VISIT OF COLLEGE CLUES SAVES THE WEEK

Dancing at Happy Hollow, a Tes at Mrs. Colpetzer's-Mrs. Drake Gives a Dancing Party for Her Daughter-Doings of the swells.

Let the homely girl, who is just beginning her first season, make up her mind early in the winter as to what "set" she means to be There is no place so large or so small that people of like tastes in society do not tend to congregate and seek each other's Everywhere one is sure to find company. the fast set, and the serious set, the musical, the literary, the religious, and the athletic sets; and, however she may make up her mind before hand to keep clear of cliques, she is sure to find, sooner or later, that she bas, by natural affinity, selected her special friends from some one of these sets.

To the ordinary looking debutante, who is full of health and high spirits, and eager for pleasure-as, thank heaven, the average girl is-the greatest temptation of all is to join the fast set; the set whose only pursuit and interest is pleasure, and, therefore, seem to her ignorant little eyes to have the best time of any of them.

She sees mamma shake her head when the names of some of the leaders in that set are mentioned, but when she meets them her-self they seem to her to be only more than usually jolly and kind and not at all differ. ent in behavior from girls whom mamma ap-proves of, and the men of that set are liveller and dance well and say such admiring things to her that she jumps to the conclusion that the fast set are quite as nice as anybody, and

much more amusing. After a while she hears them say, and sees them do, some little thing that shocks her rather, but they are so good tempered and cheerful about it that she hesitates to take offense at it, and day by day she sees and hears, and gradually grows accustomed to things that would have shocked her terribly at first, had she known them all at once. Day by day she grows to "not mind" coarse jokes and vulgar deeds, and from thinking harm she simply passes into imitating their behavior; the decline in her delicacy and modesty being so gradual that she does not perceive how far she has gone.

Another set that the wise, sweet minded young debutante will keep out of is the idle set, who find their only amusements in the feeblest of novels and the Saturday matinees. Who fill their empty hours with furlous admiration of actors and singers, know and care nothing for such addle pated admirers. This is the set that are always knocking about the streets, taking hours for the smallest bit of shopping, dwelling forever upon idle gossip, priding them-selves upon their slang, and spoiling their digestions with a continued diet of sweets. Every girl beginning her first season should

take stock of herself carefully. A pretty girl, or a rich girl, or a witty girl, is likely to be much in demand; but the girl who is not pretty has a somewhat harder task be fore her to make her season pleasant and successful.

For one thing, she should realize that while beautiful debutantes can afford to be a little careless in dress and still look at-tractive, it behooves her to be always a very pink of perfection in all matters of toilet, since there is a certain beauty and charm in absolute neatness which every one onsciously feels. Her hair should always be beautifully done, her nails perfectly manicured, and every pin, pleat and ribbon exactly in place.

A clever, witty girl finds most things plain sailing, but a girl without such gifts can almost as much with sweet temper and careful courtesy, and cheerful willingness to be of use to other people.

The rich girl, too, can, without much difficulty. command a following, but the poor has a harder time. Yet the poor girl who shows no envy, who takes her upon tions cheerfully, is not always standing upon the art of being

her dignity, and knows the att of being a charming guest and accepting gracefully two years ago they made friends of the at the rd of command, with every man accounted for, and did its duty. Now that there comes a cry of distress from the debutantes of the season with great and drouth stricken sufferers of the state, of the disadvantages of circumstance. This wonderful facility, a knowledge that only Guards have again promptly fallen in, and this time voluntarily through their officers and their chaplain, Dean Gardner, have excomes from long practice in gliding from stage to box, while some of the other fellows in the club are amusing the audience. And tended the use of their armory and the services of the company toward providing this year the men were equally expert, the boxes being always filled with the much means for collecting food, funds and raiment for the sufferers. ### Danced Christmas In.

The Omaha Guards full dress party at th Madison on Christmas eve proved an eminently successful entertainment. The room: were decorated with holly and garlands of Christmas greens, which emitted that delicate odor of pines which we usually associate with a happy Yuletide. The dining room with its floor as smooth as glass was utilized for danc

ing purposes, as was also the south parlor, where from the chandeller was suspended a great sprig of mistletoe extending a sweet privilege, if not command, which the soldier boys were not slow in respecting. During the dance a refreshing punch and confectionery was served and at the conclusion of the intertainment a luncheon was provided, for which the company is under obligation to Mrs. Axiell. Later the party was grouped and photographed by flash light. The entertainment was strictly limited to members of the company and their ladies. Kountze.
