## WITH A HOLLOW HEAD.

## A Visitor in Omaha Shows Some Remarkable Tricks with a Hollow Head.

A small, modest, high-voiced Austrian arrived in Omaha yesterday and took up his abode for a few days in the City Hotel, at Tenth and Harney streets. He very soon interested a number of people in himself by his unusual personal peculiarities and by the performance of some very clever tricks. His real name is not stated, but he goes by the name of "Bismarck." He claims to have been stolen when a child by a gypsy and raised by them. He also declares that his head is hollow and he certainly comes near proving it by his tricks.

The man's work, however, is truly wonderful. He takes a steel wire spike four inches long and apparently pokes it into his nostril out of sight. He has a semi-circular piece of silver an inch in diameter, which he puts in the corner of his eye, where it around below the nose and removes it from the other eye a moment later. Other remarkable performances are given to show the hollowness of his head, as he says.

Besides this, however, he is a good sleight of hand performer, and he performs his feats close under the eyes of those who gather around him.

"Bismarck" will give free exhibitions in Browning, King & Co's corner window this evening and Thursday evening.

## ANOTHER SUGAR FACTORY.

## To Be Completed in Time to Handle the Next Crop.

The details for the formation of a company for the purpose of erecting another best sugar refinery in Nebraska are rapidly being completed. The new factory is to be located at Fremont, is to have a capacity of 750 tons per day and is to be ready for operation in time to handle the crop of 1895. The company will have a cash capital of \$500,000 and is a Nebraska enterprise, no eastern investors being interested. It is understood that the Standard Cattle company, which made such a success of its beet growing experiment last season, is to take \$100,000 of the stock, capitalists of Fremont and North Bend \$200,000 and the farmers the remaining \$200,000. The stock taken by the farmers is to be paid for in beets delivered at the factory, and each farmer is to be given five years in which to pay for his stock. Provision will be made so that the farmer raising the beets may deliver them at the factory and receive one-half of the price of the stock. This will enable the farmers who subscribe to the stock to receive cash returns each year while they are paying for their stock. A party of twelve of the Fremont and North Bend people interested in the new company visited the Norfolk factory Monday and made a careful study of its operation.

The popularity of Chamberlain's Cough Remedy and the high esteem in which it is held leads us to believe it to be an article of great worth and value. It has the pleasure of giving the experience of three prominent citizens of Redondo Beach, Cal., in the use of the remedy. Mr. A. W. Truett says: "I have always had prompt relief when I used Chamberlain's Cough Remedy." Mr. James Orchard says: "I am satisfied that Chamberlain's Cough Remedy cured my cold." Mr. J. M. Hatcher says: "For ten years I have used Chamberlain's Cough Remedy in my family and its results have always been satisfactory."

## AMUSEMENTS.

The entertaining farce comedy, "A Railroad Ticket," which will be presented at the Empire theater all next week, opening with a matinee Sunday, has scored immense success everywhere. Rarely has a play of this order received such unanimous praise. The story of the piece is an entertaining one, and is as follows: By the will of their father, Robert and Jack Ticker are left a small but equal sum of money to start in business. The one having the larger bank account at the end of the year is to receive two-thirds of his father's fortune, and the other the remainder. The two brothers, who are the best posted ticket broker in the United States, and Jack becomes a perfume drummer. They are both in love with the same girl and she is so much in love with both that she refuses to give her answer until the end of the year. Robert, tired of waiting, falls in love with his shorthand writer, gets married and settles down to business. Jack marries the girl of his heart and the fortune is equally divided.

New Theater Certain.

While the details of the plans for the new theater are not yet ready for the public the new building is an assured fact. Manager Burgess is to have a twenty-year lease, work is to be commenced in April 1, 1895, and the new amusement temple is to be ready for dedication on August 15. It will be an entirely new building and thoroughly modern in every respect. Manager Burgess feels relieved now that the question of a new theater is finally settled and he is of the opinion that the settlement of the question will greatly improve his present season's business. The new theater has not yet been announced, though it is about settled that the building will be on Farnam, west of Fifteenth street.
