HAWAII WANTS THE CABLE

Willing to Break Off with the United States to Secure the Connection.

ASKED RELEASE FROM THE TREATY

Great Britain Demanded the Lease of a Small Island—Cleveland Recommends that This Country Should Not Stand in the Way.

WASHINGTON, Jan. 9.—The president today sent to congress another batch of Hawaiian correspondence supplementary to the Walker report. This last chapter is full of interest, inasmuch as it reveals in one case a notable difference of opinion between Admiral Walker and United States Minister Willis, making a clear issue between them. In the second place it discloses an effort being made by the British government, with the consent of the Hawaiian authorities, to secure the lease of an island of the Hawaiian group to be used as a cable station. The issue between the admiral and the minister is made plain by the following extract from a letter from Secretary Gresham to Minister Willis dated August 31, and the minister's reply.

"A very remarkable dispatch from Rear Admiral Walker, dated 'At Sea, August 17,' and reporting events at Honolulu, up to the date of his departure on the 12th, has been communicated to me by the secretary of the navy for my information. I enclose a copy for your perusal. The apprehensions of the admiral do not seem to have been shared by you sufficiently to warrant your reporting the petition for the retention of the Philadelphia which was addressed to you as well as to the naval commander, and it is trusted that your reported concurrence in that officer's views will be found due to some misapprehension. I am, etc., W. Q. GRESHAM."

Mr. Willis' reply to Mr. Gresham is dated at Honolulu, September 29, and reads:

"Sir: I have the honor to acknowledge the receipt of your favor of the 31st ult., enclosing a dispatch of Rear Admiral Walker of August 17.

"After a lengthy statement seriously reflecting upon the late British minister and the commanding officer of the Champion, expressing such apprehensions touching the political situation here as necessitated the return of the Philadelphia, the admiral in the eleventh paragraph says: 'Before reaching this conclusion (to postpone the Philadelphia's departure) I consulted with the United States minister, whose views entirely coincided with my own.'

HOLDING THE PHILADELPHIA.

"Your dispatch indicates that these words of the admiral have been given a wider meaning than could have been intended by him. A brief recital of the facts may, therefore, be proper. On the 5th day of August I was informed by the admiral that he would leave with the Philadelphia on the 8th. On the 6th the British minister, Major Wodehouse, having been succeeded by Mr. Hawes, made his farewell official visit to this legation, during which he mentioned the fact that the Champion had intended to leave on that date, but some of the English residents had become nervous when they heard that the Philadelphia was also to leave and yielding to their request the Champion would remain until the Hyacinth arrived. Upon the same morning I made a parting call on the officers of the Philadelphia, when the admiral told me that several citizens had expressed their regret at the departure of the Philadelphia before the arrival of the Charleston, which vessel was daily expected. He also expressed some surprise at the change of plans of the Champion. In view of these facts he asked my opinion in regard to the detention of the Philadelphia. I replied that as the steamer Australia was due here August 11 at 8 a. m. and would probably bring correct advices as to the Charleston's movements, I saw no reason, if not in conflict with his order (as to the nature of which I was not informed), why the Philadelphia should not wait until then. When the Australia arrived I immediately notified the admiral that no news warranting his further stay had been received. He left the next morning.

"It is this conversation and the unimportant result following it with which the admiral connects me. The statement as to the conduct and sentiments of the British minister and captain of the British cruiser, and especially as their purpose to land troops for political advantage and the dangers resulting therefrom to American interests, I cannot confirm, either from person knowledge or reliable information. If called upon to express my opinion I should be constrained to say that during the past six months and especially since the proclamation of the republic, the presence or absence of the British war vessels here, ought to have been regarded with indifference by our government as it is now by this government.

"'The petition of citizens' referred to by the admiral, I did not receive until the day after our conversation. The conditions here for many months had been extremely orderly and peaceful. As stated by the petition itself, there was 'no reason to doubt the ability of the government of the republic of Hawaii to support and sustain itself and furnish full protection to the lives and property of all residents in its territory.'

"In this opinion even the enemies of the government concurred. Furthermore, on the day after receiving the petition, Mr. Hatch, the minister of foreign affairs, expressed to me his regret that it had been sent, as those he represented welcomed the opportunity to prove to the world that they were able to take care of themselves. These I deemed sufficient reasons for not forwarding the petition. ALBERT S. WILLIS."

ABOUT THE CABLE.

The projected lease of the Hawaiian Islands as a cable station is explained by Minister Willis in several letters, beginning October 13. In the first letter Mr. Willis says that negotiations had been pending between the Hawaiian government and representatives of Great Britain in regard to an ocean cable between Canada and Australia touching at Neckar island or at Honolulu. He did not think that an agreement would be reached at present owing to the clause in our treaty with Hawaii prohibiting the cession of any of the islands to any foreign government without our consent. He noted that the registration just closed showed an increase in population for the island of Oahu of 1,829, as against 1,735 at the May elections. The financial statement showed a loss of revenue for the year, as compared with 1893, of $96,941, but as the expenditures were decreased by $121,483 there was a net gain of $24,542. On October 9 the minister writes as follows: "Mr. Fleming of Canada and Mr. Mercer of the colonial offices of London, in company with Mr. Hawes, the British commissioner, returned on the 16th inst., from Bird Island, which they had visited with the Hyacinth in the interest of the proposed cable. They leave today for home via Washington, where they will probably submit to the president and yourself some proposition relating to their mission here. On the 15th inst. Mr. Verlaye, the French commissioner, requested that your attention be called to the fact that his countrymen had just completed a cable to New Caledonia and would probably desire to extend it to Tahiti, the Hawaiian islands, and the United States. For this reason he hoped that our government would not be hasty in the matter."

On November 2 the minister tells of the success of the full ticket of the American Union party without excitement and of the arrival of 500 Japanese labor emigrants to labor under contract.

On December 3 the cable proposition seems to have taken full shape, for on that date Mr. Willis writes, recalling his former reference to the subject and stating that "the Hawaiian government is of the opinion that it is stopped from considering the proposition of the British commissioners by article 4 of the reciprocity treaty between Hawaii and our government.

ASKS FOR A RELEASE.

This matter is now, therefore, at the request of this government submitted to the consideration of our government upon the question of its willingness to nullify the treaty of reciprocity by exempting Neckar island, French Frigate shoals or Nihoa (Bird Island) from the operation of article 4 of the treaty, which reads as follows: 'It is agreed on the part of his Hawaiian majesty that as long as this treaty shall remain in force he will not lease or otherwise dispose of, nor create any lien upon any special privileges or rights of use therein to any other power, state or government.'

"In this connection I enclose copies of the note of Mr. Hatch, minister of foreign affairs, and of correspondence between him and the commissioners."

In the note to which Mr. Willis refers from Mr. Hatch the latter explains that the British propositions involve the use of one of the uninhabited islands belonging to the republic, viz: Neckar island, French Frigate shoals or Nihoa (Bird island), as a cable station in consideration of such use and of such subsidy as might be agreed upon, and the connection of Honolulu to the main line by a branch cable to the island which might be selected. The minister expatiates at length on the importance of the proposed cable to Hawaii and recites the fact that the government has in times past offered considerable subsidies, in one case amounting to $25,000 per annum and the exclusive right for fifteen years to secure such a cable. The opportunity now offered, he says, is one to which his country cannot be indifferent to if it can be taken up consistently with treaty obligations and if no more desirable scheme is presented. As the proposition is one in which the British government is directly or indirectly interested, Mr. Hatch says the Hawaiian government feels itself stopped by our reciprocity treaty from considering it until the views of our government can be ascertained. Enclosed in Mr. Hatch's note is a letter from Messrs. Fleming and Mercer, the Canadian and British commissioners, transmitting a copy of the memorandum of agreement touching the cable.

These gentlemen say they presume Mr. Hatch will bring the proposed agreement to the attention of the United States government and ascertain whether it will give its consent. They hope that the Washington government will be able to do this upon proper representations. They endeavor to show the advantages that would accrue to the United States from direct cable communication with Honolulu and exceedingly low telegraph rates to Australia, all without contributing to the capital required for the cable or the heavy subsidies necessary for its operation. It is said that the United States government has been for some time aware of the undertaking, and there can be little doubt that it can recognize the advantages to be secured by it. It is by no means settled that the undertaking will, if it is determined upon, be carried out as a government enterprise. It might be committed to a company, whose lease would not literally come within the terms of the treaty with the United States, but having regard to the circumstances that foreign governments will have a substantial interest in the lease the commissioners are quite in accord with the suggestion that in any shape the agreement should be sanctioned by the United States. It is understood that if the Washington authorities consent the memorandum will be submitted to the Hawaiian legislature.

The commissioners then touch upon the question of subsidy and say that another feasible route than Hawaii is under consideration and the adoption of the latter must be justified on financial and commercial grounds. They propose to inform the British government of Mr. Hatch's inquiry whether they would accept the sovereignty of Neckar island or some other, on condition that no subsidy was required, but as they asked only for a lease they did not feel at liberty to entertain that question themselves. The memorandum shows that the subsidy demanded is £7,000 per annum for fifteen years, that the island shall not be fortified or used as a naval station, or other than for cable purposes, and that the agreement shall terminate upon breach of its terms.

In his last letter, dated December 14, Minister Willis mentions the arrest of five persons on the 9th inst. for conspiracy and levying a war against the republic. He also says that there have been several rumors of intended revolution, but no excitement or interruption of business. The government expresses confidence in its ability to suppress any disturbance which might arise. The British warship Hyacinthe would remain in port until relieved by another war vessel.

In the course of the correspondence it is said that the Hawaiian republic has been formally recognized by France, Mexico, Great Britain, Japan, Switzerland, Russia and Guatemala.

RECOMMENDS THE RELEASE.

The above correspondence was transmitted with the following message from the president:

"To the Senate and House of Representatives:

"I submit herewith certain dispatches from our minister at Hawaii and the documents which accompanied the same. They disclose the fact that the Hawaiian government desires to lease to Great Britain one of the uninhabited islands belonging to Hawaii as a station for a submarine telegraph cable to be laid from Canada to Australia with a connection between the island leased and Honolulu.

"Both the government of Hawaii and the representatives of Great Britain in this negotiation concede that the proposed lease will not be effected without the consent of the United States, for the reason that in our reciprocity treaty with the king of Hawaii he agreed that as long as said treaty remained in force he would not 'lease or otherwise dispose or create any lien upon any port, harbor or other territory in his dominion or grant any special privileges or right of use therein to any other power, state or government.' At the request of the Hawaiian government this subject is laid before the congress for its determination of so modifying the treaty agreement above recited as to permit the proposed lease.

"The attention of congress is directed to the following statement contained in a communication addressed to the Hawaiian
