have precedence over all other legislation flat on the tracks when run over, it is was carried without a dissenting vote.

Meyers of Brown called up a resolution which went over on Friday, to the effect that the speaker appoint a committee of nine to act in reference to irrigation, and that it be made one of the standing committees. Burns of Lancaster moved a point of order that to do this it would be necessary to suspend the rules of 1889, as they provided for but fortytwo standing committees. The speaker ruled the point well taken and declared the motion out of order. Considerable debate occurred on this subject, and on motion of Thomas of Hamilton the matter was postponed until to-

morrow morning. Richardson of Madison came forward with a resolution that the new chairs now in ase in the house be returned to the party from whom they came, and that they be re-placed by the cld chairs in use in 1893. It was mixed to lay the whole matter on the table and amid considerable excitement ayes and mays were called for by Smith of with result that the whole matter was tabled. The inconvenience of these pieces of furniture has been a bone of contention ever since the opening of the session. In the midst of the roll call Soderman of Phelps delivered a short but impassioned speech against the extravagance of the secretary of state in purchasing such useless articles.

## BEGAN INTRODUCING BILLS.

On the call for introduction of bills, Lam bara of Red Willow obtained first recognition from the speaker, and sent up a bill providing for voting of bonds by counties for the purchase of seed grain.
