run into Council Bluffs in the near future. The details are not fully settled yet, but it is believed that they are fully under way. Some six weeks ago the East Omaha Bridge and Terminal company asked of the city council of Council Bluffs a franchise which would dicted by the management, "clean, cozy and enable it to lay its tracks along certain streets and alleys of the city across the ing with every performance. General Manager Webster of the terminal company said yesterday that there was no foundation for the rumor that his company contemplated the running of trains between Omaha and Council Bluffs. "We are endeayoring to offer terminal facilities for all roads, but will not engage in the railroad busiourselves unless we make a radical and entirely uncontemplated change in our policy. We have for the past six weeks been ndeavoring to secure a franchise for laying tracks on Union avenue, in Council Bluffs. The matter is till pending before the council of that city. When we secure it we shall certainly avail ourselves of it, for our company is doing nothing that does not keep the objects for which it is formed constantly in view. The franchise will enable certain west-

"It is only a question of time when some of the projects we have in view will materialize, and while we will be of the greatest benefit to Omaha. In the evening performance, fact, it will be impossible for our plans to succeed without giving Omaha the entire benefit. Our eastern stockholders are all confident and satisfied with the projects un-Northern, the Illinois Central and others equally prominent in the railway world are much nearer to Omaha than most people imagine. These roads have only kept away in the past for the reason that they could not secure terminal facilities in Omaha without an expenditure of millions of dollars. We offer them these facilities at a moderate fental and we are going to secure the companies. There is no question of it."

The most important action taken, however, was the fling of a petition asking the severance of all relations with the Atlantic & Pacific railway running from Albuquerque, N. M., to Mojave, Cal. The petition is a bulky document which recites a dozen or more engagements entered into by the Santa Fe with the Atlantic & Pacific looking to an exchange of business and practical co-operation between the two roads. The contracts and agreements have developed into a burden upon the Santa Fe system. Judge Caldwel referred the petitions to the master in chancery for special work.

"The Prodigal Father" is the coming traction at the Empire for the week of December 16, commencing with a Sunday mat-inee. The "Father" has made a decided ince. The "Father" has made a decided success in the larger eastern cities in which it has appeared this season, the Boston Globe saying: "There was a very funny performance by a very clever company at the Court Square theater last evening. The audience laughed constantly and wondered why they had never heard of "The Prodigal Father" before. The farce was contrived and written by Glen McDonough, who, by a fresh grouping of some old characters, poduced a work which, in the hands of a capable lot of actors, proves to be highly diverting from beginning to end. The humor is often sugern roads to get into Council Bluffs, and untermately will bring half a dozen roads into Omaha from the east."

Mr. Webster would not indicate which of the had planned to do, make a string of absurdities hard to beat. The humor is often suggisted as the comic papers, but it is engestive of the comic papers, but it is en-joyable for all that. The company is first-class in every respect.
