Brazil is attested by its present tariff legislation, placing the great bulk of Brazilian exports on the free list. While our imports from Brazil from 1890 to 1893 increased to the extent of nearly \$17,000,000 in value, our exports to that country in 1893 show an increase of less than \$500,000 over 1890.
