STOCKHOLM, Dec. 9 .- The 300th anniversary of the birth of Gustavus Adolphus, the great Swedish king, who died on the battlefield of Tuetzen, November 6, 1632, was celebrated here with a pomp and splendor which made it one of the greatest festivals ever held in this capital. The celebration commenced yesterday morning when the public school children gathered in their respective schools and marched to the variance. Faud Pasha, the bearer of Turkish orders for the case and cranting has several times. respective schools and marched to the various state churches, each child carrying a small flag. Later in the day memorial festivals were held in all the high colleges, and in the evening there were three celebrations on an immense scale, arranged by the Swedish Patriotic society.

In three of the largest banquet halls in Stockholm speeches were made by men famous in the service of their country, and patriotic music was performed by the various bands of the crack regiments. In addition, memorial services were held in some of the churches.

After the religious ceremonies a number of magnificent wreaths were placed on the tomb of Gustavus Adolphus. A guard of honor that was drawn up around the church fired a salute, which was answered by the cannon of the Skeppsholmen battery. A few hours later a memorial service was held in the German church. The sermon was preached in the German language by Prof. Fricke, president of the Gustavus Adolphus society of Germany. The king, the repre-sentatives of Emperor William and all the delegations from Germany attended. TROOPS IN PARADE.

At 4 p. m. a torchlight procession marched through the principal streets of the city, the torchbearers consisting of all the troops of the Stockholm garrison. While passing the Gustavus Adolphus mounment, which was splendidly decorated with flags and ban-ners and illuminated by thousands of arc lights, the standard bearers and all the troops saluted. All the buildings in the vicinity of the royal castle and Gustavus Adolphus square were illuminated. The scene was a magnificent one, the blue waters of Lake Maelar and the Baltic reflecting the innumersterna, the great chancellor of Azel Oxen-stierna, the great chancellor of Gustavus Adolphus, who conducted the thirty years' war after the king was dead, was most gorgeously illuminated. Average Price Per Passenger Per Mile Much Less Than in Previous Years-Interesting Resume of the Interstate Commerce Commission.

WASHINGTON, De.c 9 .- The Interstate commerce commission has just issued a preliminary report on the income and expenditures of railways in the United States for the year ending June 30, 1894, prepared by its statistician. The report contains the returns from 570 operating companies, whose reports were filed on or before November 23, 1894, and covers the operations of 149,559.21 miles of line, or about 85 per cent of the total operated mileage in the United States. The gross earnings from the operation of the 149,559,21 miles of line represented were \$949,639,075, of which \$300,137,142 were from passenger service, \$617,958,498 from freight service and \$22,420,298 for earnings from operation, covering receipts from telegraph, use of cars, switching charges, etc.

The operating expenses were \$343,428,331, leaving net earnings of \$306,210,744. Reduced to a mileage basis, the earnings from passenger service were \$2,067 per mile of line; from freight service \$4,132; total gross. earnings, \$6,350; operating expenses, \$4,302, and net earnings, \$2,048.

A comparison of these items with similar results from the complete report of the previous years shows a decrease per mile of line in earnings from passenger service of \$53; in earnings from freight service, \$774; in total gross earnings of \$840; in operating expenses of \$574, and in net earn-ings of \$266.

The number of passengers carried were 505,285,446; passengers carried one mile 12,888,926,578. Number of tons carried, 571,855,942; tons carried one mile, 70,426,244,

In order to show the volume of traffic for all the railways these figures should be increased 14 or 15 per cent. To compare the density of traffic with the previous years these figures are reduced to a mileage basis, which shows the number of passengers carried one mile per mile of line to be 86,253, as compared with 83,809 in 1893. TRAFFIC HAS INCREASED.

That there has been an increase in passen ger traffic regardless of the commercial de-pression is due to the unusual amount of travel in July, August and October, 1833, on account of the World's fair. The number of tons carried one mile per mile of line was 470,893 as compared with 551,232 for 1893. These figures show the decrease in the volume of freight traffic occasioned by the demoralization of business throughout the country. The net earnings available for the payment of fixed charges and dividends was \$306,210,744, as against \$350,766,607 for the same roads for the previous year, a decrease of \$44,555,863.

It is probable that the decrease in net earnings in all the railroads will exceed \$50,000,000. The dividends paid were \$62,-464,961, as compared with \$66,464,130 for current indebtedness. The report also shows the average price per passenger per mile and the average receipts per ton per mile for the year ending June 30, 1894, covering the mileage represented.

Regardless of the decrease in traffic there as been a decline in rates during the year the average receipts per passenger per mile being 1.976 cents, as compared with 2.18 cents in 1893, and the average receipts per per mile 8.6 cents, as compared with 3.7 cents in 1893.

Connection with the Income Tax. WASHINGTON, Dec. 9 .- The second week of the session in the house promises to witness a fierce struggle over the income tax in connection with the appropriation to be incorporated in the urgency deficiency bill to provide for the collection of the tax, which begins January 1, 1895. Mr. Sayres, chairman of the appropriations committee, intends to call up the bill on Tuesday after the railroad pooling bill is disposed of. Mr. Bartlett of New York is at the head of the opposition to the appropriation, and although the opposition is not considered strong enough to defeat the appropriation it is expected that the debate will abound with acrimoulous references to the late election, and that much bad blood will be manifested. The consideration of the income tax appropriation may consume several days.

Tomorrow is District of Columbia day Tuesday the fate of the pooling bill will be decided, as Mr. Patterson of Tennessee, in charge of the measure, has given notice that at 3 o'clock on that day he will demand the previous question. The general opinion is that the bill will not pass as reported, but will probably carry when amended so as to give to the Interstate Commerce commission absolute control of the conditions of railroad pooling and final authority in the matter of revoking pooling orders.

As soon as the urgency deficiency bill. which will follow, is out of the way, it is the intention of the appropriations committee esidence of Rev. A. This he refused to do. The charges were sent to Governor McGraw, who arrived here Friday, Yesterday Coblentz was summoned before the board and an investigation of the charges begun. It developed that about 399,000 grain bags had been disposed of, and that Coblentz combined with a number of "trusties" at the penitentiary, who have been assisting him in defrauding the state. No satisfactory excuse could be given for this, and the governor at once told him that there was sufficient charges against him to cause his removal, and that he was no longer warden of the Washington state penitentiary. Deputy Warden John Cameron was immediately appointed acting warden.

A warrant was sworn out charging Coblents with featigned at the same contents of the state. WASHINGTON, Dec. 9.-Postmaster Gen-

uty Warden J. In Cameron was immediately appointed acting warden.

A warrant was sworn out charging Coblentz with felonious defalcation of state money. This was given to a deputy sheriff to serve. When the deputy went to the warden's office the latter merely said: "I guess you have a warrant for my arrest." The officer answered in the affirmative. Coblentz then asked permission to finish his dinner, which the deputy sheriff granted. Coblentz turned and walked into his private office and closed the door. A moment later a pistol shot was heard. When the door was opened Coblentz was found lying on the floor with blood flowing from his head in a stream. He had placed a pistol to his head immediately behind the right ear and fired, the bullet passing through and coming out behind the left ear. Death was instantaneous. His remains will be taken to Arkansas for burial. Coblentz was a special agent of the Treasury department for a number of years, and was engaged in collecting evidence against opium smugglers on Puget sound and on the Columbia river. He was a deputy sheriff in Arkansas, and it was he who rescued the body of General John M. GREAT STORM AT PORTLAND. C. W. Kirchner Shot by Evans Scott in For Two Days the City Was Shut Off from

the Outside World.
PORTLAND, Ore., Dec. 9.—A violent wind he rain storm, which has prevailed for two ALBERT WHIFPLE OF CRAWFORD MISSING days throughout the northwest, has almost entirely shut off this section from tele graphic communication with the outside world. Telegraph and telephone wires have Said to Have Been Embarrassed in a Nume been prostrated in every direction. In this city tonight the wind gained a velocity of thirty-six miles per hour. Beyond the interruption to telegraphic communication there has been no serious damage done.

SAN FRANCISCO, Dec. 9.—The storm is tonight central north of Washington. The barometer pressure is 22 inch higher than this morning. A second storm was central this afternoon near San Francisco, and during the day has moved eastward, clusing severe local storms throughout northern California. Nevada and Utah. The greatest wind velocity during the course of the storm was sixty miles at Sacramento. The storms Saturday and on Friday were secondary depressions of the general storm, which has moved somewhat eastward during the past twelve hours, but has not yet progressed far enough to warrant a prediction of fair weather, although the recurrence of these local storms is unlikely. The rainfall during the past twenty-four hours at San Francisco was 37 inch.

STUART, Neb., Dec. 9,-(Special Telegram.)-Word was received here this evening that C. W. Kirchner, a young man, was probably fatally shot by Evans Scott at Hammond, in the southern portion of Rock county. The cause was a dispute over wages which Kirchner claimed Scott owed him, He and a couple of companions went to Scott's place to ask for a settlement. The young man's parents live near Rushville.

Quite Compromising.

Rock County.

The facts as far as learned do not seem o make it justifiable homicide, though there was a strong feeling against Kirchner. He was accused of stealing a saddle and had made threats that he ntended to burn out a couple of parties. He had a preliminary hearing here Monday on a charge of stealing a horse, but the case was dismissed, as it was shown that he took it openly and claimed it as his own, the party holding the horse not having legal title. It is also reported that the young man had a few days ago been warned to leave the neighborhood.

the Sac and Fox Indians that in an early day, while out on a hunting expedition, a band of wandering Sloux attacked them and killed several of the party. A courier was sent back to their village and all the young men donned the war paint and started in pursuit. The victorious Sloux were overtaken somewhere in upper Hoone county and a desperate battle ensued, and not a single Sloux was left to tell the bloody tale. It is quite probable that Mr. Cowan's farm is the site where the tragedy was enacted, as arrow heads and other Indian implements of war have been picked up in the vicinity from time to time. Another point also goes to show that the skeltons are those of Indians, and that is they appeared to be buried in a sliting posture, as the bones of the hands and forearms were in close proximity to the skull. One skull was smashed as with a semi-sharp instrument. Whipple has not been seen since Saturday end it is supposed he has absconded with a large amount.
